**Draft General Management Plan/  
Wilderness Management Plan/Draft  
Environmental Impact Statement,  
Apostle Islands National Lakeshore, WI**

**AGENCY:** Department of the Interior,  
National Park Service.

**ACTION:** Notice of availability of the  
Draft General Management Plan/  
Wilderness Management Plan/Draft  
Environmental Impact Statement,  
Apostle Islands National Lakeshore, WI.

**SUMMARY:** Pursuant to Section 102(2)(C)  
of the National Environmental Policy  
Act of 1969 (42 U.S.C. 4332(2)(C)), the

National Park Service (NPS) announces  
the availability of the Draft General  
Management Plan (GMP)/Wilderness  
Management Plan (WMP)/  
Environmental Impact Statement (EIS)  
for Apostle Islands National Lakeshore,  
Wisconsin.

This document provides a framework  
for management of Apostle Islands  
National Lakeshore and the Gaylord  
Nelson Wilderness, including its  
resources, visitors, and facilities, for the  
next 15–20 years. The document  
describes four alternatives for  
management of the park, including a no-  
action alternative, and analyzes the  
environmental impacts of those  
alternatives.

The NPS preferred alternative would  
focus on providing opportunities for  
more people to have an island  
experience. Additional transportation  
opportunities would be sought to  
encourage visitors to come to Sand,

Basswood, and Oak Islands. Some  
additional visitor facilities would be  
developed on these islands. There  
would be no change in the number of  
public docks in the park, but some  
docks would be relocated, improved, or  
expanded. The Bayfield Visitor Center  
would be moved closer to the water to  
improve contact with visitors and to be  
located with an operations center. The  
Little Sand Bay Visitor Center would be  
replaced with a visitor contact station.  
A new ranger station and accessible  
beach ramp would be developed at  
Meyers Beach. Two light stations would  
be restored or rehabilitated, similar to  
the Raspberry Island light station. The  
wilderness area would continue to be  
managed as it is now, with the  
exception of the Oak Island group  
campsite being removed and the site  
restored.

**DATES:** There will be a 60-day public review period for comments on this document. Comments on the GMP/WMP/EIS must be received no later than 60 days after the Environmental Protection Agency publishes its notice of availability in the **Federal Register**.
