

registrant of the products listed in Table 1 of this unit.

TABLE 2. — REGISTRANT REQUESTING VOLUNTARY CANCELLATION AND/OR AMENDMENTS

EPA Company Number	Company Name and Address
5481	AMVAC Chemical Corporation, 4695 Macarthur Court, Suite 1250, Newport Beach, CA 92660-1706

IV. What is the Agency's Authority for Taking this Action?

Section 6(f)(1) of FIFRA provides that a registrant of a pesticide product may at any time request that any of its pesticide registrations be canceled or amended to terminate one or more uses. FIFRA further provides that, before acting on the request, EPA must publish a notice of receipt of any such request in the **Federal Register**. Thereafter, following the public comment period, the Administrator may approve such a request.

V. Procedures for Withdrawal of Request and Considerations for Reregistration of Difenzoquat

Registrants who choose to withdraw a request for cancellation must submit such withdrawal in writing to the person listed under **FOR FURTHER INFORMATION CONTACT**, postmarked before December 28, 2009. This written withdrawal of the request for cancellation will apply only to the applicable FIFRA section 6(f)(1) request listed in this notice. If the products have been subject to a previous cancellation action, the effective date of cancellation and all other provisions of any earlier cancellation action are controlling.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to these requests for cancellation of difenzoquat product registrations, EPA proposes to include the following provisions for the treatment of any existing stocks of the products

identified or referenced in Table 1 in Unit III.

If the request for voluntary cancellation is granted as discussed in this unit, the Agency proposes to issue a cancellation order that will allow AMVAC to sell and distribute existing stocks of the products identified in Unit III. until December 31, 2010. All sale or distribution of existing stocks by AMVAC is prohibited after December 30, 2010, unless that sale or distribution is solely for the purpose of facilitating disposal or export of the product.

The Agency will allow persons other than the registrant to continue to sell and/or use existing stocks of canceled products until such stocks are exhausted, provided that such use is consistent with the terms of the previously approved labeling on, or that accompanied, the canceled product. The order will specifically prohibit any use of existing stocks that is not consistent with such previously approved labeling. The Agency will publish the cancellation order in the **Federal Register**.

List of Subjects

Environmental protection, Pesticides and pests.

Dated: November 12, 2009.

Peter Caulkins,

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2006-0955; FRL-8800-2]

Rodenticides; Product Cancellation Order; Correction

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; correction and clarification.

SUMMARY: EPA issued a rodenticides product Cancellation Order in the **Federal Register** of September 30, 2009. This document is being issued to correct clerical errors and to clarify the existing stocks provisions.

DATES: The correction is effective date of publication in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Rusty Wasem, Pesticide Re-evaluation Division (7508P), Office of Pesticide

Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: 703-305-6979; e-mail address: wasem.russell@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

The Agency included in the notice a list of those who may be potentially affected by this action. If you have questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

EPA has established a docket for this action under docket identification (ID) number EPA-HQ-OPP-2006-0955. Publicly available docket materials are available either in the electronic docket at <http://www.regulations.gov>, or, if only available in hard copy, at the Office of Pesticide Programs (OPP) Regulatory Public Docket in Rm. S-4400, One Potomac Yard (South Bldg.), 2777 S. Crystal Dr., Arlington, VA. The hours of operation of this Docket Facility are from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The Docket Facility telephone number is (703) 305-5805.

II. What Does this Correction Do?

In the **Federal Register** of September 30, 2009 EPA issued a product cancellation order canceling certain rodenticide registrations voluntarily requested by the registrants and accepted by the Agency. Subsequent to the September 30, 2009 publication date, it was determined that some of the products which were listed in Table 1—Rodenticide Product Cancellations, had been cancelled previously. This notice corrects the September 30, 2009 notice and clarifies the provisions for disposition of existing stocks.

FR Doc.E9-23452 published in the **Federal Register** of September 30, 2009 (74 FR 50194) (FRL-8438-6) is corrected as follows:

1. The **DATES** caption on page 50194, is corrected to read:

DATES: The products listed in Table 1 are cancelled on June 4, 2011.

2. On page 50195, table 1 is corrected to read as follows:

TABLE 1.—RODENTICIDE PRODUCT CANCELLATIONS

EPA Registration Number	Product Name
Cholecalciferol (PC Code 202901)	
12455-57	Quintox Mouse Seed
Bromadiolone (PC Code 112001)	
12455-68	Contrac Mouse Bait Station
12455-104	Contract Mouse Control Kit
Bromethalin (PC Code 112802)	
47629-10	Bromethalin Manufacturing Concentrate
Diphacinone (PC Code 067701)	
3487-26	Eagles-14 Diphacinone Rat Bait
11885-12	Master Mix Blue Death-D Rat & Mouse Bait
11885-15	Master Mix Blue Death-D Rat & Mouse Hide-A-Pack
Warfarin (PC Code 086002)	
3487-19	Eagles-7 Rat Bait
62577-7	Echols Mouse & Rat Pellets
72500-7	Kaput Mouse Blocks

III. Products Previously Cancelled

The registrations listed in Table 2 below were inadvertently included in Table 1 of the notice published on September 30, 2009, for which this

notice corrects. The products listed in Table 2 below were canceled previously for non-payment of maintenance fees and do not have an effective cancellation date of June 4, 2011. Please note that regardless of the existing

stocks provision for products listed in Table 2 below, registrants of these products are not permitted to release these products into the channels of trade after June 4, 2011.

