Federal Register

Vol. 73, No. 100

Thursday, May 22, 2008

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

May 19, 2008.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8958.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to

the collection of information unless it displays a currently valid OMB control number.

Animal Plant and Health Inspection Service

Title: Self Certification Medical Statement.

OMB Control Number: 0579-0196.

Summary of Collection: The United States Department of Agriculture is responsible for ensuring consumers that food and farm products are moved from producer to consumer in the most efficient, dependable, economical, and equitable system possible. 5 CFR Part 339 authorizes an agency to obtain medical information about the applicant's health status to assist management in making employment decisions concerning positions that have specific medical standards or physical requirements in order to determine medical/physical fitness. The Animal Plant and Health Inspection Service (APHIS) of the U.S. Department of Agriculture hires individuals each year in commodity grading and inspection positions. These positions involve arduous duties and work under conditions, around moving machinery, slippery surfaces, and high noise level noise. APHIS will collect information using the MRP-5 form (Self-Certification Medical Statement).

Need and Use of the Information: The information collected from the prospective employees assists the Marketing and Regulatory Programs officials, administrative personnel, and servicing Human Resources Offices in determining an applicant's physical fitness and suitability for employment in positions with approved medical standards and physical requirements and direct contact with meat, dairy, fresh or processed fruits and vegetables, and poultry intended for human consumption and cotton and tobacco products intended for consumer use.

Denial of the information would greatly hamper APHIS recruiting capability and adversely affect management's ability to facilitate hiring, placement, and utilization of qualified individuals into positions that have specific medical standards and physical requirements.

Description of Respondents:

Individuals or households.

Number of Respondents: 600.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 100.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Comments regarding (a) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), OIRA_Submission@OMB.EOP.GOV or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Comments regarding these information collections are best assured of having their full effect if received within 30 days of this notification. Copies of the submission(s) may be obtained by calling (202) 720-8681.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it

displays a currently valid OMB control number.

Rural Utilities Service

Title: RUS Form 87, Request for Mail List Data.

OMB Control Number: 0572-0051.

Summary of Collection: The Rural Utilities Service (RUS) is a credit agency of the U.S. Department of Agriculture. The agency makes loans (direct and guaranteed) to finance electric and telecommunications facilities in rural areas in accordance with the Rural Electrification Act of 1936, 7 U.S.C. 901 as amended, (ReAct). RUS Electric Program provides support to the vast rural American electric infrastructure. RUS' Telecommunications Program makes loans to furnish and improve telephone services and other telecommunications purposes in rural areas.

Need and Use of the Information: RUS will collect information using RUS Form 87, Request for Mail List Data. The information is used for the RUS Electric and Telephone programs to obtain the name and addresses of the borrowers' officers/board of directors and corporate officials, who are authorized to sign official documents. RUS uses the information to assure that (1) accurate, current, and verifiable information is available; (2) correspondence with borrowers is properly directed; and (3) the appropriate officials have signed the official documents submitted.

Description of Respondents: Not-for-profit institutions; Business or other for-profit.

Number of Respondents: 1,182.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 296.

DEPARTMENT OF AGRICULTURE

Forest Service

Plumas National Forest; California; Moonlight and Wheeler Fires Recovery and Restoration Project

AGENCY: Forest Service, USDA.

ACTION: Revised notice of intent to prepare an Environmental Impact Statement (EIS).

Introduction: A notice of intent to prepare an EIS for the Moonlight Fire Recovery and Restoration Project was published in the **Federal Register** on

Monday, January 7, 2008 (Vol. 73, No. 4, pp. 1201-1202). After scoping the Moonlight Fire and Wheeler Fire Recovery and Restoration Projects separately in December 2007, the Forest Service, Plumas National Forest, has merged the two projects together. In December 2007, the Mt. Hough Ranger District of the Plumas National Forest began the process to determine the scope (the depth and breadth) of the environmental analysis. At that time, it was anticipated that the Moonlight Fire Recovery and Restoration Project analysis would be documented in an EIS and the Wheeler Fire Recovery and Restoration Project analysis would be documented in an Environmental Assessment. From comments received it was determined to document the analysis for both projects in one EIS. The new project name is Moonlight and Wheeler Fires Recovery and Restoration Project.

