

system to determine the actual opening price of a series.

Currently, Rule 1017(c)(i) defines the opening price as the price at which the maximum quantity of contracts would be traded. The rule establishes a series of "tie-breakers," which are additional criteria that the system follows in establishing the opening price when two or more prices would satisfy the maximum quantity criteria. Specifically, when the maximum quantity of contracts could be traded at two or more prices, the system establishes the opening price based on the following criteria, in the following order: (1) The price at which the greatest number of customer orders would be traded; (2) the price at which the maximum number of Phlx XL participants would trade; and (3) the price that is closest to the closing price from the previous trading session.⁶

The Exchange has observed that the existing "tie-breakers" in Rule 1017(c) can still result in the situation where two or more prices could satisfy the maximum quantity criteria. Accordingly, the Exchange proposes to add another "tie-breaker" to be used in determining the opening price when two or more prices satisfy the maximum quantity criteria.

Specifically, the Exchange proposes to amend Rule 1017(c) to provide that, after all existing "tie-breakers" have been exhausted, should there continue to be two or more prices that satisfy the maximum quantity criteria, the opening price will be the mid-point of the highest possible price and lowest possible price that satisfy the maximum quantity criteria (rounded as needed to the side of the market with the greatest number of Phlx XL participants).

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁷ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁸ in particular, because it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest, by clarifying the single opening price in a particular series on the Exchange when two or more prices would result in the maximum number

of contracts traded at the opening in such series.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change would impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days after the date of filing (or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest), the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act⁹ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁰

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in the furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days between the hours of 10 a.m. and 3 p.m. Copies of such filing also will be available for inspection and copying at the principal office of the Exchange.
