POLICY JUSTIFICATION**Israel – Patriot Missile Fire Unit Upgrades**

The Government of Israel has requested a possible sale of 3 PATRIOT System Configuration 3 Modification kits to upgrade 3 PATRIOT fire units to Radar Enhancement Phase 3 (REP-3) and Classification, Discrimination and Identification Phase 3 (CDI-3). Non-MDE includes: communication support equipment, tools and test equipment, integration and checkout, spares and repair parts, installation and training, publications and technical documents, U.S. Government and contractor technical assistance, and other related elements of logistics and program support. The estimated cost is \$164 million.

Israel's strategic position makes it vital to the United States' interests throughout the Middle East. Our policy has been to promote Middle East peace, support Israeli commitment to peace with other regional Arab countries, enhance regional stability and promote Israeli readiness and self-sufficiency. It is vital to the U.S. national interest to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

Israel will have no difficulty absorbing this system into its armed forces. The proposed sale will not affect the basic military balance in the region.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the recipient.

The prime contractor will be Raytheon Corporation, Andover, MA. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 08-62**Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act****Annex
Item No. vii****(vii) Sensitivity of Technology:**

1. The PATRIOT Air Defense System contains critical/sensitive technology and classified Confidential components. The Configuration 3 upgrade represents significant technological advances for the existing PATRIOT system capabilities. The Configuration 3 sensitive/critical technology is primarily in the area of design and production know-how and primarily inherent in the design, development, and/or manufacturing data related to certain critical components. Information on operational effectiveness with respect to electronic countermeasures and counter-counter measures, low observable technologies, select software documentation and test data are classified up to and including Secret.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.
