SUPPLEMENTARY INFORMATION:

Background

The FAA and NPS established the GCWG within the NPOAG to provide advice and recommendations regarding the implementation of the National Parks Overflights Act of 1987 with respect to the Grand Canyon. The GCWG is comprised of 20 members to assure a representative and balanced group of agency, tribal, environmental, recreation, and aviation interests. The Working Group is co-chaired by a representative of the NPS and a representative of the FAA, and is facilitated by Lucy Moore Associates, a third-party neutral contracted through the U.S. Institute for Environmental Conflict Resolution. The Working Group has specific responsibilities for Grand Canyon overflight matters, including but not limited to: Review of the overflights noise analysis; and recommendations for a final overflights plan that provides for the substantial restoration of natural quiet and experience of the Grand Canyon National Park, including routes or corridors for commercial air tour operations that employ quiet aircraft technology.

The National Parks Air Tour Management Act of 2000, enacted on April 5, 2000, as Public Law 106-181, required the establishment of the NPOAG within one year after its enactment. The Act requires that the NPOAG be a balanced group of representatives of general aviation, commercial air tour operations, environmental concerns, and Native American tribes. The Administrator of the FAA and the Director of NPS (or their designees) serve as ex officio members of the group. Representatives of the Administrator and Director serve alternating 1-year as chairman of the advisory group.

The duties of the NPOAG include providing advice, information, and recommendations to the FAA Administrator and the NPS Director on: Implementation of Public Law 106-181; quiet aircraft technology; other measures that might accommodate interests to visitors to national parks; and at the request of the Administrator and the Director, on safety, environmental, and other issues related

to commercial air tour operations over national parks or tribal lands.
