Honey From the People's Republic of China: Extension of Preliminary Results of Antidumping Duty Administrative Review and Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") is extending the time limit for the preliminary results of the administrative and new shipper reviews of honey from the People's Republic of China ("PRC"). These reviews cover the period December 1, 2005, through November 30, 2006.

EFFECTIVE DATE: July 31, 2007.

FOR FURTHER INFORMATION CONTACT: Catherine Bertrand or Anya Naschak, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-3207 or (202) 482-6375, respectively.

SUPPLEMENTARY INFORMATION:

Background

On December 10, 2001, the Department published in the **Federal Register** an antidumping duty order covering honey from the PRC. See *Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Honey from the People's Republic of China*, 66 FR 63670 (December 10, 2001). On February 2, 2007, the Department published a notice of initiation of the administrative review of the antidumping duty order on honey from the PRC. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 72 FR 5005 (February 2, 2007). On February 5, 2007, the Department published a notice of initiation of the antidumping new shipper review of honey from the PRC. See *Honey from the People's Republic of China:*

Initiation of New Shipper Antidumping Duty Reviews, 72 FR 5265 (February 5, 2007). On February 23, 2007, the Department aligned the new shipper review and the administrative review. See Letter from Christopher Riker: Antidumping Duty New Shipper Review of Honey from the People's Republic of China ("PRC"): Alignment with Administrative Review, dated February 23, 2007.

The preliminary results of these reviews are currently due no later than September 2, 2007.

Statutory Time Limits

In antidumping duty administrative reviews section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of these administrative and new shipper reviews within the original time limit because the Department requires additional time to analyze a large volume of pending U.S. Customs and Border Protection data, analyze questionnaire responses, issue supplemental questionnaires, conduct verification, as well as to evaluate what would be the most appropriate surrogate values to use during the period of review.

Therefore, the Department is extending the time limit for completion of the preliminary results of these aligned administrative and new shipper reviews by 90 days. The preliminary results will now be due no later than December 3, 2007, which is the first business day after the 90-day extension (the 90th day falls on the weekend). The final results continue to be due 120 days after the publication of the preliminary results.

We are issuing and publishing this notice in accordance with sections 751(a)(3)(A) and 777(i) of the Act.

Dated: July 24, 2007.

Stephen J. Claeys,
Deputy Assistant Secretary for Import Administration.

Final Rescission of Antidumping Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products from the People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: July 31, 2007.

FOR FURTHER INFORMATION CONTACT: Catherine Bertrand, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, DC 20230; telephone: (202) 482-3207.

SUPPLEMENTARY INFORMATION:

Background

On November 1, 2006, the Department of Commerce ("Department") published a notice of opportunity to request an administrative review of the antidumping duty order on certain hot-rolled carbon steel flat products from the People's Republic of China ("PRC") for the period November 1, 2005, through October 31, 2006. See *Antidumping or Countervailing Duty Order, Finding, or Suspended Investigation; Opportunity to Request Administrative Review*, 71 FR 64240 (November 1, 2006). On November 30, 2006, United States Steel ("Petitioner"), a domestic producer of certain hot-rolled carbon steel flat products, requested that the Department conduct an administrative review of Anshan Iron & Steel Group Corp., Angang Group International Trade Corporation, Angang New Iron and Steel Co., Angang New Steel Co., Ltd., and Angang Group Hong Kong Co., Ltd. (collectively "Angang") and Baosteel Group Corporation, Shanghai Baosteel International Economic & Trading Co., Ltd., and Baoshan Iron and Steel Co., Ltd. (collectively "Baosteel"). On December 27, 2006, the Department published a notice of initiation of an antidumping duty administrative review on certain hot-rolled carbon steel flat products from the PRC. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for*

Revocation in Part ("Notice of Initiation"), 71 FR 77720 (December 27, 2006). On June 11, 2007, we preliminarily rescinded this review based on evidence on the record indicating that there were no entries into the United States of subject merchandise during the period of review ("POR") by Angang or Baosteel. See *Preliminary Rescission of Antidumping Duty Administrative Review: Certain Hot-Rolled Carbon Steel Flat Products From the People's Republic of China*, 72 FR 32072 (June 11, 2007) ("Preliminary Rescission"). We invited interested parties to submit comments on our *Preliminary Rescission*. We did not receive any comments on our *Preliminary Rescission*. The POR is November 1, 2005, through October 31, 2006.

