Public Safety and Homeland Security Bureau Seeks Comment on Post-Reconfiguration 800 MHz Band Plan for the U.S.-Canada Border Regions

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document seeks comment on post-reconfiguration 800 MHz band plans for the U.S.-Canada border regions. The Bureau, by this action, affords interested parties an opportunity to submit comments and reply comments on proposals for establishing a reconfigured 800 MHz band plan in the U.S.-Canada border region in order to accomplish the Commission's goals for band reconfiguration.

DATES: Comments are due on or before December 3, 2007 and Reply Comments are due on or before December 18, 2007.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Brian Marengo, Policy Division, Public Safety and Homeland Security Bureau, (202) 418-0838.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Further Notice of Proposed Rulemaking, DA 07-4489, released on November 1, 2007. The complete text of this document is available for inspection and copying during normal business hours in the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room CY-A257, Washington, DC 20554. This document may also be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc., 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone (800) 378-3160 or (202) 863-2893, facsimile (202) 863-2898, or via e-mail at <http://www.bcpiweb.com>. It is also available on the Commission's Web site at <http://www.fcc.gov>.

1. In a July 2004 Report and Order, the Commission reconfigured the 800 MHz band to eliminate interference to public safety and other land mobile communication systems operating in the band, 69 FR 67823 (November 22, 2004). However, the Commission deferred consideration of band reconfiguration plans for the border areas, noting that "implementing the band plan in areas of the United States bordering Mexico and

Canada will require modifications to international agreements for use of the 800 MHz band in the border areas." The Commission stated that "the details of the border plans will be determined in our ongoing discussions with the Mexican and Canadian governments."

2. In a Second Memorandum Opinion and Order, adopted in May 2007, the Commission delegated authority to Public Safety and Homeland Security Bureau to propose and adopt border area band plans once agreements are reached with Canada and Mexico, 72 FR 39756 (July 20, 2007). Specifically, the Commission noted that "once those discussions are completed, and any necessary modifications to our international agreements have been made, we will need to amend our rules to implement the agreements and identify the portions of the 800 MHz band that will be available to U.S. licensees on a primary basis. In addition, we will need to adopt a band plan for the border regions that specifies the ESMR and non-ESMR portions of the band and the distribution of channels to public safety, B/ILT, and SMR licensees."

3. In July 2007, the U.S. and Canada reached an agreement on a process that will enable the U.S. to proceed with band reconfiguration in the border region. Consequently, the Public Safety and Homeland Security Bureau issued a Further Notice of Proposed Rulemaking to seek comment on specific proposals for reconfiguring the eight U.S.-Canada border regions. The goal is to separate—to the greatest extent possible—public safety and other non-cellular licensees from licensees who employ cellular technology.

4. Pursuant to §§ 1.415 and 1.419 of the Commission's rules, 47 CFR 1.415, 1.419, interested parties may file comments and reply comments on or before the dates listed on the first page of this summary. All filings related to the Further Notice of Proposed Rulemaking should refer to WT Docket No. 02-55. Comments may be filed using: (1) The Commission's Electronic Comment Filing System (ECFS), (2) the Federal Government's eRulemaking Portal, or (3) by filing paper copies.
