INTERNATIONAL TRADE COMMISSION

[Investigation No. 731-TA-1145 (Preliminary)]

Certain Steel Threaded Rod From China

Determination

On the basis of the record¹ developed in the subject investigation, the United States International Trade Commission (Commission) determines, pursuant to section 733(a) of the Tariff Act of 1930 (19 U.S.C. 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is

materially injured by reason of imports from China of certain steel threaded rod, provided for in statistical reporting number 7318.15.5060 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV).

Commencement of Final Phase Investigation

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigation. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of an affirmative preliminary determination in the investigation under section 733(b) of the Act, or, if the preliminary determination is negative, upon notice of an affirmative final determination in the investigation under section 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigation need not enter a separate appearance for the final phase of the investigation. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigation.

Background

On March 5, 2008, a petition was filed with the Commission and Commerce by Vulcan Threaded Products, Inc., Pelham, AL, alleging that an industry in the United States is materially injured and threatened with further material injury by reason of LTFV imports of certain steel threaded rod from China. Accordingly, effective March 5, 2008, the Commission instituted antidumping duty investigation No. 731-TA-1145 (Preliminary).

Notice of the institution of the Commission's investigation and of a public conference to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** of March 12, 2008 (73 FR 13251). The conference was held in Washington, DC, on March 26, 2008, and all persons who requested the

opportunity were permitted to appear in person or by counsel.

The Commission transmitted its determination in this investigation to the Secretary of Commerce on April 21, 2008. The views of the Commission are contained in USITC Publication 3996 (April 2008), entitled *Certain Steel Threaded Rod from China: Investigation No. 731-TA-1145 (Preliminary)*.

By order of the Commission.

Issued: April 29, 2008.

Notice of Lodging of Consent Decree Under the Clean Air Act

Notice is hereby given that on April 24, 2008, a proposed Consent Decree (“Decree”) in *United States v. McCulloch Corporation, et al.*, Civil Action No. 1:08–cv–00699, was lodged with the United States District Court for the District of Columbia.

In this action the United States, on behalf of the U.S. Environmental Protection Agency (“U.S. EPA”), sought penalties and injunctive relief under sections 204, 205, and 213 of the Clean Air Act (“the Act” or “CAA”), 42 U.S.C. 7523, 7524, and 7547, and regulations promulgated thereunder at 40 CFR part 90 (“Nonroad SI Regulations”), which arose from the importation and introduction into commerce of approximately 200,000 chainsaws (“subject chainsaws”) that failed to comply with the Nonroad SI Regulations. The proposed Decree resolves alleged violations of the CAA arising from the importation of the subject chainsaws. Under the Decree, Defendants will pay a \$2 million civil

penalty, export unsold chainsaws, perform emissions testing on a representative sampling of engines, and implement robust compliance assurance plans designed to prevent future violations. Defendants will also perform the following three mitigation projects at an estimated cost of \$5 million: (1) Spend at least \$2.75 million to provide light-emitting diode (“LED”) streetlights, sport lights or parking lot lights to selected cities in the United States, (2) spend at least \$1.25 million to purchase and then surrender to U.S. EPA Ozone Season NO_x Allowances, and (3) install low-permeable fuel lines that will prevent or reduce volatile organic compound permeation emissions in at least 1 million small, spark-ignited engines used for handheld lawn and garden applications.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, P.O. Box 7611, U.S. Department of Justice, Washington, D.C. 20044–7611, and either e-mailed to pubcomment-ees.enrd@usdoj.gov or mailed to P.O.
