* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Israel – M72A7 Light Anti-Armor Weapons (LAAWs)

The Government of Israel has requested a possible sale of 28,000 M72A7 66mm Light Anti-Armor Weapons (LAAWs), 60,000 M72AS 21mm Sub-Caliber Training Rockets, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$89 million.

Israel's strategic position makes it vital to the United States' interests throughout the Middle East. Our policy has been to promote Middle East peace, support the Israeli commitment to peace with other regional Arab countries, enhance regional stability, and promote Israeli readiness and self-sufficiency. It is vital to the U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale will enhance the foreign policy and national security objectives of the U.S. by providing the Israeli Government with a lightweight assault rocket that will enable Israel to maintain its operational capability, and provide greater mission flexibility to deter aggression in the region. Israel will have no difficulty absorbing this weapon capability into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principal contractor will be Talley Defense of Mesa, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-87**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The M72A7 Light Anti-Armor Weapon is a lightweight assault rocket that provides greater flexibility on the battlefield. This weapon system has the capability to defeat targets such as covered enemy fighting positions, or light armored vehicles or out of range hand grenades and other close in weapon systems.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware or software in this proposed sale, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.
