Department of the Army, Corps of Engineers

Notice of Intent To Prepare a Draft Environmental Impact Statement/ Environmental Impact Report for a Permit Application for the Proposed Berths 302-306 Container Terminal Improvements Project at the Port of Los Angeles, in Los Angeles County, CA

AGENCY: U.S. Army Corps of Engineers, Los Angeles District, DoD.

ACTION: Notice of Intent (NOI).

SUMMARY: The U.S. Army Corps of Engineers, Los Angeles District (Corps) in conjunction with the City of Los Angeles Harbor Department (LAHD) is examining the feasibility of waterside terminal and transportation improvements at Berths 302-306 in the Port of Los Angeles. The Corps is considering the LAHD's application for a Department of the Army permit under section 10 of the River and Harbor Act and potentially section 404 of the Clean Water Act to construct wharf/docking facilities, perform dredging, construct container loading apparatus (*i.e.*, cranes), and other ancillary improvements within 100 feet land side of the waters' edge associated with the Berths 302-306 [American President Lines (APL)] Container Terminal Project (proposed project). Dredging up to 75,000 cubic yards (cy) may be required for the proposed project, and any proposed offshore disposal at the LA-2 disposal site would also trigger review under section 103 of the Marine Protection, Research, and Sanctuaries Act (MPRSA).

The proposed project would improve the existing terminal, extend the existing concrete wharf by 1,250 linear feet (lf) to add a new berth (Berth 306), add new cranes to the Berths 302-305 and Berth 306, and expand the existing container terminal by approximately 56 acres. The landside developments include expansion, redevelopment, and construction of marine terminal facilities.

The primary Federal concerns are the work (including dredging) and addition of permanent structures in navigable waters of the U.S., potential discharges of fill material into waters of the U.S., potential transport and disposal of dredged material at an ocean disposal site, and potential significant impacts to the environment resulting from such in-water and over-water activities. Therefore, in accordance with the National Environmental Policy Act (NEPA), the Corps is requiring the preparation of an Environmental Impact Statement (EIS) prior to consideration of any permit action. The Corps may ultimately make a determination to permit or deny the above project, or permit or deny modified versions of the above project.

Pursuant to the California Environmental Quality Act (CEQA), the LAHD will serve as Lead Agency in preparing an Environmental Impact Report (EIR) for its consideration of development approvals within its jurisdiction. The Corps and the LAHD have agreed to jointly prepare a Draft EIS/EIR to optimize efficiency and avoid duplication. The Draft EIS/EIR is
