

information is being collected under EPA's Office of Water National Program Guidance and the State Grant Performance Measures Template.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 33 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State environmental and health agencies.

Estimated Number of Respondents: 52.

Frequency of Response: Annual.

Estimated Total Annual Hour Burden: 1,716.

Estimated Total Annual Cost: \$820,287, includes \$748,257 annualized capital or O&M costs, and \$72,030 labor costs.

Changes in the Estimates: There is a decrease of 149,215 hours per year in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease in burden is due to a decrease in the number of items being reported. The burden estimates were considerably greater in the current ICR because it included an additional 146,719 hours annually and \$0.24 million annually to allow nine states to complete the source water assessments.

Needs and Uses: 47 CFR Sections 76.94(a) and 76.105(a) require television stations and program distributors to notify cable television system operators of non-duplication protection and exclusivity rights being sought. The notification shall include (1) the name and address of the party requesting non-duplication protection/exclusivity rights and the television broadcast station holding the non-duplication right; (2) the name of the program or series for which protection is sought; and (3) the dates on which protection is to begin and end.

47 CFR Section 76.94(b) requires broadcasters entering into contracts providing for network non-duplication protection to notify cable systems within 60 days of the signing of such a contract. If they are unable to provide notices as provided for in Section

74.94(a), they must provide modified notices that contain the name of the network which has extended non-duplication protection, the time periods by time of day and by network for each day of the week that the broadcaster will be broadcasting programs from that network, and the duration and extent of the protection.

47 CFR Section 76.94(d) requires broadcasters to provide the following information to cable television systems under the following circumstances: (1) In the event the protection specified in the notices described in 47 CFR Section 76.94(a) or (b) has been limited or ended prior to the time specified in the notice, or in the event a time period, as identified to the cable system in a notice pursuant to Section 76.94(b) for which a broadcaster has obtained protection is shifted to another time of day or another day (but not expanded), the broadcaster shall, as soon as possible, inform each cable television system operator that has previously received the notice of all changes from the original notice. Notice to be furnished "as soon as possible" under this subsection shall be furnished by telephone, telegraph, facsimile, overnight mail or other similar expedient means. (2) In the event the protection specified in the modified notices described in Section 76.94(b) has been expanded, the broadcaster shall, at least 60 calendar days prior to broadcast of a protected program entitled to such expanded protection, notify each cable system operator that has previously received notice of all changes from the original notice.

47 CFR Sections 76.94(e)(2) and 76.105(c)(2) state that if a cable television system asks a television station for information about its program schedule, the television station shall answer the request.

47 CFR Sections 76.94(f) and 76.107 require a distributor or broadcaster exercising exclusivity to provide to the cable system, upon request, an exact copy of those portions of the contracts, such portions to be signed by both the network and the broadcaster, setting forth in full the provisions pertinent to the duration, nature, and extent of the non-duplication terms concerning broadcast signal exhibition to which the parties have agreed. Providing copies of relevant portions of the contracts is assumed to be accomplished in the notification process set forth in Sections 76.94 and 76.105.

47 CFR Section 76.95 states that the provisions of Sections 76.92 through 76.94 (including the notification provisions of Section 76.94) shall not apply to a cable system serving fewer than 1,000 subscribers. Within 60 days

47 CFR Section 76.105(d) requires that in the event the exclusivity specified in Section 76.94(a) has been limited or has ended prior to the time specified in the notice, the distributor or broadcaster who has supplied the original notice shall, as soon as possible, inform each cable television system operator that has previously received the notice of all changes from the original notice. In the event the original notice specified contingent dates on which exclusivity is to begin and/or end, the distributor or broadcaster shall, as soon as possible, notify the cable television system operator of the occurrence of the relevant contingency. Notice to be furnished "as soon as possible" under this subsection shall be furnished by telephone, telegraph, facsimile, overnight mail or other similar expedient means.

47 CFR Section 76.106(b) states that the provisions of Sections 76.101 through 76.105 (including the notification provisions of Section 76.105) shall not apply to a cable system serving fewer than 1,000 subscribers. Within 60 days following the provision of service to 1,000 subscribers, the operator of each such system shall file a notice to effect with the Commission, and serve a copy of that notice on every television station that would be entitled to exercise syndicated exclusivity protection against it.

47 CFR Section 76.1609 states that network non-duplication provisions of Sections 76.92 through 76.94 shall not apply to cable systems serving fewer than 1,000 subscribers. Within 60 days following the provision of service to 1,000 subscribers, the operator of each system shall file a notice to that effect with the Commission, and serve a copy of that notice on every television station that would be entitled to exercise network non-duplication or syndicated exclusivity protection against it.
