B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a Code of Federal Regulations (CFR) part or section number.
- iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.
- iv. Describe any assumptions and provide any technical information and/or data that you used.
- v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.
- vi. Provide specific examples to illustrate your concerns and suggest alternatives.
- vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.
- viii. Make sure to submit your comments by the comment period deadline identified.

II. Background

A. What is a TSCA Section 21 Petition?

TSCA section 21 allows citizens to petition EPA to initiate a proceeding for the issuance, amendment, or repeal of a rule under TSCA sections 4, 6, or 8 or of an order under TSCA sections 5(e) or 6(b)(2). A TSCA section 21 petition must set forth facts that the petitioner

believes establish the need for the action requested. EPA is required to grant or deny the petition within 90 days of its filing. If EPA grants the petition, EPA must promptly commence an appropriate proceeding. If EPA denies the petition, EPA must publish its reasons for the denial in the **Federal Register**. Within 60 days of denial, or expiration of the 90-day period if no action is taken, the petitioner may commence a civil action in a U.S. district court to compel initiation of the requested rulemaking proceeding.

B. What Action is Requested Under this TSCA Section 21 Petition?

On June 6, 2007, the Sierra Club, the Environmental Law & Policy Center, the Pacific Coast Federation of Fishermen's Association, the Washington Toxics Coalition, Physicians for Social Responsibility, and UNITE HERE petitioned EPA to take action under TSCA sections 4 and 6(a). The petitioners requested that EPA exercise its authority under TSCA section 4 to require manufacturers and importers to conduct specific health and safety studies and under TSCA section 6(a) to require labeling on all products containing NP and NPE and to limit the use of NP and NPE in certain circumstances.

Specifically, the petition requested that EPA require testing under TSCA section 4 for:

- "filling the gaps for chronic toxicity of NPE oligomers;"
 - "filling the gaps regarding the additive toxicity of NP and NPE oligomers to [aquatic] species;"
 - "research on individual endocrine disruption impacts and on the relationship between individual endocrine disruption impacts and pollution-level impacts;"
 - "testing for vitellogen gene expression;"
 - "testing related to levels of NP and NPE in humans and estrogenic effects in humans;"
 - "testing for health impacts on workers handling the chemicals at industrial laundries;" and
 - "testing for determine[ing] exposure to NPE in residential indoor air."
- The petition also requested that EPA take action under TSCA section 6(a) to:
- "require labeling on all products containing the chemical;"
 - "restrict the use of the chemicals where the user cannot verify that the chemical will receive proper treatment from an activated sludge treatment process designed to nitrify;"
 - "ban the use of the chemicals in industrial and consumer detergents;" and

- "require pollution prevention planning by facilities that use 2000 kg or more of NP or NPEs."

C. EPA Seeks Public Comment

Under TSCA section 21, which is applicable to requests for rulemaking proceedings under TSCA sections 4 and 6(a), EPA must either grant or deny a petition within 90 days. Because EPA must respond to the requests for action under TSCA sections 4 and 6(a) by September 4, 2007, EPA will allow the public until July 25, 2007 to reply with any additional information relevant to the issues identified in the petition, a copy of which can be obtained from the public docket (see **ADDRESSES**).

In assessing the usability of any data or information that may be submitted, EPA plans to follow the guidelines in EPA's "A Summary of General Assessment Factors for Evaluating the Quality of Scientific and Technical Information" (EPA 100/B-03/001), referred to as the "Assessment Factors Document." The "Assessment Factors Document" published in the **Federal Register** of July 1, 2003 (68 FR 39086) (FRL-7520-2) and is available on-line at: <http://www.epa.gov/fedrgstr/EPA-GENERAL/2003/July/Day-01/g16328.htm>. That document is also available on-line at: <http://www.epa.gov/osa/spc/assess.htm>.
