[Docket No. CP08-454-000]

### Liberty Gas Storage, LLC; Notice of Application

August 14, 2008.

Take notice that on July 31, 2008, Liberty Gas Storage, LLC (Liberty Gas), 101 Ash Street, San Diego, CA 92101, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA), for an order granting a certificate of public convenience to construct new natural gas storage, comprised of three existing salt dome caverns and the development of a new salt dome cavern, pipeline and appurtenant facilities. The new facilities will be located in Cameron and Calcasieu Parishes, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll free at (866) 208-3676, or TTY, contact (202) 502-8659.

Any questions concerning this application may be directed to William Rapp, Liberty Gas Storage, 101 Ash Street, San Diego, CA 92101 or by phone at (619) 699-5050.

Liberty Gas' new storage project has been designed to provide approximately 18.9 billion cubic feet (Bcf) of working gas capacity with a maximum injection rate of up to 600 million cubic feet (Mcf) per day and a maximum withdrawal rate of up to 1.2 Bcf per day. Additionally, Liberty Gas intends to construct 5.1 miles of 36-inch diameter pipeline to deliver the natural gas to Cameron Interstate Pipeline, LLC, as well as one 18,940 horsepower compressor station, a 4.0 mile brine disposal pipeline and water supply facilities necessary to develop the proposed new cavern.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other

milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's
