II. What is the Agency's Authority for Taking this Action?

Section 5(h)(1) of TSCA and 40 CFR 720.38 authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of

new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

III. What Action is the Agency Taking?

EPA has approved TMEs-07-1; 3; 5; 6; 7; 8; 9; and 10. EPA has determined that test marketing these new chemical substances, under the conditions set out in each TME application and in this notice, will not present any unreasonable risk of injury to health or the environment.

IV. What Restrictions Apply to these TMEs?

The test market time period, production volume, number of customers, and use must not exceed specifications in the applications and this notice. All other conditions and restrictions described in the applications and in this notice must also be met.

The following additional restrictions apply to these TMEs. A bill of lading accompanying each shipment must state that the use of the substance is restricted to that approved in the TME. In addition, the applicant shall maintain the following records until 5 years after the date they are created, and shall make them available for inspection or copying in accordance with section 11 of TSCA:

1. Records of the quantity of the TME substance produced and the date of manufacture.

2. Records of dates of the shipments to each customer and the quantities supplied in each shipment.

3. Copies of the bill of lading that accompanies each shipment of the TME substance.

V. What was EPA's Risk Assessment for these TMEs?

EPA identified no significant health or environmental concerns for these test market substances based on the low toxicity of each substance. Therefore, the test market activities will not present any unreasonable risk of injury to human health or the environment. (These TMEs were submitted per the TSCA New Chemicals Sustainable Futures Voluntary Pilot Project; see the *Federal Register* of Dec. 11, 2002 (67 FR 76282) (FRL-7198-6)).

VI. Can EPA Change Its Decision on these TMEs in the Future?

Yes. The Agency reserves the right to rescind approval or modify the conditions and restrictions of an exemption should any new information that comes to its attention cast significant doubt on its finding that the test marketing activities will not present any unreasonable risk of injury to human health or the environment.
