

issued on March 15, 2007 and published in the **Federal Register** on March 30, 2007 (72 FR 15168).

The initial investigation resulted in a negative determination based on the finding that imports of WEB based line art illustrations did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

The Department reviewed the request for reconsideration and has determined that the petitioner has provided additional information. Therefore, the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 4th day of May, 2007.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.
