

conference. The sessions will be held in the Commission Meeting Room and other conference rooms at the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please note that the conference will begin at 1 p.m. on Thursday, November 19.

Panelists in the afternoon session on November 19 will discuss the overall approach to and scope of the National Action Plan, as proposed in the Discussion Draft, followed by a closing plenary session. The morning breakout sessions on November 20 will focus on each of the three statutory objectives set out in EISA and the possible activities identified in the Discussion Draft. The technical conference represents one of the means for stakeholders to provide input on the National Action Plan. Those interested will also have an opportunity to submit comments on the Discussion Draft and the technical conferences.

The November 19 panel sessions and the November 20 plenary session of the conference will be transcribed. Transcripts of the conference will be immediately available for a fee from Ace-Federal Reporters, Inc. (202-347-3700 or 1-800-336-6646). A free Web cast of the November 19 panel sessions and the November 20 closing plenary session will be available. Anyone with Internet access interested in viewing this conference can do so by navigating to <http://www.ferc.gov>'s Calendar of Events and locating the appropriate event in the Calendar. The events will contain a link to the applicable Web cast option. The Capitol Connection provides technical support for the Web casts and offers the option of listening to the conferences via phone-bridge for a fee. If you have any questions, visit <http://www.CapitolConnection.org> or call 703-993-3100. The morning breakout sessions on November 20 will not be Web cast or transcribed, but they are open to everyone and we encourage all to attend. During the breakouts, Commission staff anticipates detailed discussion on the elements described in the Discussion Draft.

Commission conferences are accessible under section 508 of the Rehabilitation Act of 1973. For accessibility accommodations, please send an e-mail to accessibility@ferc.gov or call toll free (866) 208-3372 (voice) or (202) 208-1659 (TTY), or send a FAX to (202) 208-2106 with the required accommodations.

Date: November 13, 2009.

In Order Nos. 719 and 719-A, the Commission established reforms to improve the operation of organized wholesale electric power markets and amended its regulations under the Federal Power Act in the areas of: (1) Demand response; (2) long-term power contracting; (3) market monitoring policies; and (4) the responsiveness of regional transmission organizations (RTOs) and independent system operators (ISOs) to their customers and other stakeholders.¹ The RTOs and ISOs filed in compliance with Order Nos. 719 and 719-A in the above-referenced proceedings.

The staff of the Federal Energy Regulatory Commission will hold a technical conference in the near future to provide a forum for interested participants to discuss the fourth topic identified above—the responsiveness of RTOs and ISOs to their customers and other stakeholders. The technical conference will be held in the Commission Meeting Room at the Commission's Washington, DC headquarters, 888 First Street, NE.

The purpose of this notice is to advise the public of the technical conference. The Commission will notify the public as to the date for the technical conference, as well as specific information on the starting and ending times, the topics to be explored, and the format of the technical conference in a subsequent notice. All interested parties are invited to attend. There is no registration fee to attend this technical conference.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8981-8]

Proposed Reissuance of the NPDES General Permit for Concentrated Animal Feeding Operations (CAFOs) Located in the State of Idaho (IDG010000)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed NPDES general permit reissuance.

SUMMARY: The Director, Office of Water and Watersheds, EPA Region 10 proposes to reissue the National Pollutant Discharge Elimination System (NPDES) General Permit for Concentrated Animal Feeding Operations (CAFOs) in the State of Idaho (permit), including Indian Country. As proposed, all animal feeding operations (AFOs) that meet the regulatory definition of a CAFO, discharge or propose to discharge, and are subject to 40 CFR Part 412 are eligible for coverage under the permit. Eligible CAFOs may apply for authorization under the terms and conditions of the permit by submitting a Notice of Intent (NOI) and nutrient management plan (NMP). Upon receipt, EPA will review the NOI and NMP to ensure that all permit requirements are met. If EPA makes a preliminary determination that the NOI is complete, the NOI, NMP, and draft terms of the NMP to be incorporated into the permit will be made available for a thirty (30) day public review and comment period. If determined appropriate by EPA, CAFOs will be granted coverage under the permit upon written notification by EPA.

Public Comment: EPA will be accepting public comments on the permit. Interested persons may submit written comments on the permit to the attention of Nicholas Peak at the address below. Copies of the permit and fact sheet are available upon request. These

documents may also be downloaded from the Region 10 Web site at: <http://yosemite.epa.gov/R10/water.nsf/NPDES+Permits/Permits+Homepage>. All comments must include the name, address, and telephone number of the commenter and a concise statement of comment and the relevant facts upon which it is based. Comments of either support or concern which are directed at specific, cited permit requirements are appreciated. After the expiration date of the Public Notice on January 19, 2010, the Director, Office of Water and Watersheds, EPA Region 10, will consider all comments before making a final determination with respect to issuance of the permit.

DATES: Comments must be received by January 19, 2010.

ADDRESSES: Comments should be sent to: Director, Office of Water and Watersheds, U.S. EPA, Region 10, 1200 Sixth Avenue, Suite 900, M/S OWW-130, Seattle, Washington 98101. Comments may also be submitted via e-mail to the following address: peak.nicholas@epa.gov.

