Forest Service

Title: Forest Products Free Use Permit, Forest Products Removal Permit and Cash Receipt, and Forest Products Sale Permit and Cash Receipt.

OMB Control Number: 0596-0085.

Summary of Collection: Individuals and businesses that wish to remove forest products from national forest lands must request a permit. 16 U.S.C. 551 requires the promulgation of regulations to regulate forest use and prevent destruction of the forests. Regulations at 36 CFR 223.1 and 223.2 govern the sale of forest products such as Christmas trees, pinecones, moss, and mushrooms. Regulations at 36 CFR 223.5 through 223.11 authorize the free use or sale of timber or forest products. Upon receiving a permit, the permittee must comply with the terms of the permit at 36 CFR 216.6 that designate the forest products that can be harvested and under what conditions, such as limiting harvest to a designated area or permitting harvest of only specifically designated material.

Both the Forest Service (FS) and Department of the Interior, Bureau of Land Management (BLM) will use the Forest Products Removal Permit and Cash Receipt to collect information.

Need and Use of the Information: Using forms FS-2400-1/BLM-5450-24, FS-2400-4 and FS-2400-8, FS and BLM will collect the name, address and tax identification number from persons applying for permits. The information will be used to keep a record of persons buying forest products and to determine if the applicant meets the criteria under which free use or sale of forest products is authorized by the regulations and to ensure that the permittee has not received product values in excess of the amount allowed by regulation in any one fiscal year and complies with the regulations and terms of the permit. This information is also needed to allow FS compliance personnel to identify permittees in the field. Without the forest product removal program, achieving multiple use management programs such as reducing fire hazard and improving forest health on the National Forest would be impaired.

Description of Respondents: Individuals or households; businesses or other for-profit.

Number of Respondents: 139,067.
Frequency of Responses: Reporting: On occasion; Recordkeeping: Total Burden Hours: 18,395.

Animal and Plant Health Inspection Service

Title: Domestic Quarantines.

OMB Control Number: 0579-0088.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-7772) the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. Plant Protection and Quarantine, a program within USDA's Animal and Plant Health Inspection Service (APHIS), is responsible for implementing this Act and does so through the enforcement of its domestic quarantine regulations contained in Title 7 of the Code of Federal Regulations, CFR Part 301. Administering these regulations often requires APHIS to collect information from a variety of individuals who are involved in growing, packing, handling, transporting, plants and plant products. The information collected from these individuals is vital to helping ensure that injurious plant diseases and insect pests do not spread within the United States. Information to be collected is necessary to determine compliance with domestic quarantines. Federal/State domestic quarantines are necessary to regulate the movement of articles from infested areas to noninfested area. Collecting information requires the use of a number of forms and documents. APHIS will collect information using various forms and documents.

Need and Use of the Information: APHIS will collect information by interviewing growers and shippers at the time the inspections are being conducted and by having growers and shippers of exported plants and plant products complete an application for a transit permit. Information is collected from the growers, packers, shippers, and exporters of regulated articles to ensure that the articles, when moved from a quarantined area, do not harbor injurious plant diseases and insect pests. The information obtained will be used to determine compliance with regulations and for issuance of forms, permits, certificates, and other required documents.
