

Notices

Federal Register

Vol. 74, No. 87

Thursday, May 7, 2009

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

Notice of Meeting

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice of meeting.

SUMMARY: Notice is hereby given that the Advisory Council on Historic Preservation (ACHP) will meet Thursday, May 14, 2009. The meeting will be held in Room M09 in the Old Post Office Building, 1100 Pennsylvania Avenue, NW., Washington, DC at 9 a.m.

The ACHP was established by the National Historic Preservation Act of 1966 (16 U.S.C. 470 *et seq.*) to advise the President and Congress on national historic preservation policy and to comment upon Federal, federally assisted, and federally licensed undertakings having an effect upon properties listed in or eligible for inclusion in the National Register of Historic Places. The ACHP's members are the Architect of the Capitol; the Secretaries of the Interior, Agriculture, Defense, Housing and Urban Development, Commerce, Education, Veterans Affairs, and Transportation; the Administrator of the General Services Administration; the Chairman of the National Trust for Historic Preservation; the President of the National Conference of State Historic Preservation Officers; a Governor; a Mayor; a Native American; and eight non-Federal members appointed by the President.

The agenda for the meeting includes the following:

Call To Order—9 a.m.

I. Chairman's Welcome.

II. Preserve America and Chairman's Award Presentation.

III. Native American Activities.

A. Native American Advisory Group.

B. Native American Program Report.

IV. Historic Preservation and the American Recovery and Reinvestment Act.

V. Implementing ACHP

Recommendations on the Structure of the Federal Preservation Program.

VI. Preserve America Program Implementation.

A. Current Status.

B. Implementing the Preserve America/Save America's Treasures Authorizing Legislation.

C. Preserve America Summit Recommendations: Looking to the Future.

VII. Preservation Initiatives Committee.

A. Legislative Update.

VIII. Federal Agency Programs Committee.

A. Section 3 Report to the President: Follow Up.

B. Section 106 Case Updates.

IX. Communications, Education, and Outreach Committee.

A. Service Learning Initiative.

X. Chairman's Report.

A. ACHP Alumni Foundation.

B. Transition.

XI. Executive Director's Report.

A. Staff Changes and Recruitment.

B. Diversity Initiative.

XII. New Business.

XIII. Adjourn.

Note: The meetings of the ACHP are open to the public.

If you need special accommodations due to a disability, please contact the Advisory Council on Historic Preservation, 1100 Pennsylvania Avenue, NW., Room 803, Washington, DC, 202-606-8503, at least seven (7) days prior to the meeting. For further information: Additional information concerning the meeting is available from the Executive Director, Advisory Council on Historic Preservation, 1100 Pennsylvania Avenue, NW., #803, Washington, DC 20004.

Dated: April 30, 2009.

John Fowler,

Executive Director.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2008-0141]

Availability of an Environmental Assessment and Finding of No Significant Impact for a Biological Control Agent for *Arundo donax*

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice.

SUMMARY: We are advising the public that an environmental assessment and finding of no significant impact have been prepared by the Animal and Plant Health Inspection Service relative to the release of a wasp, *Tetramesa romana*, into the continental United States for use as a biological control agent to reduce the severity of *Arundo donax* infestations. Based on its finding of no significant impact, the Animal and Plant Health Inspection Service has determined that an environmental impact statement need not be prepared.

FOR FURTHER INFORMATION CONTACT: Dr. Carmen Soileau, Senior Entomologist, Evaluation and Permitting of Regulated Organisms and Soil, PPQ, APHIS, 4700 River Road Unit 133, Riverdale, MD 20737-1237; (301) 734-5302.

SUPPLEMENTARY INFORMATION:

Background

Arundo donax is a highly invasive, bamboo-like weed that was introduced to North America in the early 1500s for its fiber uses. It is among the fastest growing plants in the continental United States, making it a severe threat to riparian areas, where it causes erosion, damages bridges, alters channel morphology, increases costs for chemical and mechanical control along transportation corridors, and impedes law enforcement activities along international borders. Additionally, *A. donax* consumes excessive amounts of water, competing for water resources in arid regions where these resources are critical to the environment, agriculture, and municipal users.

The proposed biological control agent, *Tetramesa romana*, is a wasp in the insect family Eurytomidae. It has a widespread presence around the Mediterranean basin, from Turkey to Spain and Morocco, and was also found

at one site in southern Africa and one site in China. Two populations of *T. romana* have recently been discovered near Santa Barbara, CA, and in Austin, TX. The establishment of *T. romana* in Texas indicates that the wasp has a moderate level of cold hardiness and is therefore expected to establish throughout the range of *A. donax*.

On March 6, 2009, we published in the **Federal Register** (74 FR 9779–9780, Docket No. APHIS–2008–0141) a notice¹ in which we announced the availability, for public review and comment, of an environmental assessment (EA) that examined the potential environmental impacts associated with the proposed release of this biological control agent into the continental United States.

