

through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752.

An electronic version of the public docket is available through [www.regulations.gov](http://www.regulations.gov). You may use the [www.regulations.gov](http://www.regulations.gov) to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.

It is important to note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing online at [www.regulations.gov](http://www.regulations.gov) without change, unless the comment contains copyrighted material, CBI, or other information whose disclosure is restricted by statute. Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the EPA Docket Center.

#### *B. How and to Whom Do I Submit Comments?*

You may submit comments as provided in the **ADDRESSES** section. Please ensure that your comments are submitted within the specified comment period. Comments received after the close of the comment period will be marked "late." EPA is not required to consider these late comments.

If you submit an electronic comment, EPA recommends that you include your name, mailing address, and an e-mail address or other contact information in the body of your comment and with any disk or CD-ROM you submit. This ensures that you can be identified as the submitter of the comment and allows EPA to contact you in case EPA cannot read your comment due to technical difficulties or needs further information on the substance of your comment. Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket,

and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the [www.regulations.gov](http://www.regulations.gov) Web site to submit comments to EPA electronically is EPA's preferred method for receiving comments. The electronic public docket system is an "anonymous access" system, which means EPA will not know your identity, e-mail address, or other contact information unless you provide it in the body of your comment. In contrast to EPA's electronic public docket, EPA's electronic mail (e-mail) system is not an "anonymous access" system. If you send an e-mail comment directly to the Docket without going through [www.regulations.gov](http://www.regulations.gov), your e-mail address is automatically captured and included as part of the comment that is placed in the official public docket, and made available in EPA's electronic public docket.

**[FRL-8441-3]**

### **Clean Air Act Operating Permit Program; Petition to Object to Title V Permit for Reliant Portland Generating Station, Upper Mount Bethel Township, Northampton County, PA**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final order on petition to object to state operating permit.

**SUMMARY:** Pursuant to section 505(b)(2) of the Clean Air Act (CAA) and 40 CFR 70.8(d), the EPA Administrator signed an order dated June 20, 2007, denying a petition to object to a state operating permit proposed to be issued by the Pennsylvania Department of Environmental Protection (PADEP) to Reliant Energy Mid-Atlantic Power Holdings, LLC for its Portland Generating Station in Northampton County, Pennsylvania. This order constitutes final action on the petition filed by the New Jersey Department of Environmental Protection (NJDEP), dated July 21, 2006, requesting that the Administrator object to the issuance of the proposed title V permit. Pursuant to section 505(b)(2) of the CAA, any person may seek judicial review in the United

States Court of Appeals for the appropriate circuit within 60 days of this notice under section 307 of the CAA.

**ADDRESSES:** Copies of the final order, the petition, and all pertinent information relating thereto are on file at the following location: Environmental Protection Agency, Region III, Air Protection Division (APD), 1650 Arch St., Philadelphia, Pennsylvania 19103. The final order is also available electronically at the following Web site: <http://www.epa.gov/region07/programs/artd/air/title5/petitionb/petitiondb.htm>.

**FOR FURTHER INFORMATION CONTACT:** Dave Campbell, Air Protection Division, EPA Region III; telephone (215) 814-2196, or by e-mail at [campbell.dave@epa.gov](mailto:campbell.dave@epa.gov).

**SUPPLEMENTARY INFORMATION:** The Clean Air Act (CAA) affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. Petitions must be based only on objections raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for objection or other issue arose after the comment period.

EPA received a petition from the New Jersey Department of Environmental Protection (NJDEP), dated July 21, 2006, requesting that EPA object to the issuance of the proposed title V permit for the Reliant Portland Generating Station because, (1) the plant was modified in violation of the Prevention of Significant Deterioration (PSD) requirements of the Clean Air Act but had not installed the Best Available Control Technology (BACT); (2) modifications increased the hourly emission rate at the plant, triggering unnamed New Source Performance Standards (NSPS); and (3) the permit must contain maximum hourly heat input limits for the boilers in order to prevent NAAQS exceedances, avoid triggering NSPS, and to assure compliance with limits derived from the Pennsylvania State Implementation Plan (SIP). The order explains the reasons behind EPA's decision to deny NJDEP's petition for objection on all grounds.

Dated: July 9, 2007.

Donald S. Welsh,

Regional Administrator, Region III.