TABLE 2.—PRODUCTS PREVIOUSLY CANCELLED

EPA Registration Number	Product Name	Date of Cancellation
Cholecalciferol (PC Code 202901)		
3240-28	Rampage Mouse Seed	July 16, 2009
3240-42	Rampage Rat & Mouse Bait	July 16, 2009
Bromadiolone (PC Code 112001)		
12455-103	Contrac Bait Trays	September 15, 2009
Bromethalin (PC Code 112802)		
12455-100	Fastrac Mouse Seed Place Pac	September 15, 2009
Diphacinone (PC Code 067701)		
12455-67	Ditrac Mouse Bait Station	September 15, 2009
Diphacinone, sodium salt (PC Code 067705)		
3240-17	Motomco Water Soluble Diphacinone Rodenticide Concentrate Kills Rats And Mice	July 16, 2009
Warfarin (PC Code 086002)		
5887-51	Black Leaf Warf Pellets	July 16, 2009
5887-98	Black Leaf Warf Pellets Mouse Killer	July 16, 2009

TABLE 2.—PRODUCTS PREVIOUSLY CANCELLED—Continued

EPA Registration Number	Product Name	Date of Cancellation
12455-15	Warfarin Rat And Mouse Bait	September 15, 2009
Warfarin, sodium salt (PC Code 086003)		
12455-22	Liqua-Tox Liquid Concentrate	September 15, 2009
Zinc Phosphide (PC Code 088601)		
12455-59	ZP Rodent Bait Place Pac	September 15, 2009
12455-85	Mole And Gopher Bait	September 15, 2009

[FRL–8984–2]

Notice of a Project Waiver of Section 1605 (Buy American Requirement) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the Gwinnett County, GA, Department of Water Resources

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA is hereby granting a project waiver of the Buy American requirements of ARRA Section 1605 under the authority of Section 1605(b)(2) [manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality] to the Gwinnett County, Georgia, Department of Water Resources (County) for the purchase of an Austrian manufactured Anaerobic digester gas fueled engine generator set specified as General Electric (GE) Jenbacher JMS 616, 2147 kilowatts for application in a combined heat and power system for use at the F. Wayne Hill Resources Center in the County. The product is manufactured by GE Jenbacher (Jenbach, Austria) and provided by General Electric Water & Process Technologies. The County stated that there was no apparent domestic manufactured biogas engine generator set with the specific fuel utilization/electric power output capacity and variable fuel blending

capability required for the utility's combined heat and power needs. This is a project specific waiver and only applies to the use of the specified product for the ARRA funded project being proposed. Any other ARRA project that may wish to use the same product must apply for a separate waiver based on the specific project circumstances. The Acting Regional Administrator is making this determination based on the review and recommendation of the EPA Region 4, Water Protection Division, Grants and Infrastructure Branch. The County has provided sufficient documentation to support their request. The Assistant Administrator of the Office of Administration and Resources Management has concurred on this decision to make an exception to Section 1605 of ARRA. This action permits the purchase of an anaerobic digester gas fueled engine generator set manufactured by GE Jenbacher for the proposed project being implemented by Gwinnett County, Georgia.

DATES: *Effective Date:* October 7, 2009.

FOR FURTHER INFORMATION CONTACT: Carl Biemiller, Project Officer, (404) 562–9341, Grants and Infrastructure Branch, Water Protection Division, Region 4, US EPA, Atlanta Federal Center, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960.

SUPPLEMENTARY INFORMATION: In accordance with ARRA Section 1605(c) and pursuant to Section 1605(b)(2) of Public Law 111–5, Buy American requirements, the EPA hereby provides notice that it is granting a project waiver to the County for the acquisition of the GE Jenbacher Austrian manufactured biogas engine generator set. The manufacturer is GE Water & Process Technologies Company.

Section 1605 of the ARRA requires that none of the appropriated funds may be used for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured good use

in the project are produced in the United States, unless a waiver is provided to the recipient by the EPA. A waiver may be provided if EPA determines that (1) Applying these requirements would be inconsistent with the public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or (3) iron, steel and the relevant manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

The County's Department of Water Resources proposes to construct the F. Wayne Hill Water Resources Center (WRC) Digester Gas to Energy Project. This project would permit a renewable energy source for use by the project and the nearby wastewater treatment plant (WWTP). The project intends to convert previously flared anaerobic digester gas to electricity and heat for plant operations. The County proposes to use a General Electric (GE) Jenbacher JMS 616, 2147 kilowatts gas engine to convert digester gas to electrical and thermal energy with the recapture of the heat from the engine-generator in a combined heat and power (CHP) design. Electrical energy generated by the CHP system will reduce the utility needs of the WRC by an estimated thirty (30) percent, partially replacing grid purchased electricity. Thermal energy from the CHP system will be beneficially utilized to maintain the optimum temperature in the anaerobic digestion process now performed by natural gas boilers. The County's specifications require that the design rating of the biogas engine generator be sized to utilize as much of the WRC's available biogas as possible. The application states that based on this requirement, the engine generator set to be supplied must be rated for a power output in excess of 2000 kw. Also, to maximize the utilization of the Center's available biogas, the engine generator
