

FTZ procedures would exempt Michelin from customs duty payments on foreign products that are re-exported (some 5–10% of shipments). On its domestic shipments, duty payments would be deferred until the products are entered for consumption. The company may also realize certain logistical benefits related to the use of direct delivery and weekly customs entry procedures. The application indicates that the savings from FTZ procedures would help improve the facility's international competitiveness.

In accordance with the Board's regulations, Diane Finver of the FTZ staff is designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is August 4, 2008. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to August 18, 2008).

A copy of the application will be available for public inspection at each of the following locations: U.S. Department of Commerce Export Assistance Center, 11150 West Olympic Boulevard, Suite 975, Los Angeles, CA 90064; and, Office of the Executive Secretary, Foreign–Trade Zones Board, Room 2111, U.S. Department of Commerce, 1401 Constitution Avenue, NW, Washington, D.C. 20230–0002.

Patrick Opay or Kate Swails, (301)713-2289.

SUPPLEMENTARY INFORMATION: On April 9, 2008, notice was published in the **Federal Register** (73 FR 19194) that a request to amend Permit No. 10014 had been submitted by the above-named organization. The requested permit amendment has been issued under the authority of the the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The permit amendment authorizes the NJDEP to take up to 2,500 common dolphins (*Delphinus delphis*), 3,200 bottlenose dolphins (*Tursiops truncatus*), and 1,280 harbor porpoises (*Phocoena phocoena*) annually through December 31, 2012.