Scope of the Review

For purposes of this review, the products covered are certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness. Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4.0 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of this review.

Specifically included within the scope of this review are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products to be included in the scope of this review, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTSUS), are products in which: i) iron

predominates, by weight, over each of the other contained elements; ii) the carbon content is 2 percent or less, by weight; and, iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

- 1.80 percent of manganese, or
- 2.25 percent of silicon, or
- 1.00 percent of copper, or
- 0.50 percent of aluminum, or
- 1.25 percent of chromium, or
- 0.30 percent of cobalt, or
- 0.40 percent of lead, or
- 1.25 percent of nickel, or
- 0.30 percent of tungsten, or
- 0.10 percent of molybdenum, or
- 0.10 percent of niobium, or
- 0.15 percent of vanadium, or
- 0.15 percent of zirconium.

All products that meet the physical and chemical description provided above are within the scope of this review unless otherwise excluded. The following products, by way of example, are outside or specifically excluded from the scope of this review:

- Alloy hot-rolled steel products in which at least one of the chemical elements exceeds those listed above (including, *e.g.*, American Society for Testing and Materials (ASTM) specifications A543, A387, A514, A517, A506).
- Society of Automotive Engineers (SAE)/American Iron & Steel Institute (AISI) grades of series 2300 and higher.
- Ball bearing steels, as defined in the HTSUS.
- Tool steels, as defined in the HTSUS.

- Silico-manganese (as defined in the HTSUS) or silicon electrical steel with a silicon level exceeding 2.25 percent.
- ASTM specifications A710 and A736.

- USS abrasion-resistant steels (USS AR 400, USS AR 500).
- All products (proprietary or otherwise) based on an alloy ASTM specification (sample specifications: ASTM A506, A507).
- Non-rectangular shapes, not in coils, which are the result of having been processed by cutting or stamping and which have assumed the character of articles or products classified outside chapter 72 of the HTSUS.

The merchandise subject to this review is classified in the HTSUS at subheadings: 7208.10.15.00, 7208.10.30.00, 7208.10.60.00, 7208.25.30.00, 7208.25.60.00, 7208.26.00.30, 7208.26.00.60, 7208.27.00.30, 7208.27.00.60,

Certain hot-rolled carbon steel flat products covered by this review, including: vacuum degassed fully stabilized; high strength low alloy; and the substrate for motor lamination steel may also enter under the following tariff numbers: 7225.11.00.00, 7225.19.00.00, 7225.30.30.50, 7225.30.70.00, 7225.40.70.00, 7225.99.00.90, 7226.11.10.00, 7226.11.90.30, 7226.11.90.60, 7226.19.10.00, 7226.19.90.00, 7226.91.50.00, 7226.91.70.00, 7226.91.80.00, and 7226.99.00.00. Subject merchandise may also enter under 7210.70.30.00, 7210.90.90.00, 7211.14.00.30, 7212.40.10.00, 7212.40.50.00, and 7212.50.00.00. Although the HTSUS subheadings are provided for convenience and U.S. Customs purposes, the written description of the merchandise under review is dispositive.

Final Rescission of Review

Because neither Angang nor Baosteel made shipments to the United States of subject merchandise during the POR, and because we did not receive any comments on our *Preliminary Rescission*, in accordance with 19 CFR 351.213(d)(3) and consistent with our practice, we are rescinding this review of the antidumping duty order on certain hot-rolled carbon steel flat products from the PRC for the period of November 1, 2005, to October 31, 2006. See, *e.g.*, *Polychloroprene Rubber from Japan: Notice of Rescission of Antidumping Duty Administrative Review*, 66 FR 45005 (August 27, 2001). The cash deposit rate for Angang and Baosteel will continue to be the rate established in the most recently completed segment of this proceeding.

This notice is published in accordance with sections 751(a)(1) and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.213(d)(4).

Dated: July 24, 2007.
