## DEPARTMENT OF LABOR

### Office of the Secretary

#### Submission for OMB Review: Comment Request

September 19, 2007.

The Department of Labor (DOL) hereby announces the submission of the following public information collection requests (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of each ICR, with applicable supporting documentation; including among other things a description of the likely respondents, proposed frequency of response, and estimated total burden may be obtained from the RegInfo.gov Web site at <http://www.reginfo.gov/public/do/PRAMain> or by contacting Darrin King on 202-693-4129 (this is not a toll-free number)/e-mail: [king.darrin@dol.gov](mailto:king.darrin@dol.gov).

Interested parties are encouraged to send comments to the Office of Information and Regulatory Affairs, Attn: John Kraemer, OMB Desk Officer for the Occupational Safety and Health Administration (OSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, Telephone: 202-395-7316/Fax: 202-395-6974 (these are not toll-free numbers), E-mail: [OIRA\\_submission@omb.eop.gov](mailto:OIRA_submission@omb.eop.gov) within 30 days from the date of this publication in the **Federal Register**. In order to ensure the appropriate consideration, comments should reference the OMB Control Number (see below).

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

*Agency:* Occupational Safety and Health Administration.

*Type of Review:* Extension without change of a previously approved collection.

*Title:* Application for Training Grant.

*OMB Number:* 1218-0020.

*Affected Public:* Private Sector: Not-for-profit institutions (grant applicants).

*Estimated Number of Respondents:* 184.

*Estimated Total Burden Hours:*

10,166.

*Estimated Total Annual Costs Burden:* \$0.

*Description:* The application is submitted by non-profit organizations interested in obtaining OSHA training grants. The information collected in this application is used by OSHA to select organizations to receive funds.

*Agency:* Occupational Safety and Health Administration.

*Type of Review:* Extension without change of a previously approved collection.

*Title:* Welding, Cutting and Brazing (29 CFR Part 1910, Subpart Q).

*OMB Number:* 1218-0207.

*Affected Public:* Private Sector: Business or other for-profits.

*Estimated Number of Respondents:* 21,373.

*Estimated Total Burden Hours:* 5,994.

*Estimated Total Annual Costs Burden:* \$0.

*Description:* 29 CFR § 1910.255(e) requires that a periodic inspection of resistance welding equipment be made by qualified maintenance personnel, and a certification record generated and maintained. The maintenance inspection ensures that welding equipment is in safe operating condition while the maintenance record provides evidence to employees and OSHA

compliance officers that employers performed the required inspections.

*Agency:* Occupational Safety and Health Administration.

*Type of Review:* Extension without change of a previously approved collection.

*Title:* Rigging Equipment for Material Handling (29 CFR § 1926.251)(b)(1), (b)(6)(ii), (c)(15)(iii), (e)(1)(i), (ii), and (iii), and (f)(2)).

*OMB Number:* 1218-0233.

*Affected Public:* Private Sector: Business or other for-profits.

*Estimated Number of Respondents:* 132,737.

*Estimated Total Burden Hours:*

56,335.

*Estimated Total Annual Costs Burden:* \$0.

*Description:* The information collection provisions of the 29 CFR 1926.251 specify affixing identification tags or marking on rigging equipment, developing and maintaining inspection records, and retaining proof-testing certificates. The purpose of each of these requirements is to prevent employees from using defective or deteriorated equipment, thereby reducing their risk of death or serious injury caused by equipment failure during material handling.

*Agency:* Occupational Safety and Health Administration.

*Type of Review:* Extension without change of a previously approved collection.

*Title:* Portable Fire Extinguishers (Annual Maintenance Certification Record) (29 CFR § 1910.157(e)(3)).

*OMB Number:* 1218-0238.

*Affected Public:* Private Sector: Business or other for-profits.

*Estimated Number of Respondents:* 138,038.

*Estimated Total Burden Hours:*

69,019.

*Estimated Total Annual Costs Burden:* \$19,878,208.

*Description:* The Standard for Portable Fire Extinguishers at 29 CFR 1910.157(e)(3) specifies that employers must subject each portable fire extinguisher to an annual maintenance inspection and record the date of the inspection. In addition, this provision requires employers to retain the inspection record for one year after the last entry or for the life of the shell, whichever is less, and to make the record available to OSHA on request. This recordkeeping requirement assures employees and Agency compliance officers that portable fire extinguishers located in the workplace will operate normally in case of fire; in addition, this requirement provides evidence to OSHA compliance officers during an

inspection that the employer performed the required maintenance checks on the portable fire extinguishers.

## DEPARTMENT OF LABOR

### Employment and Training Administration

#### Community-Based Job Training Grants; Solicitation for Grant Applications (SGA) SGA/DFA-PY 07-01; Amendment Number 1

**AGENCY:** Employment and Training Administration (ETA), Labor.

**ACTION:** Amendment.

**SUMMARY:** The Employment and Training Administration published a document in the **Federal Register** of August 8, 2007, announcing the availability of funds and solicitation for grant applications for Community-Based Job Training Grants to support workforce training for high-growth/high-demand industries through the national system of community and technical colleges. This amendment will make changes to the August 8 document by removing the requirement that 50% of the grant funds must be spent on tuition in Section III Eligibility Information and Other Grant Specifications; updating the data required in the one- to three-page summary of projected outcomes in Section IV Application and Submission Information; replacing outcomes associated with the 50% requirement with new outcomes and clarifying and correcting the total number of points the section is worth in the Description of Outcomes section in Section V Application Review Information; and extending the closing date for the Solicitation to October 31, 2007.