Public Meetings Dates and Locations

The public is invited to attend one of three public informational meetings that EPA is hosting to provide information on the permit and to answer any questions concerning the permit. These public meetings are not public hearings as set forth in 40 CFR 124.12. The informational meetings will be held at the following dates/locations: Idaho Department of Fish and Wildlife, South Regional Office, 1345 Barton Road, Pocatello, ID 83204, December 8, 2009, 1 p.m.–5 p.m.; Idaho Department of Fish and Game, Magic Valley Regional Office, 324 South 417 East, #1, Jerome, ID 83338, December 9, 2009, 10 a.m.–2 p.m.; Idaho Department of Fish and Game, Southwest Regional Office, 3101 S. Powerline Road, Nampa, ID 83686, December 10, 2009, 10 a.m.–2 p.m.

FOR FURTHER INFORMATION CONTACT:

Additional information can be obtained by contacting Mr. Nicholas Peak at the following address/phone number: U.S. EPA, Region 10, Idaho Operations Office, 1435 N. Orchard Street, Boise, Idaho 83706; Telephone: (208) 378-5765. In addition, additional information is available on the EPA Region 10 Web site at: <http://yosemite.epa.gov/R10/water.nsf/NPDES+Permits/Permits+Homepage>.

SUPPLEMENTARY INFORMATION: An existing permit, NPDES Permit No. IDG010000 (existing permit), was previously reissued on May 27, 1999 and expired on May 27, 2002. The existing permit was administratively

extended and will remain in effect until a new permit is reissued for those discharges which were covered at the time of expiration. The existing permit authorizes discharges of process wastewater from all operations classified as a CAFO in the State of Idaho. EPA proposes to replace the existing permit with the permit numbered as IDG010000. The permit adds additional requirements contained in the revised CAFO regulations at 40 CFR parts 122 and 412 which were published in the **Federal Register** at 73 FR 70418 (November 20, 2008.) The permit adds new requirements relating to NMPs for permitted CAFOs. CAFO owners or operators were required to develop and implement NMPs under the 2003 rule; the 2008 rule now requires CAFO owners or operators to submit their facility's NMPs along with the NOI. EPA Region 10, as the permitting authority, will review the NMPs submitted with the NOIs and will establish the terms of the NMP that are enforceable elements of the permit. EPA Region 10 will provide the public with an opportunity for meaningful review and comment on the NMPs and the terms of the NMPs will be incorporated into the permit.

Regulated entities. The permit regulates discharges from CAFOs located in the State of Idaho including Indian Country. To determine whether your facility, company, business, organization, etc., may be affected by today's action, you should carefully examine the applicability criteria in Part I of the permit. Questions on the permit's application to specific facilities may also be directed to Mr. Peak at the telephone number or address listed above.

State Certification. Section 401 of the Clean Water Act, 33 U.S.C. 1341 requires EPA to seek a certification from the State that the conditions of the permit are stringent enough to comply with State water quality standards. EPA obtained a draft certification from the Idaho Department of Environmental Quality (IDEQ) on October 6, 2009. EPA intends to seek a final certification from IDEQ prior to issuing the final permit. When IDEQ issues certification, it may impose more stringent conditions than are currently included in the permit to ensure compliance with State water quality standards.

National Environmental Policy Act. The National Environmental Policy Act (NEPA) requires EPA to conduct an environmental review for new source NPDES permit actions pursuant to the Council on Environmental Quality (CEQ) regulations at 40 CFR Parts 1500–1508 and EPA's NEPA implementing

regulations at 40 CFR Part 6. NEPA requirements must be complied with prior to allowing permit coverage of new sources (*i.e.* Large CAFOs whose construction began after April 14, 2003). New sources seeking permit coverage must submit an Environmental Information Document (EID) or Draft Environmental Assessment (EA) along with their Notice of Intent (NOI) and Nutrient Management Plans (NMPs) pursuant to the requirements at 40 CFR 6.200(g)(2) and 40 CFR Part 6, Subpart C.

Endangered Species Act. Section 7 of the Endangered Species Act requires Federal agencies to consult with the National Marine Fisheries Service (NMFS) and the U.S. Fish and Wildlife Service (USFWS) if their actions have the potential to either beneficially or adversely affect any threatened or endangered species. EPA has determined that the permit is not likely to adversely affect any threatened or endangered species. The fact sheet and the permit will also be submitted to NMFS and USFWS for review during the public comment period. EPA will obtain concurrence with its determination from NMFS and USFWS prior to issuing the final permit.

Executive Order 12866. The Office of Management and Budget has exempted this action from the review of requirements of Executive Order 12866 pursuant to Section 6 of that order.

Paperwork Reduction Act. The information collection requirements of this permit were previously approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.* and assigned OMB control number: 2040–0250 for NPDES Form 2B (NPDES permit application).

Regulatory Flexibility Act. After review of the facts presented in the notice of intent, permit and fact sheet, the Administrator of EPA certifies, pursuant to the provisions of 5 U.S.C. 605(b), that this permit will not have a significant impact on a substantial number of small entities. Moreover, the permit reduces a significant administrative burden on regulated sources.

Unfunded Mandates Reform Act. Section 201 of the Unfunded Mandates Reform Act (UMRA), Public Law 104–4, generally requires Federal agencies to assess the effects of their “regulatory actions” [defined to be the same as “rules” subject to the RPA] on Tribal, State and local governments, and the permit issued today is not a “rule” subject to the RFA, and is therefore not subject to the UMRA.

Dated: November 6, 2009.

Region 10.*
