#### Approval and Promulgation of Air Quality Implementation Plans; Indiana; VOC Emissions From Fuel Grade Ethanol Production Operations; Withdrawal of Direct Final Rule

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Withdrawal of direct final rule.

**SUMMARY:** Due to the receipt of an adverse comment, the EPA is withdrawing the September 13, 2007 (72 FR 52286), direct final rule approving the State of Indiana's March 30, 2007, request to revise the Indiana State Implementation Plan (SIP) by adding a volatile organic compound (VOC) rule for fuel grade ethanol production at dry mills. In the direct final rule, EPA stated that if adverse comments were submitted by October 15, 2007, the rule would be withdrawn and not take effect. On October 8, 2007, EPA received a comment. EPA believes this comment is adverse and, therefore, EPA is withdrawing the direct final rule. EPA will address the comment in a subsequent final action based upon the proposed action also published on September 13, 2007 (72 FR 52320). EPA will not institute a second comment period on this action.

**DATES:** The direct final rule published at 72 FR 52286 on September 13, 2007, is withdrawn as of November 1, 2007.

#### IP-Enabled Services; Implementation of Sections 255 and 251(a)(2) of The Communications Act of 1934, as Enacted by The Telecommunications Act of 1996: Access to Telecommunications Service, Telecommunications Equipment and Customer Premises Equipment by Persons With Disabilities; Telecommunications Relay Services and Speech-to-Speech Services for Individuals With Hearing and Speech Disabilities; The Use of N11 Codes and Other Abbreviated Dialing Arrangements

**AGENCY:** Federal Communications Commission.

**ACTION:** Final rule; petition for waiver.

**SUMMARY:** In this document, the Commission grants in part and denies in part petitions filed by the Voice on the Net (VON) Coalition, United States Telecom Association (USTelecom) and Hamilton Telephone Company (Hamilton) seeking a stay or waiver of certain aspects of the Commission's Voice Over Internet Protocol (VoIP)

Telecommunications Relay Services (TRS) Order (*VoIP TRS Order*). The Commission recognizes that, in certain circumstances, there are technical challenges to the ability of interconnected VoIP providers to route 711 abbreviated TRS dialing access calls to an "appropriate relay center," as that term is clarified herein. Similarly, the Commission recognizes that, in certain circumstances, TRS providers receiving 711 emergency calls via an interconnected VoIP service may not be able to determine an appropriate public safety answering point (PSAP) to call in compliance with the TRS emergency call handling requirements. As a result, the Commission finds good cause to grant to interconnected VoIP providers a limited, six month waiver of the requirement that they route 711 calls to an appropriate relay center. The Commission also finds good cause to grant for a period of six months a limited waiver of the TRS emergency call handling requirements, as applied to interconnected VoIP customers, so that TRS providers can implement a means of directing the outbound leg of a 711 call received via an interconnected VoIP service to an appropriate PSAP.

**DATES:** Effective October 9, 2007.

**ADDRESSES:** Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.
