The Department is requesting OMB approval for the continued use of a generic Solicitation for Grant Application (SGA) format for information collection requirements for SGAs that extend beyond what is collected on currently approved standard forms. OMB approval of this generic SGA form will assist the Department to carry out its responsibilities under the Paperwork Reduction Act by accurately accounting for the public burden associated with grant applications through the promotion of a common structure for reporting the information collection requirements contained in DOL's SGAs.

Periodically, DOL solicits applications for grants through issuing a SGA. To ensure that grants are awarded to the applicant best suited to perform the functions of the grant, applicants are generally required to submit a two-part application. The first part of DOL's grant applications consists of submitting the Standard Form 424 (SF-424), "Application for Federal Assistance." The second part of a grant application usually requires a technical proposal demonstrating the applicant's capabilities in accordance with a statement of work and/or selection criteria.

The information collected in response to solicitations for grant applications has been and will be used by the
