II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, Nasdaq included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. Nasdaq has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Nasdaq rules require a company to maintain a certain minimum number of round lot holders for continued listing.⁴ However, for a variety of reasons, it is often difficult for Nasdaq and the listed company to determine compliance with these requirements. First, the Commission only requires companies to annually disclose the number of record holders, not round lot holders, in their proxy. Companies often don't know how many round lot holders they have since that group includes "objecting beneficial holders" who wish their identity to remain confidential from the company.

It also can be difficult to obtain the number of shares held by beneficial owners from record holders, such as broker-dealers.

In order to determine compliance with the round lot requirement, Nasdaq reviews a number of factors, including whether the company has a number of record holders well in excess of the round lot holder requirement and shareholder data provided by the company's transfer agent and Broadridge Financial Solutions, Inc. (formerly, Automatic Data Processing, Inc.). While this process is effective, it is very time-consuming for Nasdaq and can be frustrating to the company, which has to spend considerable time and may be charged a fee to obtain this information.

In contrast, the number of total holders is more easily determined. For example, the number of proxies that a company mails is a very good approximation of the number of its total holders. In fact, many companies disclose the number of beneficial holders in their public filings, either instead of, or in addition to, the number of record holders. Further, the number of public holders generally can be easily determined by subtracting from the total shareholders the number of executive officers, directors, and 10% shareholders that are disclosed in the company's proxy statement.

When the round lot holder requirement was originally adopted it was difficult and costly to trade in increments of less than 100 shares. Thus odd lot holders (that is, holders of fewer

⁴ The minimum requirement for continued listing of the first class of common stock or its equivalent on both the NASDAQ Global and Global Select Markets is 400 round lot shareholders and on the NASDAQ Capital Market is 300 round lot shareholders.

than 100 shares) added little to the distribution and potential liquidity of a security. These impediments no longer exist, given the current state of online trading and competitive commission structures. As such, Nasdaq believes that today all holders, not just holders of round lots, can potentially contribute to a security's liquidity.

In addition, in Nasdaq's experience, companies do not typically see a decrease in the number of round lot holders following their listing, absent a transaction such as a reverse stock split or major stock buy-back.

Given these difficulties and changed circumstances, Nasdaq proposes that the shareholder requirements for continued listing be changed so that it no longer considers only round lot holders. As revised, Nasdaq would generally require 300 public shareholders⁵ for continued listing on the Capital Market, and 400 total shareholders for continued listing on the Global and Global Select Markets.⁶ In the case of preferred stock and secondary classes of common stock, 100 public shareholders would be required for continued listing on the Capital, Global and Global Select Markets. As proposed, a public holder would exclude any holder who is, either directly or indirectly, an executive officer, director, or the beneficial holder of more than 10% of the total shares outstanding.

Under this definition, Nasdaq would consider immediate family members of an executive officer, director, or 10% holder to not be public holders to the extent the shares held by such individuals are considered beneficially owned by the executive officer, director or 10% holder under Rule 16a-1 under the Act.⁷

Nasdaq also proposes to modify the rules relating to the Nasdaq Global Select Market to use the newly defined

term "total shareholders" in those rules; however, no substantive change is being made to the requirements for the Global Select Market. In addition, no change is proposed to the initial listing requirements because the majority of initial listings are initial public offerings, where the number of round lot shareholders can be easily determined by the underwriter when distributing the offering, and because SEC rules require that markets have a minimum of 300 round lot holders for initial listing to avoid having listed securities be subject to the penny stock rules.⁸ Nasdaq does propose, however, to clarify that the definition of round lot holders includes beneficial holders in addition to holders of record, consistent with current practice.

2. Statutory Basis

Nasdaq believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁹ in general, and with Sections 6(b)(5) of the Act,¹⁰ in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The proposed rule change is consistent with these requirements in that modifying the requirement will facilitate consistent application of the rules by Nasdaq and ease the burden of compliance on listed companies, without increasing the risk to investors.

B. Self-Regulatory Organization's Statement on Burden on Competition

Nasdaq does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change, or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-Nasdaq-2008-037 on the subject line.

Paper Comments

All submissions should refer to File Number SR-Nasdaq-2008-037. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room, 100 F Street, NE., Washington, DC 20549, on official business days

⁵ The definition of "public holders" would appear in proposed Rule 4200(a)(32) and replace the definition of "Reported Security" because that term is now defined in Regulation NMS and is not used within the Nasdaq rules.

⁶ Nasdaq proposes to require public shareholders, instead of total shareholders, on the Capital Market so that Nasdaq's rules remain substantially similar to the rules of the American Stock Exchange ("Amex"), which require 300 public shareholders. See Section 1003(b)(i)(B) of the Amex Company Guide. Nasdaq does not believe it necessary to limit the shareholders on the Global and Global Select Markets to public shareholders given the higher number of total holders required. In addition, Nasdaq notes that the New York Stock Exchange ("NYSE") requires 400 total shareholders for continued listing. See Section 802.01A of the NYSE Listed Company Manual.

