SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of March 28, 2001 (66 FR 16858), FDA issued a direct final rule amending its bottled water

quality standard regulations by establishing allowable levels for three residual disinfectants (chloramine, chlorine, and chlorine dioxide) and three types of disinfection byproducts (DBPs) (bromate, chlorite, and haloacetic acids (HAA5)), and by revising the existing allowable level for the DBP total trihalomethanes (TTHM). FDA also revised, for the three residual disinfectants and four types of DBPs only, the monitoring requirement for source water found in the current good manufacturing practice (CGMP) regulations for bottled water. On July 5, 2001 (66 FR 35373), FDA issued a technical amendment to correct an editorial error and confirmed the effective date of January 1, 2002.

FDA examined the economic implications of the direct final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601-612) and determined that the rule would have a significant economic impact on a substantial number of small entities. In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Public Law 104-121), FDA is making available this SECG stating in plain language the legal requirements of the March 28, 2001, direct final rule set forth in 21 CFR parts 129 and 165 concerning the allowable levels and monitoring requirements for the three residual disinfectants (chloramine, chlorine, and chlorine dioxide) and four types of DBPs (bromate, chlorite, HAA5, and TTHM).

FDA is issuing this SECG as level 2 guidance consistent with FDA's good guidance practices regulation (21 CFR 10.115(c)(2)). The SECG represents the agency's current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. An alternative approach may be used if such approach satisfies the requirements of the applicable statutes and regulations.

II. Comments

Interested persons may submit to the Division of Dockets Management (see **ADDRESSES**) written or electronic comments regarding this SECG. Submit a single copy of electronic comments or two paper copies of any mailed comments, except that individuals may submit one paper copy. Comments are to be identified with the docket number found in brackets in the heading of this document. The SECG and received comments may be seen in the Division of Dockets Management between 9 a.m. and 4 p.m., Monday through Friday.

III. Electronic Access

Persons with access to the Internet may obtain the document at <http://www.cfsan.fda.gov/guidance.html> or <http://www.regulations.gov>.

Dated: May 22, 2009.
