

Abstract of Proposed Collection: The proposed study will develop and further the Department of Labor's understanding of the traits and characteristics of programs which provide employment and training services for homeless veterans. Comparing results of different grantee models (both urban and non-urban) will assist the Department with performance outcome comparisons across grantees and identification of best practices. This questionnaire asks for opinions, reactions, and thoughts regarding the HVRP program.

Methodology: The collection of information will utilize a web-based survey design. Alternatively, participants will be able to complete the survey using a paper-based version if they prefer such a format. A paper copy of the survey will be mailed to participants who request a paper based format and will include a postage paid return envelope for submission.

Signed in Washington, DC, this 8th day of August 2008.

Charles S. Ciccolella,
Assistant Secretary, Veterans Employment
and Training Service.

Draft Regulatory Guide: Denial of Extension of Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of denial of request to extend the comment period of Draft Regulatory Guide (DG)-1200, "An Approach for Determining the Technical Adequacy of Probabilistic Risk

Assessment Results for Risk-Informed Activities."

FOR FURTHER INFORMATION CONTACT:

Mary Drouin, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, telephone: (301) 415-6675 or e-mail to Mary.Drouin@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC) issued for public comment DG-1200, which was published in the **Federal Register**, 73 FR 35170, on June 20, 2008. DG-1200 is proposed Revision 2 of Regulatory Guide 1.200 in the agency's Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

II. Further Information

The NRC staff requested receipt of comments on DG-1200 by August 25, 2008, (including any implementation schedule) and its associated regulatory analysis or value/impact statement. Comments received after August 25, 2008, would be considered if practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date. Although a time limit is given, comments and suggestions in connection with items for inclusion in guides currently being developed or improvements in all published guides are encouraged at any time.

III. Request to Extend the Comment Period

Basis for the Request

The NRC received the following extension request:
