

information are multi-client (speculative) data sets available directly from geophysical contractors or exclusive (proprietary) data sets specially processed for or by bidders.

In addition, the GDIS should clearly identify the data type (2-D or 3-D, pre-stack or post-stack and time or depth); areal extent (*i.e.*, number of line miles for 2D or number of blocks for 3D) and migration algorithm (Wave Equation Migration, Reverse Time Migration, *etc.*) of the data and information. The statement must also include the name, phone number and full address of a contact person, and an alternate, who are both *knowledgeable* about the information and data listed and *available* for 30 days post-sale, the processing company, date processing was completed, owner of the original data set (who initially acquired the data), original data survey name and permit number. The MMS reserves the right to query about alternate data sets and to quality check and compare the listed and alternative data sets to determine which data set most closely meets the needs of the fair market value determination process.

The statement must also identify each block upon which the bidder submitted a bid or participated as a partner in a bid, but for which it did *not* use enhanced or reprocessed pre- or post-stack geophysical data and information as part of the decision to bid or to participate in the bid. The GDIS must be submitted, even if no enhanced geophysical data and information were used in bid preparation for the tract.

In the event your company supplies any type of data to MMS, your company must meet the following requirements to get reimbursed:

1. Your company must be registered with the Central Contractor Registration (CCR). The initial registration is valid for one year and must be updated annually thereafter. The Web site for registering is: <http://www.ccr.gov>. This is a requirement that was implemented on October 1, 2003, and requires all entities doing business with the Government to complete a business profile in the CCR. It must be *updated annually*. Payments are made electronically based on the information contained in the CCR. Therefore, if your company is not *actively* registered in the CCR, MMS *will not* be able to reimburse or pay your company for any data supplied.

2. Your company must complete an on-line application for your Representations (Reps) and Certifications (Certs) at <http://orca.bpn.gov>. ORCA (On-line Representations and Certifications

Application) is an E-Government initiative. Even though your company may have never provided Reps and Certs previously, they are now mandated in order to do business with the Government or receive reimbursement.

Please also refer to the Final NOS 210 Package for more detail concerning submission of the GDIS, making the data available to MMS following the lease sale, preferred format, reimbursement for costs, and confidentiality.

Force Majeure: The Regional Director of MMS Gulf of Mexico Region has the discretion to change any date, time, and/or location specified in the Final NOS 210 Package in case of a force majeure event which the Regional Director deems may interfere with the carrying out of a fair and proper lease sale process. Such events may include, but are not limited to, natural disasters (earthquakes, hurricanes, and floods), wars, riots, acts of terrorism, fire, strikes, civil disorder or other events of a similar nature. In case of such events, bidders should call (504) 736-0557 or access our Web site at: <http://www.gomr.mms.gov> for information about any changes.

Notice: On April 17, 2009, the U.S. Court of Appeals for the District of Columbia Circuit issued a ruling in *Center for Biological Diversity v. Department of the Interior*, Nos. 07-1247, 07-1344, vacating and remanding for the Secretary's reconsideration the 2007-2012 OCS Oil and Gas Leasing Program. On May 11, 2009, the Department of the Interior filed a petition for rehearing and/or clarification of the court's order. The U.S. Court of Appeals for the DC Circuit is reviewing the Government's petition. The decision to hold this sale will be subject to further proceedings in that case. In the event the Department determines that it is necessary to cancel the sale, the bid envelopes will be returned to bidders unopened.

Acting Director, Minerals Management Service.

Determinations

On the basis of the record¹ developed in the subject investigations, the United States International Trade Commission (Commission) determines, pursuant to sections 703(a) and 733(a) of the Tariff Act of 1930 (19 U.S.C. 1671b(a) and 1673b(a)) (the Act), that there is a reasonable indication that an industry in the United States is threatened with material injury by reason of imports from China of prestressed concrete steel wire strand, provided for in subheading 7312.10.30 of the Harmonized Tariff Schedule of the United States, that are alleged to be sold in the United States at less than fair value (LTFV) and subsidized by the Government of China.

Pursuant to section 207.18 of the Commission's rules, the Commission also gives notice of the commencement of the final phase of its investigations. The Commission will issue a final phase notice of scheduling, which will be published in the **Federal Register** as provided in section 207.21 of the Commission's rules, upon notice from the Department of Commerce (Commerce) of affirmative preliminary determinations in the investigations under sections 703(b) or 733(b) of the Act, or, if the preliminary determinations are negative, upon notice of affirmative final determinations in those investigations under sections 705(a) or 735(a) of the Act. Parties that filed entries of appearance in the preliminary phase of the investigations need not enter a separate appearance for the final phase of the investigations. Industrial users, and, if the merchandise under investigation is sold at the retail level, representative consumer organizations have the right to appear as parties in Commission antidumping and countervailing duty investigations. The Secretary will prepare a public service list containing the names and addresses of all persons, or their representatives, who are parties to the investigations.

Accordingly, effective May 27, 2009, the Commission instituted countervailing duty investigation No. 701-TA-464 and antidumping duty investigation No. 731-TA-1160 (Preliminary).
