SAFEGUARDS:

Names and social security numbers have been redacted from paper records that were collected until 2006. After 2006, social security numbers were no longer collected on the Volunteer. The crime incident database does not collect or store previously collected social security numbers. Accounts are created for Peace Corps staff for whom a business need exists, i.e., select staff in Director's office, Safety and Security, Regions, and Volunteer Support. Regional Security Officers and Assistant Regional Security Officers at the U.S. Embassy at post also receive CIRS accounts. Embassy officials must complete a Technology Access Agreement form to receive an account. All CIRS accounts require a user name and password. Access to Volunteer names and addresses in the reports is restricted to only those CIRS users who have a need to know. These include reporting post staff, Office of Volunteer Support staff who are responsible for medical support, and Regional Security Officers with the U.S. Embassy.

Information is encrypted using 128-bit SSL and AES encryptions standards. The system platform went through the accreditation process in February 2008 (i.e., accreditation with the WebTrust seal) and through a SAS-70 Type II audit performed by a third party auditor.

RETENTION AND DISPOSAL:

As there is no records disposal schedule for this information, electronic and paper records are being retained indefinitely. Records are retained to allow for historical data and trends analysis. Paper files are redacted to remove Volunteer names and social security numbers. The annual Safety of the Volunteer report is kept on file permanently for historical reference.
