

Because we have revoked the order with respect to subject merchandise produced and exported by Colakoglu, as well as with respect to subject merchandise produced and exported by Diler, we will instruct CBP to terminate the suspension of liquidation for exports of such merchandise entered, or withdrawn from warehouse, for consumption on or after April 1, 2006, and to refund all cash deposits collected.

The Department clarified its "automatic assessment" regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954 (May 6, 2003). This clarification will apply to entries of subject merchandise during the POR produced by companies included in these final results of review for which the reviewed companies did not know their merchandise was destined for the United States. This clarification will also apply to POR entries of subject merchandise produced by companies for which we are rescinding the review based on certifications of no shipments, because these companies certified that they made no POR shipments of subject merchandise for which they had knowledge of U.S. destination. In such instances, we will instruct CBP to liquidate unreviewed entries at the All-Others rate if there is no rate for the intermediate company(ies) involved in the transaction.

Cash Deposit Requirements

Further, the following deposit requirements will be effective for all shipments of rebar from Turkey (except shipments from Colakoglu and Diler, as noted above) entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided for by section 751(a)(2)(C) of the Act: 1) the cash deposit rates for the reviewed companies will be the rates shown above, except if the rate is less than 0.50 percent, *de minimis* within the meaning of 19 CFR 351.106(c)(1), the cash deposit will be zero; 2) for merchandise produced by Kroman Celik Sanayii A.S. and exported by Yucelboru Ihracat Ithalat ve Pazarlama A.S., the combination cash deposit rate will be 0.00 percent; 3) for previously investigated companies not listed above, the cash deposit rate will continue to be the company-specific rate published for the most recent period; 4) if the exporter is not a firm covered in this review, or the less-than-fair-value (LTFV) investigation, but the manufacturer is, the cash deposit rate will be the rate established for the most recent period

for the manufacturer of the merchandise; and 5) the cash deposit rate for all other manufacturers or exporters will continue to be 16.06 percent, the All Others rate established in the LTFV investigation. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility, under 19 CFR 351.402(f)(2), to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

We are issuing and publishing these results of review in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: October 31, 2007.

Stephen J. Claeys,

Acting Assistant Secretary for Import Administration.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Notice; Preparation of a Papahānaumokuākea Marine National Monument Natural Resources Science Plan

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Department of Commerce (DOC).

SUMMARY: This notice advises the public that the Co-Trustees of the Papahānaumokuākea Marine National Monument (Monument) in the Northwestern Hawaiian Islands (NWHI) and surrounding marine areas intend to prepare a Natural Resources Science Plan (Science Plan) and associated environmental assessment (EA) for the Monument. The Science Plan is being developed concurrently with the comprehensive Monument Management Plan (MMP) [Notice of Intent to Prepare Monument Management Plan and EA, **Federal Register** April 4, 2007 (Volume 72, Number 64)]. The Science Plan will identify management needs, highlight priority thematic areas designed to meet these needs, and describe the current and proposed research projects housed under these themes. The Co-Trustees are seeking public input on the development of the plan. There will be a public scoping meeting to solicit comments on November 15, 2007.

DATES: The public meeting will be held on Thursday, November 15, 2007, 6 p.m.–8 p.m. at the Japanese Cultural Center of Hawaii, in Honolulu, HI. Written comments will be accepted through November 30, 2007.

ADDRESSES: The public meeting will be held at the Japanese Cultural Center located at 2454 South Beretania Street, Honolulu, Hawaii 96826. Meeting materials will be posted on the Monument Web site (<http://www.hawaiiireef.noaa.gov>) from November 15–November 30, 2007. Written comments may be provided in person at the public meeting, via fax at 808-397-2662, or E-mail via E-mail at NWHIComments@noaa.gov.

SUPPLEMENTARY INFORMATION: Prior to the creation of the Northwestern Hawaiian Islands Marine National Monument by President George W. Bush on June 15, 2006, NOAA was engaged in management planning and environmental impact assessment development to support the public process for the NWHI to be designated as a National Marine Sanctuary through the public sanctuary designation process. As part of that planning process a 3-day workshop was held in May 2003

to discuss critical scientific information needs related to long term conservation and management of the NWHI. Over 100 research scientists and resource managers attended the workshop representing agencies, universities, and organizations nationwide. The workshop resulted in the identification of five priority research areas to support management in the NWHI. These are described in detail in a document called the final Information Needs for Conservation and Management of the Northwestern Hawaiian Islands Report, which is available at http://hawaiiireef.noaa.gov/research/2002Workshop/NWHI_Summary.pdf.

