

projects but fulfill sales orders (customers contact the subject firm, the subject firm quotes a price, and if an order is placed, the subject firm builds the equipment per order specifications).

Based on the above facts, the Department determines that a customer survey would be unlikely to produce any meaningful results. Further, the Department determined that, since the subject firm is a major domestic producer and accounts for a significant portion of the domestic plastic extrusion equipment market, aggregate U.S. import data would better reflect the impact of increased U.S. imports on the subject firm.

During the remand investigation, the Department conducted research on U.S. shipments and U.S. imports of plastic extrusion equipment during 2005, 2006, and January through April 2007. The Department's research revealed a significant increase in imports of plastic extrusion equipment (and articles like or directly competitive with plastic extrusion equipment produced at the subject firm) during January through April 2007 as compared to estimated imports during January through April 2006.

Increased Imports Contributed Importantly to Subject Firm Sales and/or Production Declines and Worker Separations

As previously stated, subject firm sales orders declined in the latter part of 2006 into early 2007 and the subject firm sales constitute a meaningful portion of the U.S. plastic extrusion equipment market. Further, the period of increased imports corresponds with the period during which subject firm sales orders declined. Therefore, increased U.S. imports would likely have had a significant impact on the subject firm.

In accordance with Section 246 the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department herein presents the results of its investigation regarding certification of eligibility to apply for ATAA. The Department has determined in this case that the group

eligibility requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

Conclusion

After careful review of the facts developed in the remand investigation, I determine that there was a total separation of a significant number or proportion of workers at the subject firm, that there were subject firm sales and production declines, and that increased imports of articles like or directly competitive with plastic extrusion equipment produced at the subject firm contributed importantly to the subject firm declines and the workers' separations.

In accordance with the provisions of the Act, I make the following certification:

"All workers of Welex, Inc., Blue Bell, Pennsylvania, who became totally or partially separated from employment on or after March 26, 2006, through two years from the issuance of this revised determination, are eligible to apply for Trade Adjustment Assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974."

Signed at Washington, DC this 26th day of June 2008.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

Investigations Regarding Certifications of Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

Petitions have been filed with the Secretary of Labor under Section 221(a)

of the Trade Act of 1974 ("the Act") and are identified in the Appendix to this notice. Upon receipt of these petitions, the Director of the Division of Trade Adjustment Assistance, Employment and Training Administration, has instituted investigations pursuant to Section 221(a) of the Act.

The purpose of each of the investigations is to determine whether the workers are eligible to apply for adjustment assistance under Title II, Chapter 2, of the Act. The investigations will further relate, as appropriate, to the determination of the date on which total or partial separations began or threatened to begin and the subdivision of the firm involved.

The petitioners or any other persons showing a substantial interest in the subject matter of the investigations may request a public hearing, provided such request is filed in writing with the Director, Division of Trade Adjustment Assistance, at the address shown below, not later than July 18, 2008.

Interested persons are invited to submit written comments regarding the subject matter of the investigations to the Director, Division of Trade Adjustment Assistance, at the address shown below, not later than July 18, 2008.

The petitions filed in this case are available for inspection at the Office of the Director, Division of Trade Adjustment Assistance, Employment and Training Administration, U.S. Department of Labor, Room C-5311, 200 Constitution Avenue, NW., Washington, DC 20210.

Signed at Washington, DC, this 25th day of June 2008.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

Ferguson Aluminum, Olmsted, IL;
Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, as amended, an investigation was initiated on May 22, 2008 in response to a worker petition filed by a company official on behalf of workers at Ferguson Aluminum, Olmsted, Illinois.

The petitioner has requested that petition be withdrawn. Consequently, the investigation has been terminated.

Signed at Washington, DC, this 27th day of June 2008.

[TA-W-63,011]

B. Walter and Company, Wabash, IN;
Notice of Revised Determination on
Reconsideration

By application dated May 26, 2008, a petitioner requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm.

The initial investigation initiated on March 17, 2008, resulted in a negative

determination issued on May 15, 2008, was based on the finding that imports of metal stampings did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred. The denial notice was published in the **Federal Register** on May 29, 2008 (73 FR 30978).

In the request for reconsideration, the petitioner provided new information regarding a customer of the subject firm, which was recently certified eligible for TAA.

Upon further investigation it was determined that B. Walter and Company, Wabash, Indiana supplied metal stampings that were used in the production of wooden furniture, and a loss of business with domestic manufacturers (whose workers were certified eligible to apply for adjustment assistance) contributed importantly to the workers separation or threat of separation. The parts supplied were related to the articles that were the basis of certification.

In accordance with Section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as
