

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: The Regional Administrator, Southwest Region, NMFS, has made a preliminary determination that an application for an Exempted Fishing Permit (EFP) warrants further consideration. The application was submitted by members of the Pacific sardine fishing industry and requests an exemption from commercial quotas in order to conduct a survey to obtain a estimate of the population of Pacific sardine. NMFS requests public comment on the application.

DATES: Comments must be received by July 14, 2009.

ADDRESSES: You may submit comments on this notice identified by 0648–XP83 by any one of the following methods:

- Mail: Rodney R. McInnis, Regional Administrator, Southwest Region, NMFS, 501 West Ocean Blvd., Suite 4200, Long Beach, CA 90802.
- Fax: (562) 980–4047, Att: Joshua Lindsay

FOR FURTHER INFORMATION CONTACT: A copy of the application can viewed on the Pacific Fishery Management Council's website at <http://www.pcouncil.org/cps/cpsefp.html>; or contact Joshua Lindsay, Southwest Region, NMFS, (562) 980–4034.

SUPPLEMENTARY INFORMATION: On February 20, 2009, NMFS published a final rule implementing the harvest guideline (HG) and annual specifications for the 2009 Pacific sardine fishing season off the U.S. West Coast (74 FR 7826). These specifications and associated management measures were based on recommendations adopted by the Pacific Fishery Management Council (Council) at their November 2008 public meeting in San Diego, California (73 FR 60680). As part of these management measures the Council recommended, and NMFS approved, that 1,200 metric tons (mt) of the available acceptable biological catch (ABC) be initially subtracted from the ABC and reserved for a potential industry-based research project. This 1,200 mt set-aside was intended to allow research fishing, that had been proposed for the second seasonal period (July 1–September 15, 2009), to continue if that period's allocation is reached and directed fishing is closed. Members of the Pacific sardine fishing industry requested this separate allocation so that they could conduct research fishing activities after fishing is closed because of foreseen difficulties in attempting to have vessels fish for the

purposes of research during the normal fishing season.

At the March 2009 Council meeting, the Council reviewed two industry research/EFP proposals to allow access to the 1,200 mt set-aside. Both proposals went forward for public comment with the recommendation from the Council that the proposals be combined to create a single EFP application to be reviewed at the June 2009 Council meeting. After hearing the research proposals and public comment, the Council also recommended, and NMFS issued a **Federal Register** notice proposing, that the original 1200 mt set-aside be increased to 2400 mt (74 FR 20897).

Sardine industry representatives and scientists have since collaborated on a single proposal and on June 16, 2009, the Council made a final recommendation to NMFS to approve and implement this single EFP application. The goal set forth in the EFP application is the development of an index of biomass for Pacific sardine, with the desire that this index be included in the next Pacific sardine stock assessment. If NMFS decides not to issue this EFP, then the set-aside will be re-allocated to the third period's directed harvest allocation.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 22, 2009.

Kristen C. Koch

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648–XQ04

Marine Mammals; File No. 774–1714

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit amendment.

SUMMARY: Notice is hereby given that NMFS, Southwest Fisheries Science Center (SWFSC) (Jeremy Rusin, Principal Investigator), Protected Resources Division, 8604 La Jolla Shores Dr., La Jolla, CA 92037 has been issued an amendment to scientific research Permit No. 774–1714–09.

ADDRESSES: The amendment and related documents are available for review upon written request or by appointment

in the following offices: See **SUPPLEMENTARY INFORMATION.**

FOR FURTHER INFORMATION CONTACT: Amy Hapeman or Kristy Beard, (301)713–2289.

SUPPLEMENTARY INFORMATION: On March 3, 2009, notice was published in the **Federal Register** (74 FR 9222) that an amendment to Permit No. 774–1714, issued June 30, 2004 (68 FR 57673), had been requested by the above-named organization. The requested amendment has been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

Permit No. 774–1714–10 authorizes the SWFSC to conduct research on seven pinniped species, 53 cetacean species, and five sea turtle species in the Pacific, Indian, Atlantic, Arctic and Southern Oceans. The permit authorizes Level B harassment during aerial and vessel surveys for photo-identification/photogrammetry, incidental harassment, collection of sloughed skin, and salvage of carcasses and parts; Level A harassment for capture, biopsy sampling, and tagging activities; and the import/export of specimens. This amendment increases the number of short-beaked and long-beaked common dolphins (*Delphinus* spp.) that may be harassed during vessel and aerial surveys. For each species, up to 60,000 dolphins may be harassed annually during aerial surveys, up to 10,000 approached by vessel for photo-identification, and 1,500 approached and biopsy sampled annually. During research up to 40,000 animals of each species may be incidentally harassed annually. The purposes of this research are to investigate the life history traits and assess the relative reproductive rates of these species off the coast of California and Baja California. This amendment also extends the duration of the permit to June 30, 2010.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an environmental assessment was prepared analyzing the effects of the permitted activities. After a Finding of No Significant Impact, the determination was made that it was not necessary to prepare an environmental impact statement.

Issuance of this permit, as required by the ESA, was based on a finding that such permit: (1) was applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Documents may be reviewed in the following locations:

RIN 0648-XP94

Marine Mammals; File No. 984-1587-08

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit amendment.

SUMMARY: Notice is hereby given that the Dr. Terrie Williams, Department of Biology, University of California at Santa Cruz, Santa Cruz, CA 95064 has been issued an amendment to scientific research Permit No. 984-1587-07.

ADDRESSES: The amendment and related documents are available for review upon written request or by appointment in the following office:

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)427-2521.

FOR FURTHER INFORMATION CONTACT:

Jennifer Skidmore or Amy Sloan (301)713-2289.

SUPPLEMENTARY INFORMATION: The requested permit amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 984-1587 authorized captive research activities on two bottlenose dolphins (*Tursiops truncatus*) and juvenile California sea lions (*Zalophus californianus*) undergoing rehabilitation at The Marine Mammal Center through June 7, 2009. The minor amendment (No. 984-1587-08) extends the duration of the permit through September 7, 2009, but does not change any other terms or conditions of the permit.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Dated: June 23, 2009.

P. Michael Payne,

Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Construction and Operation of Offshore Oil and Gas Facilities in the Beaufort Sea, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of a letter of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, and implementing regulations, notice is hereby given that NMFS has issued a letter of authorization (LOA) to BP Exploration (Alaska), Inc. (BPXA) to take marine mammals incidental to the production of offshore oil and gas at the Northstar development in the Beaufort Sea off Alaska.

DATES: This Authorization is effective from July 7, 2009, through July 6, 2010.

ADDRESSES: The LOA and supporting documentation may be obtained by writing to P. Michael Payne, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, or by telephoning one of the contacts listed here.

FOR FURTHER INFORMATION CONTACT: Candace Nachman (301) 713-2289 or Brad Smith (907) 271-3023.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs NMFS to allow, on request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made by NMFS and regulations are issued. Under the MMPA, the term "take" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture, or kill marine mammals.

Authorization may be granted for periods up to 5 years if NMFS finds, after notice and opportunity for public comment, that the taking will have a
