Foreign Agricultural Service

Title: Foreign Market Development Cooperator Program (FMDCP) and Market Access Program (MAP).

OMB Control Number: 0551-0026.

Summary of Collection: The basic authority for the Foreign Market Development Cooperator Program (FMDCP) is contained in Title VII of the Agricultural Trade Act of 1978, 7 U.S.C. 5721, *et seq.* Program regulations appear at 7 CFR part 1484. Title VII directs the Secretary of Agriculture to "establish and, in cooperation with eligible trade organization, carry out a foreign market development cooperator program to maintain and develop foreign markets for United States agricultural commodities and products." The primary objective of the Market Access Program (MAP) is to encourage the development, maintenance and expansion of commercial export markets for U.S. agricultural products through cost-share assistance to eligible trade organizations that implement a foreign market development program. The programs are administered by personnel of the Foreign Agricultural Service (FAS).

Need and Use of the Information: The collected information will be used by FAS to manage, plan, evaluate, and account for government resources. Specifically, data is used to assess the extent to which: applicant organizations represent U.S. commodity interests; benefits derived from market development effort will translate back to the broadest possible range of beneficiaries; the market development efforts will lead to increases in consumption and imports of U.S. agricultural commodities; the applicant is able and willing to commit personnel and financial resources to assure adequate development, supervision and execution of project activities; and private organizations are able and willing to support the promotional program with aggressive marketing of the commodity in question. Without the collected information the program could not be implemented.