On June 15, 2006, President Bush signed Presidential Proclamation 8031 (Proclamation) establishing the Northwestern Hawaiian Islands Marine National Monument, subsequently renamed the Papahānaumokuākea Marine National Monument. The Monument is administered by the U.S. Department of Commerce through NOAA, U.S. Department of the Interior through the Fish and Wildlife Service (FWS), and the State of Hawaii through the Department of Land and Natural Resources (DLNR) (collectively, the Co-Trustees). The Proclamation provides the authority for the Co-Trustees to issue research permits for activities designed to further understanding of Monument resources and qualities, and to assist in conservation and management of the Monument.

The Science Plan will be used to guide these research activities. It will be based on the results from the information needs workshop, a multi-agency archipelagic research plan (under development), agency expertise and identified management needs, and public input. It will contain five themes relevant to natural resources research: (1) Ecological Processes and Connectivity, (2) Biodiversity and Habitats, (3) Human Impacts, (4) Indicators and Monitoring of Ecosystem Change, and (5) Modeling and Forecasting Ecosystem Change.

The Co-Trustees are seeking public input on the development of the draft Science Plan. Input is requested on the themes proposed in the draft plan, as well as the type of research to be conducted under each theme.

A public scoping meeting will be held in Honolulu to solicit comments. A presentation will highlight the Science Plan development process, including sources of information utilized to date. Following the presentation, the public will be invited to provide written or oral comment on the five thematic research areas and projects that should be conducted under each thematic area.

Written comments will also be accepted at the dates and locations specified in the **DATES** and **ADDRESSES** sections above.

Dated: October 24, 2007.

Daniel J. Basta,

Director, Office of National Marine Sanctuaries, National Oceanic and Atmospheric Administration.

Notice of Availability of a Supplement to the Draft Environmental Impact Statement (SDEIS) for the Proposed Potash Corporation of Saskatchewan Phosphate Mine Continuation Near Aurora, in Beaufort County, NC

AGENCY: Department of the Army, U.S. Army Corps of Engineers, DoD.

ACTION: Notice.

SUMMARY: The U.S. Army Corps of Engineers (COE), Wilmington District, Regulatory Division has been reviewing the request for Department of the Army authorization, pursuant to Section 404 of the Clean Water Act and Section 10 of the Rivers and Harbors Act, from Potash Corporation of Saskatchewan Phosphate Division (PCS) for the continuation of its phosphate mining operation near Aurora, Beaufort County, NC. PCS proposes to expand its existing open pit phosphate mining operation into a 3,412 acre tract immediately adjacent to the current mine. This expansion would impact 2,408 acres of waters of the U.S. including wetlands adjacent to the Pamlico River and South Creek. The Notice of Availability of the Draft Environmental Impact Statement for this action was published in the **Federal Register** on Friday, October 20, 2006 (71 FR 61962).

DATES: Written comments on this SDEIS will be received until December 21, 2007.

ADDRESSES: Comments and questions regarding the SDEIS may be addressed to: U.S. Army Corps of Engineers, Wilmington District, Regulatory Division, ATTN: File Number 2001-10096, Post Office Box 1890, Wilmington, NC 28402-1890. Copies of the Draft EIS can be reviewed on the Wilmington District Regulatory homepage at, <http://www.saw.usace.army.mil/wetlands/regtour.htm>, or contact Ms. Alex Rhodes at (910) 251-4633, to receive written or CD copies of the SDEIS.

FOR FURTHER INFORMATION CONTACT:

Questions about the proposed action and SDEIS can be directed to Mr. Tom Walker, Project Manager, Regulatory Division, telephone: (828) 271-7980 extension 222.

SUPPLEMENTARY INFORMATION: The Corps, on October 20, 2006, released a Draft Environmental Impact Statement (DEIS) evaluating the proposed project and alternatives to the proposed project. Simultaneously, the Corps released a
