

acceptance criteria may be resolved through the design-centered review approach for initial applications containing common information, but we do not intend to impose any resolution so obtained on subsequent COL applicants. While there is no requirement to adopt a previously-approved resolution of an issue, and subsequent applicants are free to use the most recent state-of-the-art methods to resolve such issues, we nevertheless urge such applicants to consider adopting previous resolutions in order to maximize plant standardization. If a COL applicant adopts an approach to a technical issue previously found acceptable, no further staff review of the adequacy of the approach is necessary. Rather, the staff review should be limited to verification that the applicant has indeed adopted the previously approved approach and will properly implement it.

### C. ITAAC

In first promulgating 10 CFR Part 52 in 1989, we determined that hearings on whether the acceptance criteria in a COL have been met (ITAAC-compliance hearings) would be held in accordance with the Administrative Procedure Act (APA) provisions applicable to determining applications for initial licenses, but that we would specify the procedures to be followed in the Notice of Hearing. See § 52.103(b)(2)(i) (1990); 54 FR 15395. In enacting the Energy Policy Act of 1992, Congress subsequently confirmed our authority to adopt 10 CFR Part 52, and by statute accorded us additional discretion to determine procedures, whether formal or informal, for ITAAC-compliance hearings. See Atomic Energy Act section 189a.(1)(B)(iv), 42 U.S.C. 2239(a)(1)(B)(iv). We therefore amended § 52.103(d) to provide that we would determine, in our discretion, “appropriate hearing procedures, whether informal or formal adjudicatory, for any hearing under [§ 52.103(a)].”

While we recognize that specification of procedures for the treatment of requests for hearings on ITAAC would lend some predictability to the ITAAC compliance process, we are not yet in a position to specify such procedures, since we have not approved even one complete set of ITAAC necessary for issuing a COL. Further, ITAAC-compliance hearings are likely several years distant, and we have no experience with the type and number of hearing requests that we might receive with respect to ITAAC compliance. While it may not be necessary to consider the first requests for ITAAC-

compliance hearings in order for us to determine the procedures appropriate to govern such hearings, we believe it premature to specify such procedures now. In addition, the staff is now formulating guidance on the times necessary for the staff to consider different categories of completed ITAAC, and this guidance should assist licensees in scheduling and performing ITAAC so as to minimize the critical path for staff consideration of completed ITAAC.

In view of the above considerations, we have identified one measure to lend predictability to the ITAAC compliance process: The Commission itself will serve as the presiding officer with respect to any request for a hearing filed under § 52.103. In acting as the presiding officer under these circumstances, we will make three initial determinations. First, we will decide whether the person requesting the hearing has shown, *prima facie*, that one or more of the acceptance criteria in the COL have not been, or will not be met, and the attendant public health and safety consequences of such non-conformance that would be contrary to providing reasonable assurance of adequate protection of the public health and safety. Second, if we decide to grant a request for a hearing on ITAAC compliance, we will decide, pursuant to § 52.103(c), whether there will be reasonable assurance of adequate protection of the public health and safety during a period of interim operation. Third, we will designate the procedures under which the proceeding shall be conducted. We have amended § 52.103 and our Rules of Practice (§§ 2.309, 2.310, and 2.341) to incorporate these changes.

### III. Conclusion

The Commission reiterates its long-standing commitment to the expeditious completion of adjudicatory proceedings while still ensuring that hearings are fair and produce an adequate record for decision. The Commission intends to monitor its proceedings to ensure that they are being concluded in a fair and timely fashion. To this end, the Commission will act in individual proceedings, as appropriate, to provide guidance to licensing boards and parties, and to decide issues in the interest of a prompt and effective resolution of the matters set for adjudication.

For the Nuclear Regulatory Commission.

Dated at Rockville, Maryland, this 4th day of June 2007.

Secretary of the Commission.
