

of Engineers, Seattle District, at 206–764–6878.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3) the Corps is proposing to amend the restricted area regulations in 33 CFR part 334 by modifying the area at § 334.1270. The proposed modification to this existing restricted area is described below. This request has been made to increase safety and security of naval operations at Naval Magazine, Indian Island.

In addition to the publication of the proposed rule, the Seattle District Engineer is concurrently soliciting public comment on the proposed rule by distribution of a public notice to all known interested parties.

Procedural Requirements

a. *Review Under Executive Order 12866.* This proposed rule is issued with respect to a military function of the United States and the provisions of Executive Order 12866 do not apply.

b. *Review Under the Regulatory Flexibility Act.* This proposed rule has been reviewed under the Regulatory Flexibility Act (Pub. L. 96–354, 5 U.S.C. 601) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small governments). The Corps expects that the proposed modification to the existing restricted area would have practically no economic impact on the public, and would create no anticipated navigational hazard or interference with existing waterway traffic.

c. *Review Under the National Environmental Policy Act.* The Corps has concluded, based on the minor nature of the proposed rule, that the addition of and amendment to a restricted area, if adopted, will not be a major federal action having a significant impact on the quality of the human environment, and preparation of an environmental impact statement is not required. An environmental assessment will be prepared after all comments have been received and considered. After it is prepared, the environmental assessment may be reviewed at the district office listed at the end of the **FOR FURTHER INFORMATION CONTACT**, above.

d. *Unfunded Mandates Act.* The proposed rule does not impose an enforceable duty among the private sector and, therefore, is not a Federal private sector mandate and is not subject to the requirements of Section

202 or 205 of the Unfunded Mandates Reform Act (Pub. L. 104–4). We have also found under Section 203 of the Act, that small governments will not be significantly or uniquely affected by this rulemaking.

The Corps is also proposing to amend the existing regulations that established the restricted areas in the waters of Sinclair Inlet, Puget Sound adjacent to Naval Base Kitsap Bremerton, Kitsap County, Washington. The proposed amendments will enable the affected units of the United States military to enhance safety and security around active military establishments. The regulations are necessary to safeguard military vessels and United States government facilities from sabotage and other subversive acts, accidents, or incidents of similar nature. The regulations are also necessary to protect the public from potentially hazardous conditions that may exist as a result of military use of the area.

FOR FURTHER INFORMATION CONTACT: Mr. David Olson, Headquarters, Operations and Regulatory Community of Practice, at 202-761-4922; Ms. Michelle Walker, Regulatory Branch Chief, U.S. Army Corps of Engineers, Seattle District, Northwest Division, at 206-764-6915; or Ms. Koko Ekendiz of the Regulatory Branch, U.S. Army Corps of Engineers, Seattle District, at 206-764-6878.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat. 892; 33 U.S.C. 3) the Corps is proposing to add a new regulation at 33 CFR 334.1244 to establish a restricted area that would surround the

Manchester Fuel Depot pier during times of active fueling. The restricted area would establish a no-entry zone around the fueling pier during active fueling. The U.S. Navy would alert the public by utilizing flashing lights on the pier.

Under the same authorities noted above, the Corps is also proposing to amend the restricted area regulations in 33 CFR part 334 by modifying the areas at § 334.1240. The proposed modifications to the existing restricted areas are described below. This request has been made to clarify that Washington State Ferries on established routes are exempt from the restrictions for Area 1, disestablish a portion of Area 2 by the Washington State Ferry terminal, and enlarge a portion of Area 2 near Mooring E.

In addition to the publication of these proposed rules, the Seattle District Engineer is concurrently soliciting public comment on the proposed rules by distribution of a public notice to all known interested parties.

Procedural Requirements

a. *Review Under Executive Order 12866.* These proposed rules were issued with respect to a military function of the United States and the provisions of Executive Order 12866 do not apply.

b. *Review Under the Regulatory Flexibility Act.* These proposed rules have been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354, 5 U.S.C. 601) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (i.e., small businesses and small governments). The Corps expects that the addition of, and proposed modification to, the existing restricted areas would have practically no economic impact on the public, and would create no anticipated navigational hazard or interference with existing waterway traffic. Accordingly, it is certified that this proposal if adopted, will not have a significant economic impact on a substantial number of small entities.

c. *Review Under the National Environmental Policy Act.* The Corps has concluded, based on the minor nature of the proposed rules, that the establishment of a new restricted area at Manchester and amendments to the restricted areas in Sinclair Inlet, if adopted, would not be a major federal action having a significant impact on the quality of the human environment, and preparation of an environmental impact statement is not required. An

environmental assessment will be prepared after the public notice period is closed and all comments have been received and considered. After it is prepared, it may be reviewed at the District office listed at the end of the **FOR FURTHER INFORMATION CONTACT**, above.

d. *Unfunded Mandates Act.* These proposed rules do not impose an enforceable duty among the private sector and, therefore, are not a Federal private sector mandate and are not subject to the requirements of Section 202 or 205 of the Unfunded Mandates Reform Act (Pub. L. 104-4). We have also found under Section 203 of the Act that small governments will not be significantly or uniquely affected by this rulemaking.

Approval and Promulgation of Implementation Plans; States of Arizona and Nevada; Interstate Transport of Pollution

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve state implementation plans submitted by the States of Arizona and Nevada that address interstate transport with respect to the 8-hour ozone and fine particulate matter national ambient air quality standards. In so doing, EPA has determined that the plans submitted by Arizona and Nevada and approved herein satisfy requirements under Clean Air Act section 110(a)(2)(D)(i) for each State to submit a plan containing adequate provisions to prohibit interstate transport with respect to the standards for 8-hour ozone and fine particulate matter. EPA is proposing this action pursuant to those provisions of the Clean Air Act that obligate the Agency to take action on submittals of state implementation plans. The effect of this proposal would be to approve the Arizona and Nevada state implementation plans addressing interstate transport with respect to the 8-hour ozone and fine particulate standards and to eliminate obligations on the Agency to promulgate Federal Implementation Plans for these States addressing this same requirement.
