Site Visit

FPL will conduct a tour of the project on Wednesday, June 27, 2007, starting at 9 a.m. All participants interested in attending should meet at the project's dam located on Route 15. All participants attending the site visit should be prepared to provide their own transportation and lunch. Anyone in need of directions to the dam should contact Mr. Frank Dunlap of FPL at (207) 623-8417. Those individuals planning to participate in the site visit are asked to notify Mr. Dunlap of their intent, no later than June 14, 2007.

Scoping Meeting Objectives

At the scoping meetings, staff will: (1) Present the proposed list of issues to be addressed in the EA; (2) review and discuss existing conditions and resource agency management objectives; (3) review and discuss existing information and identify preliminary information and study needs; (4) review and discuss the process plan and schedule for pre-filing activity that incorporates the time frames provided for in Part 5 of the Commission's regulations and, to the extent possible, maximizes coordination of federal, state, and tribal permitting and certification processes; and (5) discuss requests by any federal or state agency or Indian tribe acting as a cooperating agency for development of an environmental document.

Meeting participants should come prepared to discuss their issues and/or concerns. Please review the Pre-Application Document in preparation for the scoping meetings. Directions on how to obtain a copy of the PAD and Scoping Document are included in item n. of this document.

Meeting Procedures

The meetings will be recorded by a stenographer and will become part of the formal Commission record on the project.

Kimberly D. Bose,

Secretary.

Use EPA's electronic docket and comment system at www.regulations.gov to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public

viewing at www.regulations.gov as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: The 2007 National Survey of Local Emergency Planning Committees.

ICR number: EPA ICR No. 1903.02, OMB Control No. 2050-0162.

ICR Status: This ICR is for a reinstatement of a previously approved collection. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The U.S. Environmental Protection Agency (EPA), Office of Solid Waste and Emergency Response (OSWER), Office of Emergency Management (OEM) plans to collect information through a one-time, web-based, voluntary nationwide survey of representatives from Local Emergency Planning Committees (LEPCs). The establishment of LEPCs is required under The Emergency Planning and Community Right-to-Know Act of 1986 (EPCRA). These broad committees, composed of representatives from the public safety, health care, and industry sectors, as well as environmental and community organizations, are charged with developing and maintaining emergency plans for their communities. LEPCs foster a valuable dialogue between members of government, industry, and the public to prevent and prepare for the accidental (and terrorist-related) releases of hazardous chemicals.

This proposed information collection will build upon previous LEPC surveys, which measured levels of compliance and proactivity of LEPCs. Since the last survey in 1999, no systematic nationwide analysis of LEPC activity has been conducted. In the six years since September 11th, local emergency planning has evolved, most notably, in the amount of information that is now available to assist LEPCs in preparing for and preventing chemical emergencies.

The primary goals of this research are to: (1) Track the progress of LEPCs by assessing their current activity compared to some of the data collected in 1999 survey; and (2) probe current LEPC practices and preferences regarding several important sets of issues, including: Communications with local citizens, proactive accident prevention efforts, and the effectiveness of selected OEM products and services.

This collection will also contribute to reporting requirements of the Government Performance and Results Act (GPRA) of 1993, which stipulates that agencies evaluate program activities in terms of outputs and outcomes. This survey is necessary to evaluate whether OEM is successfully providing national leadership and assistance to local communities in preparing for and preventing chemical emergencies.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 0.25 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: People who hold a leadership position on Local Emergency Planning Committees (LEPCs). It is anticipated that the majority of respondents will be LEPC chairs.

Estimated Number of Respondents: 3,500.

Frequency of Response: One time collection.

Estimated Total Annual Hour Burden: 875.

Estimated Total Annual Cost: \$40,285, which is exclusively for labor, as there are no annualized capital or O&M costs.

Changes in the Estimates: As this ICR was previously discontinued, there are no currently approved burdens and costs. Accordingly, this ICR requests a new one-time labor burden of 875 hours.

Dated: May 9, 2007.

*Acting Director, Collection Strategies
Division.*

Clean Air Act Operating Permit Program; Petition To Object to Title V Permits for Potlatch Corporation's Clearwater Wood Products Facility, Idaho Pulp and Paperboard Division, and Consumer Products Division, Lewiston, ID

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Notice of final order on petition
to object to state operating permits

SUMMARY: Pursuant to Clean Air Act (CAA) section 505(b)(2) and 40 CFR 70.8(d), the EPA Administrator signed an order dated May 7, 2007, denying a petition to object to state operating permits issued by the Idaho Department of Environmental Quality to Potlatch Corporation's Clearwater Wood Products Facility, Idaho Pulp and Paperboard Division, and Consumer Products Division, all located in Lewiston, Idaho (Potlatch permits). This order constitutes final action on the petition submitted by Mr. Mark Solomon, representing the Idaho Conservation League, Friends of the Clearwater, and himself, on February 7, 2003, requesting that EPA object to the issuance of the Potlatch permits. Pursuant to section 505(b)(2) of the CAA, any person may seek judicial review in the United States Court of Appeals for the appropriate circuit within 60 days of this notice under section 307 of the CAA.

ADDRESSES: Copies of the final order, the petition, and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region 10, Office of Air, Waste, and Toxics (AWT-107), 1200 Sixth Avenue, Seattle, Washington 98101. The final order is also available electronically at the following Web site: <http://www.epa.gov/region07/programs/artd/air/title5/petitiondb/petitiondb.htm>.

FOR FURTHER INFORMATION CONTACT:
Doug Hardesty, Office of Air, Waste and Toxics, EPA Region 10, telephone (208) 378-5759, e-mail hardesty.doug@epa.gov.

SUPPLEMENTARY INFORMATION: The Clean Air Act affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for the objection or other issue arose after the comment period.

On February 7, 2003, EPA received a petition from Mr. Mark Solomon, representing the Idaho Conservation League, Friends of the Clearwater, and himself, requesting that EPA object to the issuance of the Potlatch permits. The petition alleged that: (1) The three Potlatch divisions should be covered by a single Title V operating permit; and (2) IDEQ used the wrong model in determining the ambient air quality impacts of the Potlatch facilities. The order explains the reasons behind EPA's decision to deny the petition for objection on all grounds.

Ronald Kreizenbeck,

Deputy Regional Administrator, Region 10.

Commission Seeks To Update the Record for a Petition for Reconsideration Regarding Home Shopping Stations

AGENCY: Federal Communications
Commission.

ACTION: Notice.

SUMMARY: In this document, the Commission seeks to update the record for a Petition for Reconsideration filed by the Center for the Study of Commercialism (CSC), concerning stations that air home shopping programming and their status. The Commission seeks comment on CSC's argument that the Commission failed to consider in its public interest analysis the significant amount of commercial programming broadcast by home shopping stations; on the specific issues concerning how home shopping stations serve the people in their communities, including the elderly and homebound; on CSC's assertion that the Commission failed to consider information relevant to one of three statutory factors, *i.e.*, competing demands for the spectrum; and on CSC's assertion that the Cable Act requires the Commission to consider non-broadcast uses in its analysis of competing demands for spectrum. The Commission would like to update the record for this proceeding before ruling on the petition.
