Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Atlantic Surfclam and Ocean Quahog Fishery; Framework Adjustment 1

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; request for comments.

SUMMARY: NMFS proposes regulations to implement Framework Adjustment 1 (FW 1) to the Atlantic Surfclam and Ocean Quahog Fishery Management Plan (FMP). FW 1 management measures were developed by the Mid-

Atlantic Fishery Management Council (Council) and propose to implement a vessel monitoring system (VMS) requirement for vessels participating in the surfclam and ocean quahog fisheries. The VMS requirement would replace the current telephone-based notification requirement necessary prior to departure on a surfclam or ocean quahog fishing trip. The intent of this action is to propose management measures that would improve the management and enforcement of regulations governing the Atlantic surfclam and ocean quahog fishery in the U.S. Exclusive Economic Zone.

DATES: Comments must be received no later than 5 p.m., eastern standard time, on April 4, 2007.

ADDRESSES: You may submit comments by any of the following methods:

- **Mail:** Patricia A. Kurkul, Regional Administrator, Northeast Region, NMFS, One Blackburn Drive, Gloucester, MA 01930-2298. Mark on the outside of the envelope, "Comments on Framework 1 VMS Proposed Rule."

- **Fax:** (978) 281-9135.

SUPPLEMENTARY INFORMATION:

Background

The Council voted on December 13, 2006, to recommend to NMFS that a VMS requirement for Atlantic surfclam and ocean quahog fishing vessels, including Maine mahogany quahog vessels, be implemented for their respective fisheries. This action was

originally approved by the Council as part of Amendment 13 to the FMP in 2003. However, the Council recommended that the Regional Administrator implement a VMS requirement for the fisheries when an economically viable system became available to the industry. Three vendors have been approved by NMFS for use in the Northeast Region. The costs of the VMS units have decreased since 2003 so that purchase and installation costs now range from approximately \$3,150 to \$4,200, and recurring monthly costs range from \$25 to \$100. As a result of the lower costs, the Council voted in June 2005 to begin the development of a framework adjustment to require the mandatory use of VMS for surfclams and ocean quahogs. The Council held two public meetings, on October 11, 2006, and December 13, 2006, to discuss the management measures contained in FW1 and, on December 13, 2006, the Council selected and approved the VMS management measures to submit to NMFS for approval and implementation.

Proposed Measures

A VMS requirement is being proposed for the surfclam and ocean quahog fishery in order to: (1) eliminate the requirement to notify NMFS Office of Law Enforcement via telephone prior to beginning a fishing trip; (2) facilitate the monitoring of areas closed to fishing due to environmental degradation (e.g., harmful algal blooms and former dump sites); and (3) facilitate the monitoring of borders between state and Federal regulatory jurisdictions. The VMS requirement would include a fishing trip declaration prior to starting a fishing trip and automatic hourly polling of the vessel position. Proof of an installed and operational VMS unit would be a condition for the issuance of the applicable vessel permits, with some exceptions granted to the limited access Maine mahogany quahog permit. There are three commercial fishing vessel permit categories for these fisheries: An open access Atlantic surfclam permit (SF 1); an open access ocean quahog permit (OQ 6); and a limited access Maine mahogany quahog permit (OQ 7). FW 1 management measures would implement a requirement for vessels participating in the fisheries to use a VMS to facilitate better monitoring and reporting in the Atlantic surfclam and ocean quahog fisheries. The VMS requirement would replace the current management measure that requires vessels fishing outside the Maine mahogany quahog fishery to call their local NOAA law enforcement office prior to departure on an Atlantic
