FOR FURTHER INFORMATION CONTACT:

Kenneth Epstein, 202-366-2157, Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue, SE., Washington, DC 20590. Office hours are from 8 a.m. to 4:30 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION: *Title:* Drug Offender's Drivers License Suspension Certification.

OMB Control #: 2125-0579
(Expiration Date: September 30, 2007).

Background: States are legally required to enact and enforce laws that revoke or suspend the driver license of any individual convicted of a drug offense and to make annual certifications to the FHWA on their actions. The implementing regulations of the Department of Transportation and Related Agencies Appropriation Act, 1993 (Pub. L. 102-388, October 6, 1992) require annual certifications by the Governors. In this regard, the State must submit by January 1 of each year either a written certification, signed by the Governor, stating the State is in compliance with 23 U.S.C. 159; or a written certification stating the Governor is opposed to the enactment or enforcement, and the State legislature has adopted a resolution expressing its opposition to 23 U.S.C. 159.

Beginning in Fiscal Year 1996, States' failure to comply by October 1 of each fiscal year resulted in a withholding penalty of 10 percent from major categories of Federal-aid funds (*i.e.*, National Highway System, Surface Transportation Program, and the Interstate Maintenance Program) from States' apportionments for the fiscal year. Any funds withheld in Fiscal Year 1996 and thereafter cannot be restored and will be redistributed.

This information collection supports the DOT Strategic Goal of Safety by promoting safety programs that continually improve highway safety by reducing the number of highway fatalities and injuries including large trucks and ensuring safe travel on highways.

Respondents: 50 States and the District of Columbia and Puerto Rico.

Estimated Annual Burden Hours: The average is 5 hours for each respondent which will require 260 total annual burden hours.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: June 18, 2007.

James R. Kabel,

Chief, Management Programs and Analysis Division.

UTAH RECLAMATION MITIGATION AND CONSERVATION COMMISSION

Notice of Availability of the Decision Notice and Finding of No Significant Impact for Ute Tribe Fish Hatchery Construction in Utah

AGENCY: Utah Reclamation Mitigation and Conservation Commission.

ACTION: Notice of availability.

SUMMARY: The Utah Reclamation Mitigation and Conservation Commission (Mitigation Commission) and the Ute Tribe have prepared an Environmental Assessment (EA) to determine the effects of construction of a Ute Tribe Fish Hatchery to be located at Big Springs and Youth Camp in Duchesne County, Utah. After considering public comments and analyzing environmental effects, the proposed action was selected, which provides for the construction, operation and maintenance of the Ute Tribe Hatchery.

The Proposed Action consists of: developing the water supply and internal water delivery systems, hatchery building, fish rearing units,

staff housing and power supply. The facility is located on approximately 4 acres on the Uintah and Ouray Indian Reservation.

Construction of the Ute Tribe Fish Hatchery will allow the Tribe to meet its fishery long-term stocking needs and management objectives for providing cold-water sport fishing opportunities and Colorado River cutthroat trout conservation. Under the Proposed Action, annual production of the facility will be approximately 16,000 pounds, at a total estimated cost of \$3 million.

Based on information contained in the EA and supporting documentation, a Finding of No Significant Impact was made on the Proposed Action, as it

would not significantly affect the quality of human environment, within the meaning of the National Environment Policy Act. In addition, specific issues would be addressed as follows: facility design will be coordinated with Tribal Elders to avoid impacts to the culturally important site at Big Springs; water quality issues will be addressed through compliance with a pertinent discharge permit; a wetland mitigation plan will be coordinated with the U.S. Army Corps of Engineers for estimated wetland impacts; and appropriate measures will be designed to avoid adverse impacts to raptors will be implemented.
