SUPPLEMENTARY INFORMATION:

Background

The Codex Alimentarius (Codex) was established in 1963 by two United Nations organizations, the Food and Agriculture Organization (FAO) and the World Health Organization (WHO). Through adoption of food standards, codes of practice, and other guidelines developed by its committees, and by promoting their adoption and implementation by governments, Codex seeks to protect the health of consumers and ensure that fair practices are used in trade.

The Codex *ad hoc* Intergovernmental Task Force on Foods Derived from Biotechnology was established by the 23rd Session of the Codex Alimentarius Commission in 1999 to elaborate standards, guidelines, or other principles related to foods derived from biotechnology. The Task Force completed its mandates within its four-year timeframe and was dissolved by the 26th Session of the Commission. The 27th Session re-established the Task Force for another four-year period. The Task Force is hosted by the government of Japan.

Issues To Be Discussed at the Public Meeting

The following items on the agenda for the Seventh Session of the FBT will be discussed during the public meeting:

- Matters Referred to the Committee from Other Codex Bodies.
- Review of the Work by International Intergovernmental Organizations Related to Foods Derived from Biotechnology.
- Summary of the Report of the FAO/WHO Expert. Consultation on the Safety Assessment of Foods Derived from Recombinant-DNA Animals.
- Proposed Draft Guideline for the Conduct of Food Safety Assessment of Foods Derived from Recombinant-DNA Animals.
- Proposed Draft Annex to the Guideline for the Conduct of Food Safety Assessment of Foods Derived from Recombinant-DNA Plants: Food Safety Assessment of Foods Derived from Recombinant-DNA plants Modified for Nutritional or Health Benefits.
- Proposed Draft Annex to the Guideline for the Conduct of Food

Safety Assessment of Foods Derived from Recombinant-DNA Plants with Low-level Presence of Recombinant-DNA Plant Material.

Each issue listed will be fully described in documents distributed, or to be distributed, by the Japanese Secretariat to the Meeting. Members of the public may access copies of these documents at <http://www.codexalimentarius.net/current.asp>.

Public Meeting

At the September 6, 2007, public meeting, draft U.S. positions on these agenda items will be described and discussed, and attendees will have the opportunity to pose questions and offer comments. Written comments may be offered at the meeting or sent to the U.S. Delegate of the FBT, Dr. Eric Flamm, at eric.flamm@fda.hhs.gov. Written comments should state that they relate to activities of the Seventh Session of the FBT.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it online through the FSIS Web page located at http://www.fsis.usda.gov/regulations/2007_Notices_Index/. FSIS also will make copies of this **Federal Register** publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls and other types of information that could affect or would be of interest to constituents and stakeholders. The update is communicated via Listserv, a free electronic mail subscription service for industry, trade and farm groups, consumer interest groups, allied health professionals, and other individuals who have asked to be included. The update is available on the FSIS Web page. Through the Listserv and Web page, FSIS is able to provide information to a much broader and more diverse audience. In addition, FSIS offers an e-mail subscription service which provides automatic and customized access to selected food safety news and information. This service is available at http://www.fsis.usda.gov/news_and_events/email_subscription/. Options range from recalls to export information to regulations, directives and notices. Customers can add or delete subscriptions themselves and have the

option to password protect their account.

Grain Inspection, Packers and Stockyards Administration

Amendment to Certification of Colorado's Central Filing System

AGENCY: Grain Inspection, Packers and Stockyards Administration, USDA.

ACTION: Notice.

SUMMARY: In response to a request from Colorado's Secretary of State we are approving amendments to the debtor identification and signature requirements of the certified central filing system for Colorado to permit the conversion of all debtor social security and taxpayer identification numbers into approved unique identifiers; and the filing of effective financing

statements and amendments that are authorized or authenticated without signatures. The proposed specific procedure whereby Colorado will automatically convert social security numbers and taxpayer identification numbers into ten number unique identifiers has been reviewed and determined to permit the numerical searching of master lists while providing protection against identity theft.

DATES: *Effective Date:* August 8, 2007.

SUPPLEMENTARY INFORMATION: The Grain Inspection, Packers and Stockyards Administration (GIPSA) administers the Clear Title program for the Secretary of Agriculture. The Clear Title program is authorized by Section 1324 of the Food Security Act of 1985, which requires that States implementing central filing system for notification of liens on farm products must have such systems certified by the Secretary of Agriculture.

A listing of the states with certified central filing systems is available through the Internet on the GIPSA Web site (<http://www.usda.gov/gipsa/>). Farm products covered by a State's central filing system are also identified through the GIPSA Web site. The Colorado central filing system covers all farm products.

We originally certified the central filing system for Colorado on September 28, 1992. On March 30, 2007, Keith Whitelaw, Director, Business Division, Colorado Secretary of State's Office, requested the certification be amended to incorporate the use of an approved unique identifier other than a Social Security Number, in accordance with 2004 amendments to Section 1324 of the Food Security Act. On June 12, 2007, Mr. Whitelaw confirmed that Colorado's clear title forms, instructions and regulations had also been modified to indicate that signatures were optional when the filing of effective financing statements, and amendments thereto, is authorized or otherwise authenticated, in accordance with the 2002 amendments to Section 1324 of the Food Security Act.

This notice announces our approval of the amended certification for Colorado's central filing system. Details of the specific procedure by which Colorado will create approved unique identifiers are being provided by GIPSA to the Secretaries of State of other states with certified central filing systems. The statewide central filing system of Colorado is certified for all farm products produced in that state. Examples of farm products and possible entries for lien identification include: All field crops, all fruits, all livestock,