⁷ See 17 CFR 240.16a-1(a)(2). Nasdaq will determine "public holders" based on the information disclosed in public filings about the company, including ownership statements and proxy statements.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-57763; File No. SR-NASD-2007-031]

Self-Regulatory Organizations; National Association of Securities Dealers, Inc. (n/k/a Financial Industry Regulatory Authority, Inc.); Order Approving Proposed Rule Change as Modified by Amendment Nos. 1, 2 and 3 Thereto To Amend NASD Rule 7001E To Increase the Percentage of Market Data Revenue Shared With NASD/NYSE TRF Participants

May 1, 2008.

I. Introduction

On April 24, 2007, the National Association of Securities Dealers, Inc. ("NASD") (n/k/a Financial Industry Regulatory Authority, Inc.), filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to adjust the percentage of market data revenue shared with NASD/NYSE TRF participants.³ On June 1, 2007, NASD filed Amendment No. 1 to the proposed rule change. On October 29, 2007, FINRA filed Amendment No. 2 to the proposed rule change. The proposed rule change, as amended, was published for comment in the **Federal**

Register on November 14, 2007.⁴ The Commission received one comment letter regarding the proposal.⁵ On February 4, 2008, FINRA filed Amendment No. 3 to respond to the comment letter and to propose a technical change to the original rule filing.⁶ This order approves the proposed rule change, as modified by Amendment Nos. 1, 2, and 3.

II. Description of the Proposed Rule Change

FINRA proposes to amend NASD Rule 7001E to increase the market data revenue that is shared with FINRA members that report trades in Tape A, Tape B, and Tape C stocks to the NASD/NYSE Trade Reporting Facility (the "NASD/NYSE TRF").⁷ Currently, FINRA members that report trades in Tape A, Tape B, and Tape C stocks to the NASD/NYSE TRF receive a 50% *pro rata* credit on the gross market data revenue earned by the NASD/NYSE TRF.⁸

The proposed rule change increases from 50% to 100% the percentage of gross market data revenue that is shared with members. FINRA members that report trades in Tape A, Tape B and Tape C stocks to the NASD/NYSE TRF will thus receive a 100% *pro rata* credit on gross market data revenue earned by the NASD/NYSE TRF.

III. Summary of Comments

The Commission received one comment letter in response to the proposed rule change.⁹ The commenter stated that the proposed rebate demonstrated that market data fees are

excessive, and do not have a fair and reasonable basis.¹⁰ The commenter noted that, in its capacity as the "SRO Member," FINRA allocates and deducts costs before passing market data revenue to each TRF. The commenter asserted that this ability to allocate costs in the context of a TRF rebuts earlier arguments, made by the exchanges, that costs of collection and distribution of market data cannot be allocated, and should thus not be a basis for determining the reasonableness of market data fees.¹¹ The commenter also said that the filing did not address the competitive impact of the proposed rebates, and that any short-term benefits from the rebates could be diminished by the long-term impact of less competition.¹² Finally, the commenter stated that the issue of transparency regarding market data costs and revenues, which constitutes part of the NetCoalition Petition,¹³ is also present in this filing.¹⁴

FINRA responded that the arguments made by the commenter were not germane to the proposed rule change. For example, FINRA said that the issue of the reasonableness of market data fees and the purported lack of transparency regarding the cost of collecting market data are at issue in the NetCoalition Petition and need not be resolved in connection with this filing.¹⁵ According to FINRA, the costs of collecting and distributing market data are not necessarily determinative of the reasonableness of the proposed rebate.¹⁶ Finally, FINRA stated that the proposed rebate does not constitute an undue burden on competition that is not in furtherance of the purposes of the Act.¹⁷

IV. Discussion and Commission Findings

The Commission has carefully reviewed the proposed rule change, the comment letter, and FINRA's response to the comment letter, and finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities association¹⁸ and, in particular, the

⁶ Amendment No. 3 clarifies that the Tape B revenue sharing program includes both the American Stock Exchange LLC and regional exchanges. Because it is technical in nature, it is not subject to notice and comment ("Amendment No. 3").

⁷ In establishing the NASD/NYSE TRF, NASD and NYSE Market, Inc. ("NYSE") entered into the Limited Liability Company Agreement of NASD/NYSE Trade Reporting Facility LLC. Under that agreement, NASD, as the "SRO Member," has the sole regulatory responsibility for the NASD/NYSE TRF. As the "Business Member," NYSE is responsible for the management of the business affairs of the NASD/NYSE TRF, to the extent those activities are not inconsistent with FINRA's regulatory functions.

⁸ "Gross revenue" is defined as the revenue received by the NASD/NYSE TRF from the three tape associations after the tape associations deduct allocated support costs and unincorporated business costs.
