

review, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and 5) if neither the exporter nor the manufacturer is a firm covered in this or any previous proceeding conducted by the Department, the cash deposit rate will continue to be the "all others" rate established in the LTFV investigation, which is 21.01 percent. *See Antidumping Duty Order.* These cash deposit requirements, when imposed, shall remain in effect until further notice.

Duty Assessment

Upon publication of the final results of this review, the Department shall determine, and CBP shall assess, antidumping duties on all appropriate entries. Pursuant to 19 CFR 351.212(b)(1), the Department calculates an assessment rate for each importer of the subject merchandise for each respondent. In accordance with 19 CFR 351.212(b)(1), we will calculate importer-specific *ad valorem* assessment rates on the basis of the ratio of the total amount of antidumping duties calculated for the examined sales and the total entered value of the examined sales. These rates will be assessed uniformly on all entries of the respective importers made during the POR if these preliminary results are adopted in the final results of review. The Department intends to issue appropriate assessment instructions directly to CBP 15 days after the date of publication of the final results of this review.

The Department clarified its "automatic assessment" regulation on May 6, 2003. *See Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003) (*Assessment Policy Notice*). This clarification will apply to entries of subject merchandise during the period of review produced by companies included in the final results of review for which the reviewed companies did not know that the merchandise it sold to the intermediary (e.g., a reseller, trading company, or exporter) was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediary involved in the transaction. *See Assessment Policy Notice* for a full discussion of this clarification.

Public Comment

Pursuant to 19 CFR 351.224(b), the Department will disclose to any party to the proceeding the calculations

performed in connection with these preliminary results within five days after the date of publication of this notice. Pursuant to 19 CFR 351.309, interested parties may submit written comments in response to these preliminary results. Unless extended by the Department, case briefs are to be submitted within 30 days after the date of publication of this notice. Rebuttal briefs, limited to arguments raised in case briefs, may be submitted no later than five days after the time limit for filing case briefs. Parties who submit arguments in this proceeding are requested to submit with the argument: 1) a statement of the issues; 2) a brief summary of the argument; and 3) a table of authorities. Case and rebuttal briefs must be served on interested parties in accordance with 19 CFR 351.303(f).

Also, pursuant to 19 CFR 351.310(c), within 30 days of the date of publication of this notice, interested parties may request a public hearing on arguments to be raised in the case and rebuttal briefs. Unless the Secretary specifies otherwise, the hearing, if requested, will be held two days after the date for submission of rebuttal briefs. Parties will be notified of the time and location. The Department will publish the final results of this administrative review, including the results of its analysis of issues raised in any case brief, rebuttal brief, or hearing no later than 120 days after publication of these preliminary results, unless extended. *See* 19 CFR 351.213(h).

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

The preliminary results of this administrative review and this notice are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 30, 2007.

David M. Spooner,

Assistant Secretary for Import Administration.

Oil Country Tubular Goods, Other than Drill Pipe, from Korea: Extension of Time Limit for Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: May 7, 2007.

FOR FURTHER INFORMATION CONTACT: Scott Lindsay or Dara Iserson, AD/CVD Operations, Office 6, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington DC 20230; telephone: (202) 482-0780 or (202) 482-4052, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 31, 2006, the Department of Commerce (the Department) received timely requests for an administrative review of the antidumping duty order on oil country tubular goods, other than drill pipe (OCTG) from Korea, with respect to SeAH Steel Corporation, Husteel Co., Ltd, and Nexteel Co., Ltd. On September 29, 2006, the Department published a notice of initiation of this administrative review for the period of August 1, 2005 through July 31, 2006. *See Notice of Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 71 FR 57465 (September 29, 2006).

Extension of Time Limit for Preliminary Results

Pursuant to section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), the Department shall issue preliminary results in an administrative review of an antidumping duty order within 245 days after the last day of the anniversary month of the date of publication of the order. The Act further provides, however, that the Department may extend that 245-day period to 365 days if it is not practicable to complete the review within the foregoing time period.

The Department finds that it is not practicable to complete the preliminary results by the current deadline of May 3, 2007 because this is Nexteel Co., Ltd.'s first appearance under this antidumping duty order and additional time is needed to analyze this company's information. We have also requested additional information from the respondents and we will need more

time to analyze the responses and issue any supplemental questionnaires, if necessary. Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time limit for the preliminary results until no later than August 31, 2007, which is 365 days after the last day of the anniversary month of the date of publication of the order. Unless extended, the final results continue to be due 120 days after the publication of the preliminary results, pursuant to section 351.213(h) of the Department's regulations.

This notice is issued and published in accordance to sections 751(a)(1) and 777(i)(1) of the Act.

Dated: April 30, 2007.

Stephen J. Claeys,

Deputy Assistant Secretary for Import Administration.

I. Abstract

The Treaty on Fisheries Between the Governments of Certain Pacific Island

States and the Government of the United States, signed in Port Moresby, Papua New Guinea, in 1987, and its annexes, schedules and implementing agreements, as amended (Treaty), authorize U.S. tuna vessels to fish within fishing zones of a large region of the Pacific Ocean. The South Pacific Tuna Act (16 U.S.C. 973g and 973f) and U.S. implementing regulations (50 CFR 282.3 and 282.5) authorize the collection of information from participants in the Treaty fishery. Vessel operators who wish to participate in the Treaty fishery must submit annual license and registration applications and periodic written reports of catch and unloading of fish from a licensed vessel. The information collected is submitted to the Forum Fisheries Agency (FFA) through the U.S. government (National Marine Fisheries Service). The license and registration application information is used by FFA to determine the operational capability and financial responsibility of a vessel operator interested in participating in the Treaty fishery. Information obtained from vessel catch and unloading reports is used by FFA to assess fishing effort and fishery resources in the region and to track the amount of fish caught within each Pacific island state's exclusive economic zone for fair disbursement of Treaty monies. If the information is not collected, the U.S. government will not meet its obligations under the Treaty, and the lack of fishing information will result in poor management of the fishery resources.
