Notice of Proposed Supplementary Rules for Public Land Administered by the Bureau of Land Management (BLM) in Colorado, Relating to Camping and Occupancy of Public Lands

AGENCY: Bureau of Land Management, Interior.

ACTION: Proposed supplementary rules for public lands within the State of Colorado.

SUMMARY: The Bureau of Land Management (BLM) is proposing these supplementary rules for public lands within the State of Colorado, relating to camping. These rules extend the time period and distance the camping public must move once the current 14-day stay limit is reached. These supplementary rules are needed to protect natural resources and provide for public health and safety. They are based upon existing regulations that address camping and residency, and update existing supplementary rules specific to camping stay limits. These supplementary rules further promote consistency between the BLM and similar rules of other natural resource agencies, including the U.S. Forest Service.

DATES: You should submit your comments by March 7, 2008.

ADDRESSES: You may submit comments by the following methods:

Mail or hand-delivery: Bureau of Land Management, Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215. Internet e-mail: http://www.co_proposed_rule@blm.gov (Include Attn: Dorothy Bensusan in your subject line).

FOR FURTHER INFORMATION CONTACT: State Staff Ranger Dorothy Bensusan, 303-239-3893 or dorothy_bensusan@blm.gov.

SUPPLEMENTARY INFORMATION:

I. Public Comment Procedures

You may mail or deliver comments to Bureau of Land Management, Colorado State Office, 2850 Youngfield Street, Lakewood, Colorado 80215.

You may also comment via the Internet to http://www.co_proposed_rule@blm.gov. Please also include your name and return address in your Internet message, and include "attn: Dorothy Bensusan."

You also may comment via the Internet by accessing the Federal eRulemaking Portal at <http://www.regulations.gov> and following the instructions there.

Written comments on the proposed amended supplementary rules should be specific, confined to issues pertinent to the proposed amendments, and should explain the reason for any recommended change. Where possible, comments should reference the specific section or paragraph of the proposal that the comment addresses. The BLM may not necessarily consider or include in the Administrative Record for the supplementary rules comments that BLM receives after the close of the comment period (see **DATES**), unless they are postmarked or electronically dated before the deadline, or comments delivered to an address other than those listed above (See **ADDRESSES**).

Comments, including names, street addresses, and other contact information of respondents, will be available for public review at 2850 Youngfield Street, Lakewood, CO 80215, during regular business hours (7:45 a.m. to 3:45 p.m.), Monday through Friday, except Federal holidays. Before including your address, telephone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

II. Discussion

The current camping stay limit was published in 1990, and while it limited occupancy of any location to 14 days, it only required departure for 7, or removal to a new location not less than 3 miles away. As a result, certain users have taken advantage of the existing language and established long term residency under the pretext of camping. Public concern about this unauthorized residential occupancy has necessitated that the BLM develop stronger regulations to address the issue. These uses often interfere with legitimate recreation use of public lands, create sanitation and other potential health concerns, cause damage to the resources by illegal campfire use, vegetation trampling, vehicle use, and trash dumping, and occasionally pose public dangers.

These regulations replace the statewide 14-Day Camping Limit established by the Colorado BLM through **Federal Register** notice issued April 11, 1990 (55 FR 13672). The amended language increases the distance campers must move after reaching the 14-day limit from 3 to 30 miles. These supplementary rules also require that once campers have camped for 14 consecutive days, they must move away from a particular location for at least 30 days before returning, rather than 7 days, as the existing rule provides. Additional language is included to limit the occurrence of unattended campsites which are being established for the purpose of securing campsite locations for later use. These supplementary rules apply to all the public lands within the State of Colorado. In keeping with the BLM's performance goal to reduce threats to public health, safety, and property, these rules are necessary to protect the natural resources, provide for safe public recreation and public health, reduce the potential for damage to the environment, and enhance the safety of public land users.

Individual Field Offices may issue separate regulations relating to camping and occupancy that are more, but not less, restrictive. This notice does not affect more restrictive camping limits that may already be in place for certain areas.

III. Procedural Information

Executive Order 12866, Regulatory Planning and Review

These supplementary rules are not a significant regulatory action and are not subject to review by the Office of Management and Budget under Executive Order 12866. The

supplementary rules will not have an effect of \$100 million or more on the economy. They are directed at preventing unlawful personal behavior on public lands, in order to protect public health and safety. They will not adversely affect, in a material way, the economy, productivity, competition, jobs, the environment, public health or safety, or state, local, or tribal governments or communities. The supplementary rules will not create a serious inconsistency or otherwise interfere with an action taken or planned by another agency. The supplementary rules do not alter the budgetary effects of entitlements, grants, user fees, or loan programs or the right or obligations of their recipients; nor do they raise novel legal or policy issues. The supplementary rules merely enable BLM law enforcement personnel to enforce regulations pertaining to unlawful occupancy and health, building, sanitation, and fire codes in a manner consistent with current Colorado state and county laws, where appropriate on public lands.

