

SUMMARY: EPA is approving revisions to Indiana's State Plan to control air pollutants from large Municipal Waste Combustors (MWC). The Indiana Department of Environmental Management (IDEM) submitted the State Plan on August 24, 2007. The revisions are consistent with Emission Guideline (EG) amendments promulgated by EPA on May 10, 2006. This approval means that EPA finds that the State Plan amendments meet applicable Clean Air Act (Act) requirements for large MWCs for which construction commenced on or before September 20, 1994. Once effective, this approval also makes the amended State Plan Federally enforceable.

DATES: Comments must be received on or before August 7, 2008.

SUPPLEMENTARY INFORMATION: In the Rules section of this **Federal Register**,

EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.

Summary of the Order

1. On March 20, 2008, the Commission released the *Broadband Radio Service/Educational Broadband Service Second Further Notice of Proposed Rulemaking* (BRS/EBS 2nd FNPRM), FCC 08-83. In the BRS/EBS 2nd FNPRM, comments were due on or before July 7, 2008, and reply comments were due on or before August 6, 2008. On May 8, 2008, a summary of the BRS/EBS 2nd FNPRM was published in the **Federal Register** (73 FR 26067, May 8, 2008).

2. On June 13, 2008, National EBS Association ("NEBSA"), formerly known as the National ITFS Association (NIA) and the Catholic Television Network ("CTN") filed a motion for extension of time on June 13, 2008, to extend by 75 days the dates for filing comments and reply comments in the proceeding. NEBSA and CTN state that the comment dates "fall in the middle of the summer recess period for virtually all schools, colleges and universities, making it difficult for NEBSA, CTN, EBS licensees and other educators to coordinate their response to the important issues raised in this proceeding." The Wireless Communications Association International, Inc. supports this request. No party has opposed the request.

3. It is the policy of the Commission that extensions of time are not routinely granted pursuant to 47 CFR 1.46(a). Such extensions may be warranted when, among other reasons, the additional time will serve the public interest. In the present instance, we grant NEBSA and CTN's motion for extension of time by extending by 75 days the deadlines to file comments and reply comments in the proceeding.

Ordering Clauses

4. Accordingly, *it is ordered* that, pursuant to section 4(i) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and § 1.46 of the Commission's rules, 47 CFR 1.46, that the Motion for Extension of Time filed by National EBS Association and the Catholic Television Network on June 13, 2008 is granted, and the time for filing comments in this proceeding is extended to September 22, 2008, and the time for filing reply comments in

this proceeding is extended to October 22, 2008.

5. This action is taken under delegated authority pursuant to sections 0.131 and 0.331 of the Commission's rules, 47 CFR 0.131, 0.331.

Federal Communications Commission.

Joel D. Taubenblatt,

Deputy Chief, Wireless Telecommunications Bureau.

Endangered and Threatened Wildlife and Plants; Proposed Removal of the Concho Water Snake (*Nerodia paucimaculata*) From the Federal List of Endangered and Threatened Wildlife; Removal of Federally Designated Critical Habitat

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Proposed rule.

SUMMARY: The best available scientific and commercial data indicate that the Concho water snake (*Nerodia paucimaculata*) has recovered. Therefore, under the authority of the Endangered Species Act of 1973, as amended (Act), we, the U.S. Fish and Wildlife Service (Service) propose to remove (delist) the Concho water snake (*Nerodia paucimaculata*) from the Federal List of Endangered and Threatened Wildlife, and accordingly, also remove its federally designated critical habitat. This determination is based on a thorough review of all available information, which indicates that the threats to this species have been eliminated or reduced to the point that the species has recovered and no longer meets the definition of threatened or endangered under the Act.

The Concho water snake is a reptile endemic to central Texas. It was listed as threatened on September 3, 1986, due to threats of habitat modification and destruction (51 FR 31412). Through implementation of recovery efforts, the Service has determined that this species has been recovered and no longer meets the definition of threatened or endangered.

DATES: Comments on the proposed rule must be received on or before

September 8, 2008. Public hearing requests must be received by August 22, 2008.