**FOR FURTHER INFORMATION CONTACT:** Melissa Abdullah, Grants Management Specialist, Telephone (202) 693-3346.

#### Amendment

In the **Federal Register** of August 8, 2007, in FR Volume 72, Number 152, the solicitation is hereby amended with the following:

1. On page 44574, extend the closing date of this Solicitation to October 31, 2007.

2. On page 44581, in the middle column, Section III.C.2. Required Capacity Building and Training Activities, delete the following text:

In all applications, at least 50 percent of the proposed budget must be for tuition and related training costs for a substantive number of students enrolled in the grant training program. Related training costs include, but are not limited to, books, supplies, tools, and uniforms. Grantees are strongly encouraged to leverage other resources to cover the tuition costs for the students trained with grant funds to expand the number of individuals trained with the grant. Possible sources of leveraged resources for tuition include, but are not limited to, Pell Grants, student loans, and employer tuition reimbursement. Grantees may charge tuition and related training costs to students enrolled in the training program whose tuition is not covered by the grant; however, the leveraging of resources described above is strongly encouraged. Grantees must track and report performance outcomes on any individuals trained using grant dollars, either in whole or in part. Where grant dollars are combined with other leveraged resources to cover tuition for an individual being trained, that individual must be tracked for purposes of performance as well.

Added to this section is the following text:

A component of all grants must be direct training costs, which include, but are not limited to: Faculty costs, including salaries and fringe benefits; in-house training staff; support staff costs such as lab or teaching assistants; classroom space, including laboratories, mock-ups or other facilities used for training purposes; and books, materials, and supplies used in the training course, including specialized equipment used in the training course. Grantees are strongly encouraged to leverage other resources to cover the tuition costs for the students trained under the grant. Possible sources of leveraged resources for tuition include, but are not limited to, Pell Grants; Workforce Investment Act resources, including Individual Training Accounts; and employer tuition reimbursement. Applicants must also describe how tuition for students participating in the program will be covered, including tuition charged to students, funding made available through the workforce investment system, business paid training, or other sources.

For reference, direct training costs are the costs associated with the actual provision of a training course as opposed to the capacity building costs associated with the development of training capabilities or curriculums. Direct training costs do NOT include costs that support the college in general, such as fees to support student activities, the library, gym or recreation center, etc., which may be covered through some other mechanism, such as student fees. Indirect training costs may include the applicable share of the Institution's indirect costs (overhead) and library or other student activity fees associated with the operation of the Institution. Both direct and indirect training costs must be allowable costs under the applicable OMB circular. All direct and indirect training costs should be linked to a specific course or curriculum as specified in the proposal or the statement of work.

3. Additional references to the 50% requirement are deleted on: Page 44583 column 1 (Section IV.A), Page 44586 column 1 (Section V.A.3. Effective, Innovative Training and Capacity Building Strategies)

4. On page 44583, middle column, Section IV.A, in the one- to three-page listing of all projected outcomes list, delete:

- The number of individuals trained using grant dollars, including individuals trained as a result of leveraging of resources (e.g. training is paid in whole or in part through sources other than the grant or tuition, including Pell Grants, student loans, employer tuition reimbursement, and Workforce Investment Act training resources such as customized training, ITAs, or pilot CAAs);
- The number of individuals trained without use of grant dollars, such as those who pay tuition.

Replace this text with the following bullets:

- The number of individuals who will participate in training activities during the life of the grant. Participation in training activities includes individuals whose training activity is supported in whole or in part by direct training costs under the grant. This projection also includes individuals participating in the training activity who benefit from the products, services, and activities funded by the grant for capacity building, but whose training activity is not funded by the grant.
- The number of individuals who will complete training activities during the life of the grant regardless of the source of the funds paying for the training activities.
- The number of individuals to participate in training activities during the life of the grant whose participation is supported by the grant either through direct training costs or through tuition remission, scholarship, or other direct payment by the grant.

Applicants should note that they must include projections for numbers of students to be enrolled in and expected to complete training during the life of the grant. If awarded a grant, applicants MUST be able to track and report to ETA their success at meeting these projections on a quarterly basis regardless of whether the grant pays for the direct training of these individuals. This requirement is considered a condition of grant award.

5. Regarding training and capacity building plan outcomes and students trained using grant dollars:

- a. On page 44586, in the right hand column, Part V. A. 4. b. Training, delete the following text: the number of individuals trained using grant dollars, including individuals trained as a result of leveraging of resources (e.g. training is paid in whole or in part through sources other than the grant or tuition, including Pell Grants, student loans, employer tuition reimbursement, and Workforce Investment Act training resources such as customized training, ITAs, or pilot CAAs); the number of individuals trained