We solicited comments on the EA for 30 days ending April 6, 2009. We received 10 comments by that date. A written response to all comments received on the EA can be found in appendix 3 of the final EA (see footnote 1).

In this document, we are advising the public of our finding of no significant impact (FONSI) regarding the release of a wasp, *Tetramesa romana*, into the continental United States for use as a biological control agent to reduce the severity of *A. donax* infestations. The finding, which is based on the EA, reflects our determination that release of this biological control agent will not have a significant impact on the quality of the human environment.

The EA and FONSI may be viewed on the Regulations.gov Web site (see footnote 1). Copies of the EA and FONSI are also available for public inspection at USDA, Room 1141, South Building, 14th Street and Independence Avenue, SW., Washington, DC, between 8 a.m. and 4:30 p.m., Monday through Friday, except holidays. Persons wishing to inspect copies are requested to call ahead on (202) 690–2817 to facilitate entry into the reading room. In addition, copies may be obtained by writing to the individual listed under **FOR FURTHER INFORMATION CONTACT**.

The EA and FONSI have been prepared in accordance with: (1) The National Environmental Policy Act of 1969 (NEPA), as amended (42 U.S.C. 4321 *et seq.*), (2) regulations of the Council on Environmental Quality for implementing the procedural provisions of NEPA (40 CFR parts 1500–1508), (3) USDA regulations implementing NEPA (7 CFR part 1b), and (4) APHIS' NEPA

Implementing Procedures (7 CFR part 372).

Done in Washington, DC, this 1st day of May 2009.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

Animal and Plant Health Inspection Service

[Docket No. APHIS–2009–0015]

Notice of Availability of an Evaluation of the Highly Pathogenic Avian Influenza Subtype H5N1 Status of Suffolk and Norfolk Counties in England

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability and request for comments.

SUMMARY: We are advising the public that the Animal and Plant Health Inspection Service has prepared an evaluation of the animal health status of Suffolk and Norfolk Counties, England, relative to the H5N1 subtype of highly pathogenic avian influenza (HPAI). The evaluation presents our assessment of the HPAI H5N1 detection, control, and eradication measures in place in Suffolk and Norfolk Counties, England, during outbreaks of HPAI H5N1 in 2007, as well as our assessment of the present status of Suffolk and Norfolk Counties, England, with respect to HPAI subtype H5N1. We are making this evaluation available to the public for review and comment. If, after the close of the comment period, APHIS can identify no additional risk factors that would indicate that domestic poultry in Suffolk and Norfolk Counties in England continue to be affected with HPAI H5N1, we would conclude that the importation of live birds, poultry carcasses, parts of carcasses, and eggs (other than hatching eggs) of poultry, game birds, or other birds from the affected regions of Suffolk and Norfolk Counties in England presents a low risk of introducing HPAI H5N1 into the United States.

DATES: We will consider all comments that we receive on or before June 8, 2009.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to <http://www.regulations.gov/fdmspublic/component/>

[main?main=DocketDetail&d=APHIS-2009-0015](http://www.regulations.gov/fdmspublic/main?main=DocketDetail&d=APHIS-2009-0015) to submit or view comments and to view supporting and related materials available electronically.

- **Postal Mail/Commercial Delivery:**

Please send two copies of your comment to Docket No. APHIS–2009–0015, Regulatory Analysis and Development, PPD, APHIS, Station 3A–03.8, 4700 River Road Unit 118, Riverdale, MD 20737–1238. Please state that your comment refers to Docket No. APHIS–2009–0015.

Reading Room: You may read any comments that we receive on the evaluation in our reading room. The reading room is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue, SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 690–2817 before coming.

Other Information: Additional information about APHIS and its programs is available on the Internet at <http://www.aphis.usda.gov>.

FOR FURTHER INFORMATION CONTACT: Dr. Ingrid Kotowski, Import Risk Analyst, Regionalization Evaluation Services International, National Center for Import and Export, VS, APHIS, 920 Main Campus Drive, Suite 200, Raleigh, NC 27606; (919) 855–7732.

SUPPLEMENTARY INFORMATION:

Background

Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) has the authority to prohibit or restrict the importation into the United States of animals, animal products, and other articles in order to prevent the introduction of diseases and pests into the U.S. livestock and poultry populations.

Highly pathogenic avian influenza (HPAI) is a zoonotic disease of poultry. The H5N1 subtype of HPAI is an extremely infectious and fatal form of the disease. HPAI can strike poultry quickly without any warning signs of infection and, once established, can spread rapidly from flock to flock. HPAI viruses can also be spread by manure, equipment, vehicles, egg flats, crates, and people whose clothing or shoes have come in contact with the virus. HPAI viruses can remain viable at moderate temperatures for long periods in the environment and can survive indefinitely in frozen material. The H5N1 subtype of HPAI has been of particular concern because it has crossed the species barrier and caused disease in humans.
