

conservation credits from the Cajon Creek Conservation Bank in eastern San Bernardino Valley. The conservation bank collects fees that fund a management endowment to ensure the permanent management and monitoring of sensitive species and habitats, including the SBKR.

Our EA considers the environmental consequences of three alternatives: (1) The Proposed Project Alternative, which consists of issuance of the incidental take permit and implementation of the HCP; (2) the On Site Conservation Alternative, which consists of a reduced project footprint and conservation of SBKR within the proposed project site; and (3) the No Action Alternative, which would result in no impacts to SBKR and no conservation.

National Environmental Policy Act

Proposed permit issuance triggers the need for compliance with the National Environmental Policy Act (NEPA). Accordingly, a draft NEPA document has been prepared. We are the lead agency responsible for compliance under NEPA. As NEPA lead agency, we provide notice of the availability and make available for public review the EA.

Public Review

We invite the public to review the HCP and EA during a 60-day public comment period (see **DATES**).

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

We provide this notice pursuant to section 10(a) of the Act and the regulations for implementing NEPA, as amended (40 CFR 1506.6). We will evaluate the application, associated documents, and comments submitted thereon to determine whether the application meets the requirements of NEPA regulations and section 10(a) of the Act. If we determine that those requirements are met, we will issue a permit to the Applicant for the incidental take of the SBKR. We will make our final permit decision no sooner than 60 days after the date of this notice.

Dated: May 31, 2007.

Alexandra Pitts,

Acting Deputy Manager, California/Nevada Operations Office, Sacramento, California.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Record of Decision for the Final Bison and Elk Management Plan and Environmental Impact Statement

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability.

SUMMARY: The U.S. Fish and Wildlife Service and the National Park Service, U.S. Department of the Interior, as lead agencies, announce the availability of a Record of Decision (ROD) for the final Bison and Elk Management Plan (Plan) and Environmental Impact Statement (EIS) for the National Elk Refuge and Grand Teton National Park/John D. Rockefeller, Jr., Memorial Parkway (Grant Teton National Park). The final Plan/EIS was prepared pursuant to the National Wildlife Refuge System Administration Act of 1966; as amended; the National Park Service Management Policies of 2006; and the National Environmental Policy Act (NEPA). The final Plan/EIS was prepared in cooperation with the U.S. Department of Agriculture Animal and Plant Health Inspection Service (APHIS); the U.S. Department of Agriculture Forest Service; the Department of Interior Bureau of Land Management (BLM); and the State of Wyoming Game and Fish Department (WGFD). The final Plan/EIS describes our proposal for management of the Jackson bison and elk populations within their respective jurisdictions for 15 years. The effects of six alternatives for the management of bison and elk populations for the National Elk Refuge and Grand Teton National Park are disclosed in the final Plan/EIS and are described in the ROD. We adopted and plan to implement Alternative 4—Adaptively Manage Habitat and Populations.

FOR FURTHER INFORMATION CONTACT: For further information, or to request a copy of the final Plan/EIS or the ROD, contact Laurie Shannon, Planning Team Leader, Region 6, 134 Union Boulevard, Lakewood, Colorado 80228, 303-236-4317 (Phone); 303-236-4792 (Fax); laurie_shanon@fws.gov (e-mail). Additionally, a copy of the Final Plan/EIS may be obtained by writing to:

Jackson Bison and Elk Management Planning Office, P.O. Box 510, Jackson, Wyoming 83001; Telephone: 307-733-9212, or E-mail:

bisonelk_planning@fws.gov or by download from the project Web site: <http://www.bisonandelkplan.fws.gov>.

SUPPLEMENTARY INFORMATION: The National Elk Refuge and Grand Teton National Park are located north of Jackson, Wyoming. Together with the Bridger-Teton National Forest, they make up most of the southern half of the Greater Yellowstone Ecosystem. The National Elk Refuge comprises approximately 24,700 acres, Grant Teton National Park comprises 309,995 acres, and the John D. Rockefeller Jr., Memorial Parkway is approximately 23,777 acres. The Jackson bison and elk herds make up one of the largest concentrations of free-ranging ungulates in North America. Currently, these herds number over 1,000 bison and 13,000 elk. The herds migrate across several jurisdiction boundaries, including Grant Teton National Park and southern Yellowstone National Park, Bridger-Teton National Forest, BLM resource areas, and State and private lands, before they winter primarily on the National Elk Refuge. Due to the wide range of authorities and interest, including management of resident wildlife by the State of Wyoming on many federal lands, we have used a cooperative approach to management planning involving all of the associated federal agencies and the WGFD.

The effects of six alternatives for the management of bison and elk populations for the National Elk Refuge and Grand Teton National Park are disclosed in the final Plan/EIS and are described in the ROD. Significant issues considered in the ROD include: Bison and elk populations and their ecology; restoration of habitat and management of other species of wildlife; supplemental winter feeding operations of bison and elk; disease prevalence and transmission; recreational opportunities; cultural opportunities and western traditions and lifestyles; commercial operations; and the local and regional economy.