SUMMARY: The USDA, Forest Service, Plumas National Forest will prepare an EIS on a proposal to harvest dead trees on approximately 15,568 acres in the Moonlight and Antelope Complex fires areas. The Moonlight and Antelope Complex fires burned about 88,000 acres between July and September 2007 on the Plumas National Forest.

DATES: The draft EIS is expected in June 2008 and the final EIS is expected in September 2008.

ADDRESSES: Send written comments to Rich Bednarski, Interdisciplinary Team Leader, Mt. Hough Ranger District, 39696 Highway 70, Quincy, CA 95971. Comments may be: (1) Mailed; (2) hand delivered between the hours of 8 a.m. to 4:30 p.m. weekdays Pacific Time; (3) faxed to (530) 283-1821; or (4) electronically mailed to: *comments-pacificsouthwest-plumas-mthouth@fs.fed.us*. Please indicate the name "Moonlight and Wheeler Fires Recovery and Restoration Project" on the subject line of your email. Comments submitted electronically must be in Rich Text Format (.rtf), plain text format (.txt), or Word format (.doc).

FOR FURTHER INFORMATION CONTACT: Rich Bednarski, Interdisciplinary Team Leader, Mt. Hough Ranger District, 39696 Highway 70, Quincy, CA 95971. Telephone: (530) 283-7641 or electronic address: *rbednarski@fs.fed.us*.

SUPPLEMENTARY INFORMATION: The proposed action is designed to meet the standards and guidelines for land management activities in the Plumas National Forest Land and Resource Management Plan (1988), as amended by the Herger-Feinstein Quincy Library Group (HFQLG) Final Supplemental Environmental Impact Statement

(FSEIS) and Record of Decision (ROD) (1999, 2003), and as amended by the Sierra Nevada Forest Plan Amendment FSEIS and ROD (2004).

The proposed project is located in Plumas County, California, within the Mt. Hough Ranger District of the Plumas National Forest. The project is located in all or portions of: sections 13, 23-27, 34-35, T28N, R10E; sections 13-14, 17-19, 23-24, 29-34, T28N, R11E; sections 19-20, 29-32, T28N, R12E; sections 1-2, 13-14, 23-25, T27N, R10E; sections 2-11, 13-15, 17, 19-22, 25, 35-36, T27N, R11E; sections 5, 8, 17-20, 29-32, T27N, R12E; sections 1-5, 9-12, 14-16, 21-23, and 26-27, T26N, R12E; sections 23-29 and 31-36, T27N, R12E; and sections 19, 20, and 30, T27N, R13E; Mount Diablo Meridian.

Purpose and Need for Action

The purpose of the project would be to provide for short-term local economic benefit by creating jobs from the sale of dead merchantable trees, as well as contribute to local and regional areas with net revenues and receipts. The project would promote long term economic recovery through restoration by re-establishing forested conditions. The wood quality, volume, and value of dead trees deteriorate rapidly. The value of trees would cover the cost of their removal and possibly other activities associated with the project.

As a result of the Moonlight and Antelope Complex fires, thousands of acres burned with high vegetation burn severity resulting in deforested condition. As a result, shrub species will dominate these areas for decades and experience a delay in returning to a forested condition. The early establishment of conifers through reforestation will expedite forest regeneration.

Proposed Action

The proposed action would harvest dead conifer trees on approximately 15,568 acres using the following methods: ground based, skyline, and helicopter. Trees greater than 14 inches diameter at breast height (dbh) would be whole tree harvested on the ground-based areas.

Trees less than 14 inches dbh would be removed as biomass material on the ground-based areas. Approximately 7,517 acres would have trees less than 14 inches dbh removed as biomass material and approximately 122 acres would be removed from site preparation. Ground-based equipment would be restricted to slopes less than 35 percent, except on decomposed granitic soils where equipment would be restricted to slopes less than 25
