SUPPLEMENTARY INFORMATION: The Draft PEIS analyzes potential effects of the No Action Alternative and two action alternatives for future improvement of the Tijuana River FCP. Potential future improvements to the Tijuana River Flood Control Project were organized in two action alternatives, Enhanced Operation and Maintenance Alternative, focusing on engineering improvements; and Multipurpose Project Management Alternative, incorporating additional measures for multiple use of the floodway and environmental measures supporting initiatives by federal agencies, local governments, and other organizations; these initiatives would be conducted largely under cooperative agreements. The two action alternatives were evaluated in terms of their potential effects relative to those of the No Action Alternative, in the areas of water, biological, cultural and socioeconomic resources, land use, and environmental health issues.

A copy of the DEIS has been filed with EPA in accordance with 40 CFR parts 1500–1508 and USIBWC procedures. The public comment period of the Draft PEIS will end 45 days after publication of the NOA in the **Federal Register** by EPA.