The ROD provides the basis for our decision on the proposed Bison and Elk Management Plan. We adopted and plan to implement Alternative 4—Adaptively Manage Habitat and Populations, as described in the Final Plan/EIS, because it balances the major issues and stakeholder perspectives identified during the planning process with the purposes, missions, and management

policies of the U.S. Fish and Wildlife Service and the National Park Service.

Under the proposed plan, assuming the WGFD's herd objective of 11,000 has been met, and that higher numbers of elk would use the winter range, about 5,000 elk and 500 bison will winter on the National Elk Refuge at the end of the first phase of implementation. The elk hunt on the National Elk Refuge, and elk herd reductions as needed in Grand Teton National Park, will continue. A public bison hunt will be instituted on the National Elk Refuge and managed in accordance with the State of Wyoming licensing requirements and an approved refuge hunting plan. As herd sizes and objectives are achieved, further reductions in feeding or elk numbers will occur based on established criteria developed in collaboration with WGFD. The proposed plan includes an adaptive management framework that incorporates population management, habitat restoration, public education, and monitoring into an adaptive, progressive, and collaborative approach to address habitat conservation and wildlife population management.

Public comments were requested, considered, and incorporated throughout the planning process in numerous ways. Public outreach has included public open houses, public hearings, individual outreach activities, planning update mailings, and **Federal Register** notices. Three previous notices were published in the **Federal Register** concerning this Plan/EIS (66 FR 37489–37490, July 18, 2001; 70 FR 42089–42090, July 21, 2005; and 72 FR 5078–5080, February 2, 2007).

Dated: May 14, 2007.

James J. Slack,

Deputy Regional Director, Region 6, Denver, Colorado.

BILLING CODE 4310–55–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[MT–020–07–1310–DT]

Notice of Intent To Prepare Supplemental Air Quality Analysis Information for the Draft Supplement to the Montana Statewide Final Oil and Gas Environmental Impact Statement (Draft SEIS) and Amendment of the Powder River and Billings Resource Management Plans (RMP), Miles City, MT

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: Pursuant to the National Environmental Policy Act (NEPA) of 1969, as amended, the Bureau of Land Management (BLM), Miles City Field Office, Montana, announces its intent to prepare supplemental air quality analysis information. On February 2, 2007, the BLM published a Notice of Availability in the **Federal Register** announcing the release of the Draft SEIS for public review and comment. The 90-day comment period closed May 2, 2007. The BLM was notified by the Environmental Protection Agency (EPA) of air quality analysis deficiencies in the Draft SEIS. As a result, the BLM is preparing an additional air quality analysis. When the additional air quality analysis has been completed, the BLM will only accept comments from the public on the new information presented.

DATES: The BLM anticipates making the additional air quality analysis information available to the public for a 90-day comment period around September 2007. The BLM will publish a Notice of Availability in the **Federal Register** when the supplemental air quality analysis is ready for release for public comment. Additional announcements will be made through local media by news releases and posted information on the Draft SEIS Web site: http://www.blm.gov/eis/mt/milescity_seis/.

FOR FURTHER INFORMATION CONTACT: Mary Bloom, Project Manager, Miles City Field Office, P.O. Box 219, Miles City, Montana 59301, or by telephone at (406) 233–2852.

SUPPLEMENTARY INFORMATION: Public comments submitted on the supplemental air quality analysis on the Draft SEIS, including names, e-mail addresses, and street addresses of the respondents, will be available for public review and disclosure at the above address during regular office business hours (7:45 a.m. to 4:30 p.m.), Monday through Friday, except holidays. Individual respondents may request confidentiality.

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

Sandra C. Berain,

Acting State Director.

Bureau of Land Management

[AZ–420–1430–ES; AZA 32985]

Notice of Realty Action; Recreation and Public Purposes (R&PP) Act Classifications; Arizona

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management (BLM) has examined and found suitable for classification approximately 16 acres of public land in Pima County, Arizona, for lease or conveyance to the Drexel Heights Fire District under the provisions of the Recreation and Public Purposes Act, as amended, and in keeping with section 7 of the Taylor Grazing Act, as amended. The Fire District proposes to use the land for the expansion of an existing fire station facility, operated by the Drexel Heights Fire District.

DATES: Submit comments on or before July 23, 2007.

ADDRESSES: Detailed information concerning this action, including but not limited to, a development plan and documentation relating to compliance with applicable environmental and cultural resources laws, is available for review at the Bureau of Land Management, Tucson Field Office, 12661 East Broadway Boulevard, Tucson, Arizona 85748–7208.

FOR FURTHER INFORMATION CONTACT: Susan Bernal, Realty Specialist, at (520) 258–7206; e-mail address susan_bernal@blm.gov.

SUPPLEMENTARY INFORMATION: The following described public land in Pima County, Arizona, has been examined and found suitable for lease or conveyance for use as an expanded fire station facility under the provisions of the Recreation and Public Purposes (R&PP) Act, as amended, 43 U.S.C. 869 et seq., and is hereby classified accordingly pursuant to section 7 of the Taylor Grazing Act, as amended, 43 U.S.C. 315f:

Gila and Salt River Meridian, Arizona

T. 15 S., R. 12 E., sec. 3, lots 1 and 2 (within).

The area described contains 16 acres in Pima County.
