

cannot guarantee that we will be able to do so.

We are particularly interested in comments pertaining to the application requirements under 50 CFR 17.22(b)(1). These include whether the HCP: Provides complete descriptions of the activities under which the incidental taking of covered species is likely to occur; describes the impacts to covered species that will likely result from the incidental taking; outlines the steps DNRC will take to monitor, minimize, and mitigate such impacts for each covered species and the available funding to implement such steps over the term of the ITP; and describes alternative actions to such taking and the reasons why such alternatives are not proposed to be utilized. As part of evaluating whether the permit issuance criteria are met, we specifically seek comment on whether the minimization and mitigation measures are being undertaken to the maximum extent practicable.

#### Next Steps

We will evaluate the ITP application, including the proposed HCP and any comments we receive, to determine whether the application meets the requirements of section 10(a)(1)(B) of the ESA. We will also evaluate whether issuance of the section 10(a)(1)(B) ITP complies with section 7 of the ESA by conducting an intra-Service section 7 consultation. We will use the results of this consultation, in combination with the above findings, in our final analysis to determine whether or not to issue the ITP. If we determine that the requirements are met, we will issue the ITP for the incidental take of species.

#### Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).

Dated: June 11, 2009.