Regulatory Flexibility Act

Congress enacted the Regulatory Flexibility Act of 1980, as amended, 5 U.S.C. 601-612, (RFA) to ensure that Government regulations do not unnecessarily or disproportionately burden small entities. The RFA requires a regulatory flexibility analysis if a rule would have a significant economic impact, either detrimental or beneficial, on a substantial number of small entities. The proposed supplementary rules do not pertain specifically to commercial or governmental entities of any size, but contain rules to protect the health and safety of individuals, property, and resources on the public lands. Therefore, BLM has determined under the RFA that the proposed supplementary rules would not have a significant economic impact on a substantial number of small entities.

Small Business Regulatory Enforcement Fairness Act (SBREFA)

This supplementary rules do not constitute a "major rule" as defined at 5 U.S.C. 804(2). Again, the supplementary rules pertain only to individuals who may wish to occupy public lands for residential purposes or maintain, construct, place, occupy or use any structure in violation of state or county health, building, sanitation or fire codes. In this respect, the regulation of such use is necessary to protect the public lands and facilities and those, including small business concessionaires and outfitters, who use them. The supplementary rules have no

effect on business, commercial, or industrial use of the public lands.

Unfunded Mandates Reform Act

These proposed supplementary rules do not impose an unfunded mandate on state, local or tribal governments or the private sector of more than \$100 million per year; nor do these proposed supplementary rules have a significant or unique effect on state, local, or tribal governments or the private sector. The supplementary rules do not require anything of state, local, or tribal governments. Therefore, BLM is not required to prepare a statement containing the information required by the Unfunded Mandates Reform Act (2 U.S.C. 1531, *et seq.*)

Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights (Takings)

The proposed supplementary rules do not represent a government action capable of interfering with constitutionally protected property rights. The supplementary rules do not address property rights in any form, and do not cause the impairment of anyone's property rights. Therefore, the Department of the Interior has determined that the supplementary rules would not cause a taking of private property or require further discussion of takings implications under this Executive Order.

Executive Order 13132, Federalism

The supplementary rules will not have a substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. The supplementary rules apply in only one state, Colorado, and do not address jurisdictional issues involving the Colorado State government. Therefore, in accordance with Executive Order 13132, BLM has determined that the supplementary rules do not have sufficient Federalism implications to warrant preparation of a Federalism Assessment.

Executive Order 13175, Consultation and Coordination with Indian Tribal Governments

In accordance with E.O. 13175, we have found that these proposed supplementary rules do not include policies that have tribal implications. Since the supplementary rules do not change BLM policy and do not involve Indian reservation lands or resources, we have determined that the

government-to-government relationships should remain unaffected. The supplementary rules only prohibit the unauthorized occupancy of public lands and the unauthorized maintaining, construction, placing, occupying, or use of any structure in violation of any state and/or county health, building, sanitation, or fire code on public lands.

Executive Order 12988, Civil Justice Reform

Under Executive Order 12988, Colorado State Office of the BLM has determined that these proposed supplementary rules would not unduly burden the judicial system and that they meet the requirements of sections 3(a) and 3(b)(2) of the Order.

Paperwork Reduction Act

These proposed supplementary rules do not contain information collection requirements that the Office of Management and Budget must approve under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501, *et seq.*

National Environmental Policy Act

The BLM has prepared an environmental assessment (EA) and has found that the proposed supplementary rules would not constitute a major Federal action significantly affecting the quality of the human environment under Section 102(2)(C) of the Environmental Protection Act of 1969 (NEPA), 42 U.S.C. 4332(2)(C). The supplementary rules will enable BLM law enforcement personnel to cite persons for unlawful camping, and the use of public land for residential purposes. The BLM has placed the EA and the Finding of No Significant Impact (FONSI) on file in the BLM Administrative Record at the address specified in the **ADDRESSES** section. The BLM invites the public to review these documents and suggests that anyone wishing to submit comments do so in accordance with the Public Comment Procedures section, above.

Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

These proposed supplementary rules do not comprise a significant energy action. The supplementary rules will not have an adverse effect on energy supplies, production, or consumption. They only address unauthorized occupancy and violations of state or county health, building, sanitation or fire codes on public lands, and have no conceivable connection with energy policy.

Author

The principal author of these proposed supplementary rules is State Staff Ranger Dorothy Bensusan, Bureau of Land Management.

For the reasons stated in the Preamble, and under the authority for supplementary rules found under 43 CFR 8365.1–6, 43 CFR 8364.1, 43 U.S.C. 1740, 16 U.S.C. 670h(c)(5) and 43 U.S.C. 315a, the Colorado State Director, Bureau of Land Management, proposes to issue these supplementary rules for public lands managed by the BLM in Colorado, to read as follows:
