Dibasic Esters (DBE); Exemption from the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes exemptions from the requirement of a tolerance for residues of dibasic esters (DBE; CAS Reg. No. 95481-62-2) when used as an inert ingredient solvent and/or anti-freeze microencapsulated at 10% weight/weight (W/W) or less in

pesticide formulations with the active ingredient cyfluthrin. Whitmire Micro-Gen Research Laboratories, Inc. submitted a pesticide petition 5E4442 to EPA under the Federal Food, Drug, and Cosmetic Act (FFDCA) requesting exemptions from the requirement of a tolerance. EPA published in the **Federal Register** on August 29, 2007 (72 FR 49689) a proposed rule for this petition in order to provide the public with an opportunity to comment on data that submitted to the Agency after the publication of the petition's Notice of Filing.

DATES: This regulation is effective February 27, 2008. Objections and requests for hearings must be received on or before April 28, 2008, and must be filed in accordance with the instructions provided in 40 CFR part 178 (see also Unit I.C. of the **SUPPLEMENTARY INFORMATION**).

II. Background and Statutory Findings

In the **Federal Register** of December 23, 1998 (63 FR 71126) (FRL-6047-7), EPA issued a notice pursuant to section 408 of the FFDCA, 21 U.S.C. 346a, announcing the filing of a pesticide petition (PP 5E4442) by Whitmire Micro-Gen Research Laboratories, Inc., 3568 Tree Court Industrial Blvd., St. Louis, MO 63122-6682. The petition requested that 40 CFR 180.910 and 180.930 be amended by establishing an exemption from the requirement of a tolerance for residues of dibasic esters (DBE). EPA received a significant number of new studies as a result of an enforceable consent agreement issued under Section 4 of the Toxic Substance Control Act (TSCA) (**Federal Register**, August 5, 1999, 64 FR 42692) (FRL-6090-6). EPA published in the **Federal Register** on August 29, 2007 (72 FR 49689) (FRL-8143-3) a proposed rule for this petition in order to provide the public with an opportunity to comment on the new data.

III. EPA's Determination on Proposed Rule

One comment was received on the proposed rule. The commenter expressed a general concern over test results: "The test results show a real tendency to harm i do not think this

product should ever be sold or manufactured ever." The Agency has addressed the results of the studies in the proposed rule and its decision document. The full decision document for this action is available on EPA's Electronic Docket at <http://www.regulations.gov>/ under docket number EPA-HQ-OPP-2007-0182. Given the non-specificity of the comment EPA cannot respond further.

Accordingly, based on the reasons set forth in the proposed rule and the decision document, EPA concludes that there is a reasonable certainty of no harm to the general population, including infants and children, from aggregate exposure to residues of dibasic esters (DBE; CAS Reg. No. 95481-62-2) when used as an inert ingredient in pesticide formulations. Accordingly, EPA finds that the tolerance exemptions described in Unit II. for residues of dibasic esters will be safe.

The Agency is granting the requested exemptions from the requirement of a tolerance for residues of dibasic esters when used as an inert ingredient solvent and/or anti-freeze microencapsulated at 10% weight/weight (W/W) or less in pesticide formulations with the active ingredient cyfluthrin.

IV. Statutory and Executive Order Reviews

This final rule establishes a tolerance exemption under section 408(d) of FFDCA in response to a petition submitted to the Agency. The Office of Management and Budget (OMB) has exempted these types of actions from review under Executive Order 12866, entitled *Regulatory Planning and Review* (58 FR 51735, October 4, 1993). Because this rule has been exempted from review under Executive Order 12866, this rule is not subject to Executive Order 13211, *Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use* (66 FR 28355, May 22, 2001) or Executive Order 13045, entitled *Protection of Children from Environmental Health Risks and Safety Risks* (62 FR 19885, April 23, 1997). This final rule does not contain any information collections subject to OMB approval under the Paperwork Reduction Act (PRA), 44 U.S.C. 3501 *et seq.*, nor does it require any special considerations under Executive Order 12898, entitled *Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations* (59 FR 7629, February 16, 1994).

Pursuant to the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*), the Agency hereby certifies that this

proposed action will not have significant negative economic impact on a substantial number of small entities. Establishing a pesticide tolerance or an exemption from the requirement of a pesticide tolerance is, in effect, the removal of a regulatory restriction on pesticide residues in food and thus such an action will not have any negative economic impact on any entities, including small entities. This final rule directly regulates growers, food processors, food handlers and food retailers, not States or tribes, nor does this action alter the relationships or distribution of power and responsibilities established by Congress in the preemption provisions of section 408(n)(4) of FFDCA. As such, the Agency has determined that this action will not have a substantial direct effect on States or tribal governments, on the relationship between the national government and the States or tribal governments, or on the distribution of power and responsibilities among the various levels of government or between the Federal Government and Indian tribes. Thus, the Agency has determined that Executive Order 13132, entitled *Federalism* (64 FR 43255, August 10, 1999) and Executive Order 13175, entitled *Consultation and Coordination with Indian Tribal Governments* (65 FR 67249, November 6, 2000) do not apply to this rule. In addition, This rule does not impose any enforceable duty or contain any unfunded mandate as described under Title II of the Unfunded Mandates Reform Act of 1995 (UMRA) (Public Law 104-4).

This action does not involve any technical standards that would require Agency consideration of voluntary consensus standards pursuant to section 12(d) of the National Technology Transfer and Advancement Act of 1995 (NTTAA), Public Law 104-113, section 12(d) (15 U.S.C. 272 note).

V. Congressional Review Act

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of this final rule in the **Federal Register**. This final rule is not a "major rule" as defined by 5 U.S.C. 804(2).
