The respondent's detailed interpretation of the regulation is required to comply with the requirements of Sec. 533 of the 1998 Research Act and to clarify the boundaries of the request to FCIC. If the requested information is not collected with each submission, FCIC would not be able to comply with the statutory mandates.

#### **Risk Management Agency**

**Title:** Request for Applications for Research Partnerships.

**OMB Control Number:** 0563-0065.

**Summary of Collection:** The Federal Crop Insurance Act of 2002 authorizes the Federal Crop Insurance Corporation to enter into partnerships with public and private entities for the purpose of increasing the availability of risk management tools for producers of agricultural commodities. The Risk Management Agency (RMA) has developed procedures for the preparation, submission and evaluation of applications.

**Need and Use of the Information:** RMA and a review panel of independent reviewers will use the information to determine applicant eligibility and to evaluate the applications. The qualifying applicants will be scored on each of five criteria: Research objectives; RMA involvement/non-financial benefits; research methodology, development, and implementation; management; and bonus points for proposals that address RMA priorities and/or are submitted by applicants representing a geographically diverse area. Scores are totaled, listed in rank order and are used for the final decision on awards. If the information is not collected, the consequences would be a missed opportunity to improve and or develop new risk management tools for agricultural producers. The impact would affect those segments of agriculture lacking access to existing risk management tools.

**Description of Respondents:** State, Local, or Tribal Government; Not-for-profit Institutions.

**Number of Respondents:** 100.

**Frequency of Responses:** Reporting: Occasion.

**Total Burden Hours:** 3,533.

The two educational programs requiring application are: To establish crop insurance education and information programs in States that have been historically underserved by the Federal Crop Insurance Program; and to provide agricultural producers with training opportunities in risk management with a priority given to producers of specialty crops and underserved commodities. Funds are available to fund parties willing to assist RMA in carrying out local and regional risk management can crop insurance education programs.

**Need and Use of the Information:** Applicants are required to submit completed application packages in hard copy to RMA. RMA and review panel will evaluate and rank applicants as well as use the information to properly document and protect the integrity of the process used to select applications for funding.
