#### *Estimated Reporting and Recordkeeping "Non-Hour Cost"*

**Burden:** We have identified three non-hour cost burdens. Section 250.1101(b) requires a fee for a gas cap production request. Section 250.1101(c) requires a fee to produce within 500 feet of a lease line. Section 250.1106 requests a fee for a downhole commingling request. We estimate a total reporting "non-hour cost" burden of \$558,300 and we have not identified any other "non-hour cost" burdens associated with this collection of information.

**Public Disclosure Statement:** The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

**Comments:** Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency " \* \* \* to provide notice \* \* \* and otherwise consult with members of the public and affected agencies concerning each proposed collection of information \* \* \* " Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of

automated collection techniques or other forms of information technology.

To comply with the public consultation process, on January 15, 2008, we published a **Federal Register** notice (73 FR 2522) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, § 250.199 provides the OMB control number for the information collection requirements imposed by the 30 CFR part 250 regulations and forms. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We have received no comments in response to these efforts.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by July 30, 2008.

**Public Availability of Comments:** Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we

cannot guarantee that we will be able to do so.

### National Park Service

#### **General Management Plan, Environmental Impact Statement, John Fitzgerald Kennedy National Historic Site, Massachusetts**

**AGENCY:** National Park Service, Department of the Interior.

**ACTION:** Notice of Intent to prepare an Environmental Impact Statement for the General Management Plan, John Fitzgerald Kennedy National Historic Site (NHS).

**SUMMARY:** Pursuant to the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), the National Park Service is preparing an Environmental Impact Statement (EIS) for the General Management Plan (GMP) for the John Fitzgerald Kennedy NHS, Massachusetts. In cooperation with the Town of Brookline, MA, attention will be given to resources outside the boundaries that affect the integrity of the John Fitzgerald Kennedy NHS. The plan will identify management alternatives for the site. Major issues

include the need to provide fundamental management guidance and to enable the park to strategically plan its long term resource management, visitor use, and partnership goals and objectives. This would be the first GMP for the John F. Kennedy NHS since its establishment in 1969. GMP issues include: (1) Creating strategies for resolving critical facility and visitor experience issues related to the small size of the site; (2) addressing the needs and expectations of a rapidly changing demographic audience; (3) developing a comprehensive resource management strategy for the site; (4) addressing alternative outreach and partnership program options, including interpreting the historic neighborhood where the Kennedy home is located; (5) improving the park's relationships with other presidential sites and other John F. Kennedy sites.

The Draft EIS/General Management Plan is expected to be available for public review in early 2010. After public and interagency review of the draft document, comments will be considered and a final GMP/EIS will be prepared that contains a preferred alternative for management of the John Fitzgerald Kennedy NHS (the GMP), followed by a Record of Decision.

**DATES:** The NPS will hold a public scoping meeting, which will provide opportunities to ask questions and raise issues concerning the General Management Plan for the John Fitzgerald Kennedy National Historic Site. Information on the time and place of the public scoping meeting will be publicized through the local news media serving the region around the park.

**Further Information and Addresses:** Persons who wish to comment orally or in writing, or who require further information are invited to contact James O'Connell, Project Manager, National Park Service, Northeast Region Boston Office, 15 State Street, Boston, MA 02109-3572; (617) 223-5222; fax -5164; e-mail at [Jim\\_O'Connell@nps.gov](mailto:Jim_O'Connell@nps.gov).
