Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Rockfish Pilot Program.

OMB Control Number: 0648-0545.

Form Number(s): None.

Type of Request: Regular submission.

Number of Respondents: 55.

Average Hours per Response:

Applications for cooperative fishing quota, limited access fishery, entry-level fishery, and application to opt out of rockfish fishery, 2 hours each; application for inter-cooperative transfer of cooperative quota, 1 hour; cooperative catch report, 30 minutes; annual cooperative report, 40 hours; rockfish cooperative termination of fishing declaration, 15 minutes; vessel check-in/check out reports, 20 minutes; appeals, 4 hours.

Burden Hours: 496.

Needs and Uses: As part of planning by the North Pacific Fishery Management Council under the Magnuson-Stevens Fishery Conservation and Management Act, the

Rockfish Pilot Program was developed for management of three rockfish fisheries in the Central Gulf of Alaska (CGOA) in the Exclusive Economic Zone off the coast of Alaska. The Program was implemented in order to improve the economic efficiency of the CGOA rockfish fisheries and was designed to result in a slower-paced fishery that would allow the harvester to choose when to fish and therefore avoid poor weather and also to provide greater stability for processors by spreading production over a greater period of time. The Rockfish Pilot Program is scheduled to end December 31, 2011.

SUPPLEMENTARY INFORMATION:

I. Abstract

Form BE-185, Quarterly Survey of Financial Services Transactions between U.S. Financial Services Providers and Foreign Persons, obtains quarterly data from U.S. financial services providers whose sales of covered financial services to foreign persons exceeded \$20 million for the previous fiscal year or are expected to exceed that amount during the current fiscal year, or whose purchases of covered financial services from foreign persons exceeded \$15 million for the previous fiscal year or are expected to exceed that amount during the current

fiscal year. The data collected are cut-off sample data. In addition, estimates are developed based upon previously reported or estimated data for non-respondents, including those U.S. financial services companies that fall below the reporting threshold for the quarterly survey but reported on a previous benchmark survey.

The data are needed to monitor U.S. international trade in financial services, analyze its impact on the U.S. and foreign economies, compile and improve the U.S. economic accounts, support U.S. commercial policy on trade in financial services, conduct trade promotion, and improve the ability of U.S. businesses to identify and evaluate market opportunities.

Responses will be due within 45 days after the close of each calendar quarter, except for the respondents' final quarter of their fiscal year, when reports are due within 90 days after the close of the quarter. The data from the survey are primarily intended as general purpose statistics. They are needed to answer any number of research and policy questions related to cross-border trade in financial services.

The BE-185 Form remains the same. No changes in the data collected or in exemption levels are proposed.

II. Method of Collection

The surveys are sent to the respondents by U.S. mail; the surveys are also available from our Web site. Respondents return the surveys one of four ways: U.S. mail, electronically using BEA's electronic collection system (eFile), fax, or e-mail.
