

4. *Unfunded Mandates Reform Act*: Because this action approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, this action does not contain any unfunded mandate, or significantly or uniquely affect small governments, as described in the Unfunded Mandates Act;

5. *Executive Order 13132*: Federalism—EO 13132 does not apply to this action because this action will not have federalism implications (*i.e.*, there are no substantial direct effects on States, on the relationship between the national government and States, or on the distribution of power and responsibilities between Federal and State governments);

6. *Executive Order 13175*: Consultation and Coordination with Indian Tribal Governments—EO 13175 does not apply to this action because it will not have Tribal implications (*i.e.*, there are no substantial direct effects on one or more Indian Tribes, on the relationship between the Federal government and Indian Tribes, or on the distribution of power and responsibilities between the Federal government and Indian Tribes);

7. *Executive Order 13045*: Protection of Children from Environmental Health and Safety Risks—This action is not subject to EO 13045 because it is not economically significant and is not based on health or safety risks;

8. *Executive Order 13211*: Actions that Significantly Affect Energy Supply, Distribution, or Use—This action is not subject to EO 13211 because it is not a significant regulatory action as defined in EO 12866;

9. *National Technology Transfer Advancement Act*: This provision directs EPA to use voluntary consensus standards in its regulatory activities unless to do so would be inconsistent with applicable law or otherwise impracticable. Voluntary consensus standards are technical standards (*e.g.*, materials specifications, test methods, sampling procedures, and business practices) that are developed or adopted by voluntary consensus standards and bodies. EPA approves State programs so long as the State programs meet the criteria delineated in 40 CFR part 258. It would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets 40 CFR part 258 requirements. Thus, the National Technology Transfer Advancement Act does not apply to this action;

10. *Congressional Review Act*: EPA will submit a report containing this action and other information required by the Congressional Review Act (5 U.S.C. 801 *et seq.*) to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication in the **Federal Register**.
